JOHN T. SIMCIK

Garner, NC 27529 | [c] 919.264.0128 | john.simcik@att.net

www.linkedin.com/in/john-simcik

IT PROJECT MANAGEMENT & APPLICATION DEVELOPMENT LEADER

Revitalizing under-performing organizations

- Lead Supply Chain analyst of team responsible for successful JDA 2018 upgrade in Demand, Fulfillment/Replenishment, Inventory Optimization and Dynamic Allocation. Worked through roadblocks of pandemic to deploy JDA 2018 critical to Supply Chain organization's digital transformation.
- Created and supported UAT scripts for all JDA and related internal system replenishment requirements. UAT was successful in validating major changes in processes paramount to increased efficiency provided by JDA 2018 application upgrades.
- Delivering Agile project leadership for IT Supply Chain Applications group currently focused on a global \$30 million Smart Factory MES initiative for Sealed Air Corp. This initiative is being designed and developed to standardize production processes, streamline engineering requirements across multiple product platforms, and meet or exceed key performance indicators and operational metrics for 58 facilities in 54 countries. Led blueprinting of future integration to Rockwell Automation Factory Talk Production Center platform.
- Managed rollout of Planview PPM software to Supply Chain applications global analyst team. Led training and knowledge transfer activities for both domestic and international team members. The following benefits were realized:
 - Improved visibility to resource allocation allowing more efficient capacity utilization and flexibility of globally based resources across various projects
 - Provided comprehensive applications inventory management view in PPM tool which led to improved visibility to licensing and contractual obligations for applications.
- Project Manager for Foundation EDI \$5M capital project which successfully delivered vastly improved metrics in key performance areas:
 - Reconfiguration of EDI transactional business process to include case level detail - an **increase in 3PL partner inventory accuracy to 99.8%**
 - Implemented standardized bar-code label format in 6 manufacturing plants - realized a **30% bump in order fill rate**.
 - Deployed Seeburger 15-site EDI portal in with the use of standard EDI transactions like ASN, delivery notice, shipment detail, and receipt. **Accuracy of STO shipment receipts increased to near 100%**
- Provided leadership, strategic direction and hands-on Project Management training in standing up a PMO for Butterball. Initiated and governed the implementation of a formalized project management methodology with a core team of seven Business Analysts. **Structure and discipline of the PMO achieved an on-time and on-budget metric of 90%.**

JOHN T. SIMCIK

Garner, NC 27529 | [c] 919.264.0128 | john.simcik@att.net

www.linkedin.com/in/john-simcik

IT PROJECT MANAGEMENT & APPLICATION DEVELOPMENT LEADER

Revitalizing under-performing organizations

- Successful coach and mentor delivering formalized **training** to my BA team for projects across all SAP modules including SD, MM, PP/PI, FICO, BPC and PLM. Flexibility of my BA's to work across business **analysis** requirements and project management capabilities **saved the company nearly \$500K** with cost avoidance from hiring external resources to manage projects.
- **Finished goods forecast accuracy consistently near 95% for top 5 highest volume customers.** As Lead analyst for JDA supply and demand management at Butterball supply chain **order fill rate climbed to 92%, highest rate recorded.**
- Through tight Agile Project Management controls and communication, **shortened AOP preparation time from 8 weeks to 3 weeks** by managing the **implementation** of SAP Business **Planning** & Consolidation (BPC) module. Rework of AOP plan dropped from over ten iterations to two. **% Accuracy of 2017 AOP pegged at an all-time high.**
- Provided leadership and PM oversight for **implementation** of CCH SureTax use tax **software integration** into SAP. Successful deployment **provided a cost avoidance of over \$1M** through preemptive management of taxable vendor MRO and supplies.
- **Decreased manufacturing total variance account by 20%** by cleaning up the business unit costing models that were negatively impacting the account through undetectable transaction entries derived from irregular ingredient and raw material substitutions.
- Led due diligence efforts for global organization used to sustain and justify acquisition of compatible and tactical business technology and services strategically positioned globally. **Sale finalized and company realized a 15% increase in annual revenue.**
- Served as Timet project manager for European rollout and full scale **implementation** of SAP R/3 at six major manufacturing and distribution facilities **including Witton, England, Waunarlwydd, Wales, Savoie UGINE, France, Dusseldorf, Germany, Loterios and Madrid, Spain.** Directed team from US in overcoming language barriers, business and culture differences including duty, tariff, tax, currency and import/export regulation to successfully meet goals,

www.linkedin.com/in/john-simcik

IT PROJECT MANAGEMENT & APPLICATION DEVELOPMENT LEADER

Revitalizing under-performing organizations

- Served as Scrum Master for Store Order Management and Call Center Order Management tracks of OMS systems development cycle. Both tracks boasted a Development, Quality Assurance and Deployment success rate near 90% per 2-week sprint duration in an Agile Project environment.
- Continuous participation in solutioning sessions for process alternatives or work-around options to meet critical MVP planning commitments within timeline and budget.

TATA CONSULTANCY SERVICES | LOWE'S HOME IMPROVEMENT, MOORESVILLE, NC

SUPPLY CHAIN SR. PROJECT MANAGEMENT CONSULTANT | OCTOBER 2019 – NOVEMBER 2020

JDA Architect / Project Management / Application Delivery

- Senior Consulting Architect leading the Lowe's Home Improvement Corporation Supply Chain Demand, Replenishment and Inventory Optimization efforts with core JDA 2018 SCPO software upgrade.
- Championed solution design and re-engineering of demand, replenishment, inventory optimization, dynamic allocation and transportation management across entire supply chain landscape.
- Authored near 100 Standard Operating Procedure across Lowe's Supply Chain organization to satisfy immediate audit requirements as well as upgrading knowledge base and documentation for new users and internal use cross training requirements.
- Lead consultant driving business transition in the areas of Systems & Process Training, Development of UAT strategy and execution and documentation including SOP's, work instructions and design/build of internal knowledge base.
- Provided best practice experience and expertise for establishing critical SOP's across all Lowe's Supply Chain areas including Demand, Replenishment, Inventory Optimization, Dynamic Allocation and Reporting Analytics.
- Team member in Innovations group tasked with leading the preparation and readiness for Go-Live of JDA 2018 in July of 2020. Highly successful upgrade to JDA 2018 was critical step in the foundational shift to overall digital technology transformation and refresh at Lowe's Home Improvement Corporation.

SEALED AIR CORPORATION | CHARLOTTE, NC

INDUSTRY 4.0 IT SUPPLY CHAIN APPLICATIONS LEAD ANALYST | JULY 2018 – OCTOBER 2019

JOHN T. SIMCIK

Garner, NC 27529 | [c] 919.264.0128 | john.simcik@att.net

www.linkedin.com/in/john-simcik

IT PROJECT MANAGEMENT & APPLICATION DEVELOPMENT LEADER

Revitalizing under-performing organizations

Sealed Air Corporation is a knowledge-based company focused on packaging solutions with \$4.5 billion in annual revenue. Sealed Air has approximately 15,000 employees with 122 countries served. Their portfolio of widely recognized brands, including Cryovac® brand food packaging solutions and Bubble Wrap® brand cushioning, enable a safer and less wasteful food supply chain and protect valuable goods shipped around the world.

INDUSTRY 4.0 IT SUPPLY CHAIN APPLICATIONS LEAD ANALYST

JULY 2018 –

OCTOBER 2019

Key Business Impacts:

- **Allotted exclusively to lead position** to take advantage of diverse experience in application development, resource allocation, management oversight, leadership and project methodology.
- **Sr. Implementation Analyst for Sealed Air IT Supply Chain application MES project team** and 3rd party consulting firm hired to supplement OutSystems low code development efforts on both back-end and UI/UX design for customization of MES architecture. Led discovery and strategic planning for mobility platform including hand-held shop floor devices, cell phone application and Carousel/Brightview digital signage platform at plant facilities.
- **Led discovery and blueprinting of integration** requirements for future coupling of Rockwell Automation Factory Talk Production Center MES layer to OutSystems custom developed backend architecture.
- **Provided leadership and oversight** for MES functional business analysts while coaching, training and mentoring the team on creation of Epics, User Stories, Bugs, etc. while using JIRA as tool to facilitate Sprint work and deliverables.
- **Enabled Executive Leadership** to gain confidence in Sprint deliverables and Minimum Viable Product work prioritization by insuring timesheet and invoice submission from consulting partner matched deliverables and money spent was shown to clearly be adding value to the progression of the project.
- **Selected as IT Supply Chain Applications representative** for resource management for all global IT related projects in Planview Project Portfolio Management software recently implemented at Sealed Air Corp.

BUTTERBALL, LLC | GARNER, NC

BUTTERBALL

MULTIPLE POSITIONS | OCT. 2013 – FEB. 2018

Butterball is the largest vertically integrated turkey producer in the United States and accounts for 30 percent of total turkey production in this country. Butterball employs nearly 8,000 associates in its six plant locations, sales and corporate offices. At 790,000 square feet, the Butterball plant in Mt. Olive, NC is the world's largest turkey processing plant.

IT PROJECT MANAGEMENT & APPLICATION DEVELOPMENT LEADER

Revitalizing under-performing organizations

PMO (PROJECT MANAGEMENT OFFICE)

JAN. 2014 –

FEB. 2018

Key Business Impacts:

- **Led transformation of unorganized ad hoc project management** to formalized project management methodology. Instituted necessary PM foundation to support project portfolio and corresponding discipline to effectively and efficiently manage high dollar capital initiatives through **implementation**. Instilled discipline and PM structure saved the **IT** organization \$1.6 million dollars in project spend by avoiding rework and meeting established timelines.
- **Effectively coached and developed seven business analysts** to embrace Project Management and use standard tools and templates to identify and mitigate projects risk, anticipate bottlenecks or constraints, and be proactive in building relationships and a communication pipeline to the business stakeholders. Managed customer expectations, anticipating project risk, and proactively preparing mitigation strategy to adverse conditions or events.
- **Provided influential oversight** in insuring that all **IT** projects aligned with the Butterball business strategy and achieved world-class levels of quality, speed and cost during the **planning** and execution of all **IT** projects. **In 2017, 90% of all projects were delivered on time and on budget.**

SENIOR MANAGER, BUSINESS **ANALYSIS**

OCT. 2013

– FEB. 2018

Key Business Impacts:

- **Led successful JDA **Implementation**** and fully supported both technical and **functional** requirements for nearly seven years. Added key internal benefits to Fulfillment functionality with proposal for shelf-life visibility in inventory reporting platform.
- **Instrumental in aligning **IT** business **analysis** group with strategic executive level business development strategy.** Led initiative to invest in a formalized Project Management Methodology which governed discipline, structure and higher visibility to timeline, budget, and resource allocation.
- **Increased production order costing settlement accuracy by 25%** by modifying the chart of account hierarchy and cost center postings to more clearly define and identify the variances amounts hitting the ledger.
- **Developed framework for **IT** User Council to review and vet company-wide capital projects and project backlog,** while steering and directing the active and in-queue projects to successful on-time and on or under budget completion.
- **Driving ongoing initiative to integrate Warehouse Management, Transportation, Forecast and **Planning** and EDI systems** towards a streamlined and efficient platform capable of supporting a fast-growing, dynamic, and well-branded turkey products business with sales exceeding \$2 billion dollars.

JOHN T. SIMCIK

Garner, NC 27529 | [c] 919.264.0128 | john.simcik@att.net

www.linkedin.com/in/john-simcik

IT PROJECT MANAGEMENT & APPLICATION DEVELOPMENT LEADER

Revitalizing under-performing organizations

- **Active PMO directing and managing change** while instilling a new and strategic plan built to bring stability and value-added improvement to core areas of the business. Employing a strategic, vertical approach using core platforms as the cornerstone, Butterball is meeting or exceeding established goals in planned earnings and revenue.

SENIOR SAP F2FG BUSINESS ANALYST

OCT.

2011 – OCT. 2013

Key Business Impacts:

- **Continued support, troubleshooting, and strategic input of supply chain applications in demand**, supply and vendor managed inventory business units. Main IT resource providing support, enhancements and upgrades for JDA Forecast, Planning and Scheduling software.
 - **Steered a \$1.5 million-dollar reduction in distressed goods vs. prior year** with JDA Fulfillment implementation and subsequent fine tuning and optimization of application and peripheral forecast and planning business processes.
 - **Managed a 99.95% JDA planning system uptime percentage** by being proactive with database tuning, optimization and preventative maintenance. Batch script and system schema tuning also contributed to excellent uptime rate.
- Revised SAP Material Resource Planning program** to eliminate re-occurring problems with materials transfer from COPA through Flex Planning down to Demand Management. Revision allowed purchasing to fully commit to a vendor managed inventory position for high volume packaging, ingredient and raw material requirements purchase planning.

PROFESSIONAL HISTORY CONTINUED ...

JOHNS MANVILLE | DENVER, CO

SENIOR SAP PP/PE BUSINESS ANALYST | *AUG. 2010 – OCT. 2011*

John Manville is a leading manufacturer and marketer of premium-quality building insulation, commercial roofing, roof insulation, and specialty products for commercial, industrial and residential applications. JM's product offerings include: Formaldehyde-free™ fiber glass building insulation, commercial roofing membranes and roof insulations, filtration media, and mats and reinforcements.

Key Business Impacts:

- **Collaborated with peers, consultants and key business personnel** to acquire assemble and document specifications that would drive the design of SAP integration to Manufacturing Execution Systems for all product platforms worldwide.
- **Senior member of SAP Production Execution team** that met Business Process Simplification implementation goals of deploying SAP ECC to manufacturing facilities throughout North America within the project timeline and on-budget.

JOHN T. SIMCIK

Garner, NC 27529 | [c] 919.264.0128 | john.simcik@att.net

www.linkedin.com/in/john-simcik

IT PROJECT MANAGEMENT & APPLICATION DEVELOPMENT LEADER

Revitalizing under-performing organizations

- Developed, documented and utilized SAP training materials and work instructions site specific for end user boot camp use. Spent several weeks training management and key business users in SAP transactional functionality required to perform daily production execution and peripheral duties including scheduling, warehouse and inventory management, fico and reporting.
- Key on-site figure during site preparation, training, system upgrade and cutover activities prior to and during SAP go-live. Provided post-go live support and training which included an agenda to reach full-utilization of systems by 2nd quarter of 2012.
- Liaison between on-site system performance and programmers. Performed daily troubleshooting of system bugs and/or design flaws that required modification to meet changes in business demands.
- Point person to the resolution of technical issues surrounding the integration of MES, reporting tools, Quality Management systems and other peripheral applications used in daily plant operational functions.
- Configured SAP modules as required to achieve compliance with established business processes and maintain a flawless integration of supply chain applications and modules.
- Seasoned ability in SAP functionality and substantial experience in manufacturing operations allowed for a flawless transition into the role of Sr. PP/PE after the project start. elected as site lead analyst for the largest and most complex plant going live on SAP within the Engineered Products North American division.

CONSULTING

INDEPENDENT CONSULTANT | MULTIPLE LOCATIONS

(MULTIPLE CLIENTS) JAN. 2009 – AUG. 2010

Independent business consultant for medical device manufacturing and environmental services companies.

TECHNISOURCE & TATUM GROUP | SYSTEM LOGISTICS CORP | JUN. 2010 – AUG. 2010

Key Business Impacts:

- Performed and delivered full scale gap-analysis within supply chain areas, with emphasis on Production Planning and Materials Management components, on pre-implementation activities of SAP ECC 6.0 deployment.
- Gap-analysis allowed parent company to re-assess areas in need of additional resource, design, training or work-around.
- Worked directly with key site facility personnel to generate and propose solution/fix to functional and technical business processes, primarily within Planning and Operations, found to be misaligned with desired path.

JOHN T. SIMCIK

Garner, NC 27529 | [c] 919.264.0128 | john.simcik@att.net

www.linkedin.com/in/john-simcik

IT PROJECT MANAGEMENT & APPLICATION DEVELOPMENT LEADER

Revitalizing under-performing organizations

- **Created process flow diagrams of vital business processes** used as mapping source for potential work-around customizations to SAP ECC 6.0 base functionality.
- **Coordinated onsite-offshore blueprint and system design conversion** to programming for customization and modification for site specific requirements in SAP EEC 6.0.
- **Analyzed Production Planning parameters and configuration** to validate set-up mirrored future state system requirements geared towards alignment with parent company business process standardization and process flow.

CONSULTING CONTINUED...

YORK SOLUTIONS, INC. | ST. JUDE MEDICAL | *MAR. 2010 – JUN. 2010*

Key Business Impacts:

- **Project Manager - led company-wide adoption of GS1 barcode standard** for medical device manufacturing. Prepared project plan including project metrics, timeline and deliverables.
- **Documented business process variation throughout four divisions** using on-site discovery sessions. Generated current and future state Use Case documents for use in Steering Committee education and future direction collaborative decision-making.
- **Led efforts to align Production Planning strategy** at manufacturing sites to future labeling mandates required to meet FDA unique device identification ahead of legislation currently in draft stages.
- **Developed content and structure** of GS1 pre-implementation workshops aimed at soliciting feedback and facilitating communication amongst key personnel at four divisional sites.

RSM SOLUTIONS INC. | VEOLIA ENVIRONMENTAL | *JAN. 2010 – MAR. 2010*

Key Business Impacts:

- **Prepared site systems inventory documentation** for 23 domestic and international client sites and integrated systems inventory into shared services model plan for use as critical document in final bid proposal presentation to client.
- **Enhanced PowerPoint shared services model presentation** to client to include cost justifications for site systems replacement, future integration, and outsourcing benefit.
- **Constructed as-is and to-be roadmap** of shared services applications plan across all sites deemed essential for communicating variant options available for transition into managed services model.

Baxter

RSM SOLUTIONS INC. | BAXA CORPORATION | *JAN. 2009 – JAN. 2010*

JOHN T. SIMCIK

Garner, NC 27529 | [c] 919.264.0128 | john.simcik@att.net

www.linkedin.com/in/john-simcik

IT PROJECT MANAGEMENT & APPLICATION DEVELOPMENT LEADER

Revitalizing under-performing organizations

Key Business Impacts:

- **Configured, mapped, tested, using UAT methods**, and implemented automated clearing house payment process (ACH) for AP **resulting in \$15K monthly savings** by eliminating the manual paper check preparation process.
- **Modified the supplier PO process under Agile methodology guidelines**. Resulting improvements triggered significant reduction of invoice errors/mismatches in AP.
- **Eliminated unnecessary hand-offs, gaps and manual adjustments** in the processing of customer billing for Baxa Corp. leases by incorporating side system processes into the Baan ERP **software**.
- **Evaluated Baan Fixed Assets module** in comparison to current third-party stand-alone **software** and rendered recommendations for improved **integration** of and visibility to FA data.
- **Reviewed and evaluated status of rental inventory** and service maintenance contracts. Submitted options to improve internal tracking of equipment and staffing requirements of technical support for equipment replacement.
- **Provided solution advice and blueprint** (Waterfall diagrams) for interface to Baan ERP package for equipment warranty tracking.
- **Led discussions on solution development** for managing customer contract obligations to tier pricing, purchase volumes, and GPO pricing requirements.
- **Instrumental in progression of plant production line** based barcode labeling project to implement GS1 barcode standards format for POS product lines. Lead progress in identifying GS1 barcode project requirements including master data, production prototyping and printing **hardware infrastructure** and logistics.
