Summary

I am experienced in hands-on project **management**, inventory control, customer service retail **management** and product marketing. I assisted in the development of a merchandise **line** currently being sold at Walt Disney World. I develop sound business strategies, in particular, bringing inventory shrink down to under 1% at Atlanta's famous World of Coca-Cola. Historically I have worked best among a strong team, but am willing and capable to take on projects and assignments alone. I strive to work within a strong team setting aligned to achieve the goals of the business unit as well as the company as a whole. The companies that I have worked for are regarded as two of the best in the world and the **training** that I have received is revered as second to none the world over. I bring that **training** and the experience of working in high stresspressure situation for weeks on **end** with me everyday. I am a voracious reader and researcher and bring those **skills** from my personal life to my professional life when given the opportunity. I am not afraid of doing the "unglamorous" ground work for any project or assignment. I have worked in some extremely diverse settings, working along side people of varying ages, from all over the United States and the world. I am now a Contracts Specialist with McKesson's MPTS division (see my description below), a new **line** of business and a new group of challenges to tackle. I look forward to growing in my professional life and bring my unique background to the Legal world.
