

Mirza Shukoor Baig
(shukoormirza@gmail.com, NY)

SUMMARY:

- Extensive Experience in gathering and defining requirements, analyzing/mapping business processes, supporting the design, development, **implementation**, and maintenance of solutions, services, products, and applications.
- Configured **Blue Yonder's** SCPO applications, including Demand **Planning**, Supply Planning, Inventory **Planning**/Optimization, and Transportation **Planning**, fulfillment, Dynamic Demand Response.
- Lead **cross-functional** teams both internal and external and Involved in **Solution** Design, Operations, Vendors/Partners Integrators, and **Implementation** for all operational tasks.
- Worked on the **Blue Yonder** Demand 360 for Sales and Operational **Planning** Activities.
- Supply Chain **planning** knowledge and experience in the fields of demand **planning**, forecasting, S&OP, IBP, EBP, DRP, Production Scheduling.
- Strong experience with Supply Chain **Planning** Systems (SAP IBP, JDA, OMP, O9, Kinaxis, BY(IO), IBM Watson, Oracle SCM
- Worked on the **Blue Yonder** Luminate Control Tower solutions and Demand 360 for Sales and Operational **Planning** Activities along with backend data **architecture**.
- Collaborate on solutions design in **Blue Yonder** -Enterprise Supply **Planning** (BY-ESP) and Developed acceptance criteria and building/executing test plans (FIT, Unit, UAT, Regression) Testing Phases
- Experience supporting and building new functionality in **Blue Yonder** – Enterprise Supply **Planning** (BY-ESP) module and worked **cross-functional** teams: Technical Analysts, Developers, Database Administrators, Middleware Analysts, **Solution** Analyst, **Infrastructure** Analysts, and Vendors
- Involved in WM operation on Implementing the **Blue Yonder** - Inventory Optimization (BY-IO) and **Blue Yonder** – Order Promising (BY-OP) for different DCs.
- Worked with spectrum of 3PL vendors and integrated Material Handling Systems and SAP MM, IM, WM, SD, LE and 3PL EDI **Integration** and Transportation Management Systems (TMS).
- Developed, Implemented, and controlled the Master Production Schedule considering demand, capacity, and materials availability constraints in coordination with Capacity Planner and other Supply Chain planners.
- Experience in delivering projects in Supply Chain Management, with focus toward Supply **Planning** and Demand Management with good understanding of Value Chain Synchronization
- Managed projects in a different environment with quality management systems e.g. ITIL, Six Sigma/Lean Six Sigma and worked with **Financial** Applications like EBS and ERP.
- Hands-on experience with visualization tools such as Cognos Reports, Power BI, and Tableau.
- Experience working on Agile Methodology project management using the Scrum methodology.
- Worked as Scrum Master (Product Owner) in enterprise application **implementation** cycle with agile methodology.

TECHNICAL SKILLS

- **Logistic Software:** OTM, Descartes TMS, Etrans, IOCM, Bluejay, ProCarS, TANGO
- **Databases:** Oracle, SQL Server, Sybase, Access and DB2, Google Cloud Platform
- **ERP/WH Tools:** SAP, JDA, **Blue Yonder**, Four Kites, Manhattan, McLeod, MercuryGate
- **RPA Tools:** Kofax Kapow, **Blue** Prism.
- **Mapping Tools:** Mercator 6.5, Gentran, EDISIM, Ultra Edit, XIB
- **Visualization Tools:** MS Excel, MS Visio, Tableau, Power BI, Smartsheet. Jasper/Jmeter Report

AREAS OF EXPERTISE

- SPCO – D360 – ESP – Inventory Optimization – Order Promiser– Demand & Fulfillment
- Enterprise Solutions **Architecture**
- Database-Driven Applications Development
- ERP - Manufacturing **Planning** systems
- Systems **Analysis** - Development - Testing **Integration**
- Cost-Benefit **Analysis** and Business Justification
- Project Management
- Enterprise Project Portfolio Management

PROFESSIONAL EXPERIENCE

Radial Inc., KOP, PA

Jan 2022 – Till Date

Sr SCM Consultant, Blue Yonder LCT/ESP

- Served as an internal consultant within the SCM Group team specializing in Integration to Blue Yonder, Enterprise Supply Planning capabilities in tune with operational SOPs.
- Worked on Production Scheduling and resolved Capacity Issues related to equipment, materials, and labor issues, QC Holds or delays for bulk and raw materials, plant shutdown based on the consolidated demand and on the Production scheduling priorities.
- Worked on Requisite process of creating SMDM process, adding user privilege, configure SMDM, basic nodes and SMDM nodepool.
- Worked on configuring template canvas with tabular grid and making changes to master data using Edit, bulk edit, add/delete row and filter icon using Luminate User Experience(UX) module
- Worked on utilizing the full replan, publish and Inherit buttons for the process and functionalities of the scenarioized master data management(SMDM)
- Involved in Configuration and development of enhancements/ integrations for Demand 360 and Luminate Control Tower
- Defined constraints, including capacity and material constraints and process scheduled supplies, including scheduled receipts, firm plan orders, firm plan arrivals, firm plan purchases, and vehicle load lines.
- Worked with DBA's on independent demand data, such as forecast orders, customer orders, and safety stock orders.
- Worked with Planner/Scheduler/Appointment Setter Staff to generate the master plan using the Calculate/Generate Master Plan
- Evaluated the master plan using the Agile Workbench, Analytics Dashboard and Reports, Plan Analysis, Master Planner Workbench, and Scorecard.
- Worked with planner to generate a supply plan in response to the customer orders and netted forecasts in ESP by interfacing with Demand, Inventory Planning, and Fulfillment systems on one side and the Supply Management system on the other side.
- Worked on demands, including the customer orders and forecasts related information, from the Demand, Inventory Planning, and Fulfillment systems as inputs.
- Involved with different stakeholder to generate the Material Requirement Plan (MRP) and Distribution Requirement Plan and exports these plans to the Supply Management system.
- Worked with Planner/Scheduler/Appointment Scheduler and Carrier Contacts along with business users to devise Supply Chain demand and supply priorities, and collaborate on solutions design in Blue Yonder - Enterprise Supply Planning (BY-ESP) and assisted on allocation Planning Solutions
- Executed materials requirement process to support agreed production plan and ensures orders are placed with direct materials suppliers.
- Worked with Planner for order scheduling for corresponding raw, semi-finished and/or packaging components for all production related activities.
- Worked with Planners on supporting and building new functionality in Blue Yonder – Enterprise Supply Planning (BY-ESP) module and assisted the operations on Order Promiser in SCM Workflow
- Worked on production and sourcing capacities such as Fair Share planning, Production Planning and Strategic Network Planning for the distribution to supply in a constrain environment.
- Involved in exploring the SCPO User Interface and SCPO - Configuring Flexible Editor Pages
- Worked on Demand - Tuning Tools and Parameters for All Models in Demand 360
- Worked on Supply and Demand Planning area such as Inventory Planning, Planning Horizons and Modelling Supply Chain Constraints and worked LP optimization with Excel Solver
- Worked on solution design document with interface documents MOCA, SQL, JASPER reports
- Worked BY Inventory Optimization, Factory Planning, Demand & Fulfillment and assisted databases programmers on SQL queries, stored procedures and Pre and Post order Update validations.

Schenker America Inc., Melville, NY

Jul 2017 – Dec 2021

Blue Yonder TMS Solutions Analyst

- Designed and developed the end-to-end project plans with the execution team including Global Process Lead, Tech Reengineering Lead Business, Business Analyst, and **infrastructure** team.
- **Involved in multiple JDA TMS implementation and supported projects involving multiple vendors.**
- **Experience in working on tools or solutions with demand planning and supply chain planning.**
- **Implemented the JDA/Blue Yonder TMS for 3 Regions MX, US, and CA and TMS Implementation.**
- **Experience in JDA TMS and full Implementation of JDA TM/TP workflows (Ops and Fin cycles)**
- Experience with architecting using public cloud services PaaS/SaaS/IaaS on AWS/Azure cloud services.
- Involved in building **Solution** Strategy with PL/SQL and EDI (Electronic Data Interchange) **integration** for different carriers and shipments partners.

Lea DB Schenker Inc., Freeport, NY

Nov 2010 – Jun 2017

Principal - Solutions Analyst

EMS- EDI Manifest System (Salesforce.com, Argus, TMS, OTM):

- **Devised and analyzed Business and technical specifications documents and provided solution for the Supply chain solution suite of products and application.**
- Acted as Product Owner (PO) and handled the technical elements of product development and was primarily responsible for defining a product's vision and managing the business backlog.
- Coordinated and acted as a liaison for business process **integration**, **functional** specifications and EDI **integration** designs and **implementation**.
- Involved in Project management responsibilities for new development programs and associated work requests.
- **Facilitated the research and review process by bringing stakeholders of different opinions to a consensus on business issues on industry tools and software by frequent communication with subject matter experts, senior business, and technical managers at client sites.**
- Supported in resolving key issues for the frontline customer and established quick and fast services for smooth and continuous business activities without interruption.
- Designed the Implemented Enterprise and Salesforce Reporting for the organization.
- Managed the decommissioning and upgrading of program operations processes from Argus system to the current existing to EDI system.

FedEx Trade Networks, Buffalo, NY

Nov 2009 – Oct 2010

Business Solutions Analyst

Etrans Global System Project:

- Reviewed and analyzed requirements, design, and technical specifications documents by conducting formal requirements walkthroughs/inspections.
- Prepared desk level procedure and system documentation and maintained to support delivery of **training** to staff and clients in the proper use of business system KPI's.
- Provided services like Trading Partner enrollment, technical support for **software** installations, data exchange and communication setup for transaction submission in test and production mode.
- Coordinating with offshore team for the urgent/emergent issues and initiating the web session for any **training** and remotely connecting and resolving user issues
- Actively involved in working over flexible shift schedules when new offices are established worldwide.

UTi Worldwide Inc., Long Beach, CA

Jul 2009 – Nov 2009

Enterprise Business (eBiz) Analyst

4asOne/One World Project:

- Analyzed and identified business process flows, created process maps for the System Procedure documents.
- Evaluated and Translated Business Processes into **Functional** Design Documents.
- Evaluated and devised the Complete Freight forwarding and logistics system modules and its **integration** with overall system.
- Extensively involved in business and systems processes for Comprehensive Transportation and Logistics System (Air, Ocean, and Truck) for both Inbound and outbound movements.

- Evaluated and proposed industry standards EDI Solutions for the Heavyweight Air Freight Movements, Ocean Shipping and logistics and Customs Brokerage and Distribution.

NYK Mega Carrier and Logistics, New York, NY

Jan 2006 – Jun 2009

Business Analyst / QA Lead

US/Canada/Panama/APEU/CSA Advance Manifest System Project:

- Established the Customs Clearance Location which allows authorized users to find the Customs Clearance Location at the City level for Inland Movement
- Extensively worked on following Inbound and Outbound Orders (850, 855, 810, 832, 846, 860) transaction with different trading partner's setup, configuration, and **implementation**
- Extensively worked on SCAC (Standard Carrier Alpha Code) Code in Customs Carrier Code Maintenance and NVOCC message administration and maintenance.
- Worked with different Oceanic and Freight shipping partners like Hapag-Lloyd, APL, ACL, P&O Nelloyd Logistics, Sea- Maersk line to name a few.
- Involved in Requirement gathering of US Customs Importer Security Filing "10+2" Rule.

Microsoft Corp., Redmond, WA

Jan 2004 – Dec 2005

Software Development Engineer in Test (SDET)

WINSE-Package Installer Project:

- Participated in the coding, Execution of the DCR (Design Change Request) for various new **implementation** of the Installer.
- Involved in the executing the different scenarios of the Operating System testing like Device drivers, code signing, Plug and Play Device, Stress and Kernel Debugging testing which cover all the aspects of the operating system and its dependencies.
- Actively Participated in the Broad Test Pass (BTP) on different store keeping units (SKU'S) and English and German Locales with X86 and IA64 and AMD64 platforms.
- Involved in Regression Testing of Windows 2000 Service Packs on the following Components like Upgrades, Remote Installation Services (RIS), Lang-Pack, Emergency Repair Disk, Safe Boot and Code Signing.
- Involved in Establishing and working with Kernel Debugger, Domain Controller, Disk Mirroring, and Pre-Boot Execution Services
- **Environment:** .Net Framework, VB Script, C#, MITA (Microsoft Internal Test Automation) Spy, WTT (Windows Test Technology) Visual Source Safe, MSA Deployment, Product Studio, Kernel Debugger.

EDUCATION:

M.S., Computer Science and Applications

School Name: Adhyayan College of Engg

City: Hosur, State: TN, Country: India

CERTIFICATIONS:

- Certified Professional - **Blue Yonder**
- Certified RPA Kofax Technical **Solution** Specialist for Kofax Kapow 10.3
- Certified Scrum Master
- Microsoft Certified Systems Engineer
- Trained Customer Service Specialist
- Project Management Virtual **Training**
- Certified Lean Six Sigma Professional
