

Peter J. Hancock

Senior Supply Chain Technology Product Manager

EXECUTIVE SUMMARY – SUPPLY CHAIN SOLUTIONS MANAGEMENT

- ✓ 20+ years' experience delivering international, multi-time-zone complex projects at Enterprise-level.
 - ✓ Lead **cross-functional** (logistics, finance, customer service, tech. partners.) teams of consultants.
 - ✓ Large project budgets approving time sheet and expenses for invoices (mm+)
 - ✓ Collaborating across multiple cultures, geographies, S/C partners (Vendors, Suppliers, Services)
 - ✓ Facilitated Business Design teams dynamic brain-storming sessions from stakeholders at C-Suite to end Developers from Requirement gathering to **Solution** Design, using customer-mandated feature prioritization.
 - ✓ **Planning** / scheduling the above on a matrix of interwoven **functional** teams, using the critical-dependency path to define ROI timelines; always on the lookout for project risks – proximity, likelihood, effect; and risk mitigation strategies.
 - ✓ Delivery projects have been agile, traditional waterfall, and a combination of both.
-

➤ E-comm. / omnichannel Clients:

- ✚ Crate & Barrel
- ✚ Restoration **Hardware**

➤ Retail Clients:

- ✚ Liz Claiborne
- ✚ Philips Health Tech (Respironics)
- ✚ Philips Consumer Products
- ✚ Georgia-Pacific Consumer Products
- ✚ Technicolor
- ✚ Christian Dior
- ✚ Wyeth Pharmaceuticals
- ✚ Merck
- ✚ Bristol Myers
- ✚ Nestle
- ✚ Nestle Waters
- ✚ Energizer
- ✚ K-Mart
- ✚ Target
- ✚ Sam's Club

Tools used:

Monday.com, Confluence, Jira, MS Project, MS Visio, MS PowerPoint, MS Word, MS Excel

Collaboration: WebEx, Zoom, MS Teams, MS SharePoint.

Deployment Models: SaaS, Hosted / Cloud, and On Premise.

Testing: Script creations (Detailed Application Procedures within a Use Case scenario) through SIT/UAT/E2E to productive use at go-live (full SDLC)

Systems Deployed: JDA WMS / JDA TMS / DSG TMS

SKILLS

- ✓ Analytical Thinking
- ✓ Audit **Planning**
- ✓ Internal Audit Review
- ✓ Issue Management
- ✓ Risk Management
- ✓ Attention to Detail
- ✓ Business Acumen
- ✓ Project Management
- ✓ Technical Documentation
- ✓ Coaching
- ✓ Critical Thinking
- ✓ Relationship Building
- ✓ Written Communications

WORK EXPERIENCE – UNITED STATES OF AMERICA

MAR 2023 – June 2024 TCS (TATA Consultancy Services)

Blue Yonder TMS Project Consultant (Macys)

Project Coordination

Attended daily standup calls (2-weekly sprints).
Coordinated OST (Offshore Team)'s report on tasks.

Project Artefact Librarian

Designed a Teams Artefact Library that MTech (Macy's Technology) and TCS use as a resource hub for several dozen team members and guests [TCS, MTech and Business Operations].
Contains tracking documentation, design documentation, reports, AV recordings of meetings and notes.

Stakeholder Engagement

Compiled Weekly Status Report to Macy's Stakeholders (43 weekly instances).
Included Task Progress for this week, and planned tasks for the next week.
Included risks and blockers, and overall health of the program.

Project Planning

3-Monthly Project Plans down to resource assignments.
Attended Macy's Quarterly Planning Meetings on behalf of TCS.
Freight Order Management (FOM) Design Workshops
Documented FOM MVP (Minimal Viable Product) from Macy's in an RTM (Requirement Traceability Matrix).

FOM Solution Modelling

Created a 3PL 5-Dimensional Model for Enterprises, Users, Roles, Permissions in PRD for a POC.

FOM Solution Design

Created an SDD (Solution Design Document) for On Premise Freight Order Management (FOM) module – containing a TOC, footnotes, version control, and screen shots, process flow charts, data interface definition points, and intra-system and inter-system business data architecture flows, with functional gaps, and internal data interface not previously available (FOMTM Bridge, a bidirectional data brokerage module between FOM and TMS); and seven appendices.

Partner Engagement

Registered my Macy's credentials on the Blue Yonder Support Site "Success" and was a regular contributor to issues resolution, creating over 50 support tickets on Macy's behalf, including steps to reproduce, with logs, screenshots, use case narrative and follow up.

TMS Upgrade Functional Delta Document

Cataloged the functional deltas and enhancements across 7 versions using published release notes.

TMS Upgrade Database Table Delta Document

Cataloged the data column deltas across over 1000+ TMS tables and 7 versions, looking at potential data migration issues from 2018.2 schema to 2022.1 schema.

TMS Upgrade Data Migration Strategy

Comprehensive Visio Swimlane diagram, with Master Data retention and progression, transactional data clean-points, and purge routines.

TMS Upgrade Testing Strategy

Authored a comprehensive test strategy document, including test stages and scope of each, and the responsible testing partners for each stage, and got customer buy-in.

Test Scenarios (Use Cases, testing routines, scripts), outcome logs, steps to reproduce errors, and error correction protocols and processes, entry criteria, test transaction data needed, success criteria to pass “expected result”, and test failure management.

Test Stages defined:

1. Stage I – Smoke Test the Installation / Smoke test Data Migration
2. Stage II – **Functional** Unit Testing (FUT)
3. Stage III / IV – System **Integration** Testing (SIT) – simple and complex
4. Stage V – Performance Testing (PT)
5. Stage VI – End to End Testing (E2E)
6. Stage VII – User Acceptance Testing (UAT)

****Solution Training** Material (Job Aids) – See Appendix**

Trackers

Designed and Maintained team assignment Trackers for:

1. **Software** Installation by Environment (4) and BY Componentry (15) (60 unique combinations)
2. Post-Install Configuration by Environment and BY Component
3. SIT Testing Progress
4. E2E Testing Progress
5. UAT Issues log, resolution management via meetings with Business Stakeholders.

Ongoing Project Tasks: Transition Definition: – As Is > To Be

1. Go-Live Checklist
2. Go-Live Cut-Over Plan
3. Hypercare Plan

WORK EXPERIENCE – UNITED STATES OF AMERICA

2021-2023 UST Solutions (Independent Contractor)

Engaged with their Client, Baxter Healthcare, for a Senior Business Consultant Global Supply Chain Fulfillment practice.

Working with their partner, Accenture, I am responsible for assisting their team, and am accountable for Proof of Concepts, and following up on their **Blue Yonder** TMS Configuration and LBS Configuration tasks and reviewing and marking up their Global **Solution** and TMS Configuration document.

In a typical week, I attend and contribute to a dozen meetings with worldwide participants, stakeholders, logistics operations managers and business analysts.

I am also responsible for creating test scripts, SIT, UAT, overseeing system shared-business data **integration** tasks, authoring key-user and end-user **training** documentation, SOPs and Job Aids, and setting up and delivering **training** to the global community – North America, LATAM, EMEA, APAC.

Go Live complete USA, Canada, Mexico, Puerto Rico and Costa Rica December 2022, next would be Global in 2023.

2021 Mainz Brady Group (Independent Contractor)

Engaged with their Client, Nike, for a Project Management role in the NA Tech practice, as a Senior Project Manager within the North America Global Operations & Logistics Technology team.

I was immersed in time-sensitive and critical initiatives/capabilities/projects crossing a wide range of technologies and teams supporting supply chain capabilities for the largest Geo of Nike.

My role was to partner with multiple **cross-functional** Technology and Business stakeholders to identify technology solutions and help drive them from **planning** to **implementation**. Primary responsibilities include **implementation planning**, solutioning, and managing project deliverables across multiple technology teams including Logistics, Distribution, Order Management, and Digital.

The specific project I was engaged in was the Freight Audit and Payment program, for inbound international shipments (air and ocean) to RDCs, and outbound logistics (FTL / LTL road and parcel), assisting business operations review the define requirements for the new partner, US Bank, on a migration path from the “as is” vendor partner.

The project was slated for Nike FY 2022 Q1 > Q4 (June 21 to May 22) but since PI (Program Increment) **planning** and portfolio in May and June, the review of this project – along with a dozen other TMS-based projects within the Transportation Portfolio - was deprioritized in the light of:

- 1) emerging operational priorities within the upcoming holiday season requiring focus on warehouse processes, and the explosion of digital orders, during and post COVID; and
- 2) Technical resource constraints by key offshore resources needed to be allocated to the key urgent priorities, above, and including their main SAP AE system.

2019-2020 Open Sky Group (Summary)

As a Sr. Supply Chain Consultant, have helped eight clients achieve successful projects and **BY WMS** implementations as the **Project Manager**.

- 1) [3PL] Toll Group (NJ) –
OSG Team Manager, G/L WMS 4/29/2019; G/L Third Party Billing 9/30/2019
Pilot site program for an Australian-based 3PL in New Jersey. Managed a team of WMS engineers and **implementation** consultants through SIT and UAT for a go-live in April 2019 (on site and remote) (Partnership with Deloitte Touch). Responsible for all contract deliverables (**Solution** Design Documents, Interface Specifications (internal and external), Test script creation (400+) test script execution results, data migration for PREPROD and PROD environments, and weekly reports and monthly reports to Steering Committees. Many conference call meetings in IST time zone (Pune), and AEST (Melbourne) and CDT (Eindhoven), as well as US/EST and US/PST.
- 2) [Food & Beverage] Golden State Foods (CA, MN, FL, AZ) OSG Team Manager, G/L 3/23/2020. Four warehouses. Supervised vendor (OSG) billing on a T&M basis, approved and logged consulting team timesheet and expenses.
- 3) [Aviation Parts] Wesco (TX) OSG Team Manager, project cancelled 2/17/2020 new owners (VC) (Partnership with Deloitte Touch). Managed the team through SIT and UAT, set up a weekly cadence for Sprints for bespoke aspects 22 in 22 weeks.
- 4) [Consumer **Hardware**] Masterlock (WI) OSG Team Manager, G/L 3/17/2020 – short 2 months project developing middleware **integration** layer with Off-Shore resources (India).
- 5) [Retail Big Box] Sam's Club (AR) OSG Team Manager, pre-deploy (SIT/UAT) MAR-JUN 2020 (Partnership with UST) Two warehouses in Searcy, AR and one starting in TX.
- 6) [Construction] Encore Wire (TX) on-site OSG Team Manager, Post G/L 6/1/2020 JUN-2020 – stood in for PM for two weeks on site 24 x 6 Operation, with three over-lapping support shifts, and 16 consultants.
- 7) [Building Ind.] Cardinal Glass (WI) OSG Team Manager, G/L 9/21/2020. WMS upgrade, during COVID restrictions.
- 8) [Retail E-COMM] Crate & Barrel (IL) – OSG Team Manager, greenfield site. WMS E-commerce initiative.

Familiar with the concept of serialization.

2014-2018 Descartes - TMS (Transportation Management Systems) SPM (Senior Product Manager)

Descartes – TMS SPM Customers in the Food & Beverage Industry

TMS SPM 2018 Customer: US Foods Took over and led a project for US Foods for a Data Warehouse from the Hosted Servers to local customer storage – 3 billion transactions per annum.

VALUE ADDED: After months of indecision and experimentation before I was in charge, I marshalled architectural resources and presented a clear choice via a cost / benefit decision grid with 8 separate approaches to support legacy systems with billions of transactions per annum, without affecting production performance.

TMS SPM Customer: Tankersley Foods Led a project involving several product components working in concept for **planning**, execution, tracking and payment for goods delivered.

VALUE ADDED: Re-defined the process product component flows that had been presented initially.

Descartes - Customers in the Healthcare Industry

TMS SPM 2018 Customer: CVS Pharmacies. Took over and led a project for multiple components working in concert – Dock Appt scheduling, order web portal, shipment tracking portal, transportation optimization and vehicle and delivery tracking (own fleet), outside transport booking and payment settlement, EDI messages.

VALUE ADDED: Previously, the customer communication had been working in product silos, with 4 Product Managers and 3 Service Practice leaders, causing confusion and communication overlap. With my leadership, I was able to be the single point of vendor contact, focusing on the overall **solution** and engagement.

TMS SPM 2018 Customer: Medline Took over and led a project for multiple components working in concert – Parcel dispatch stations, transportation optimization and vehicle and delivery tracking (own fleet), outside transport booking and payment settlement, FTL / LTL).

VALUE ADDED: Like CVS.

TMS SPM 2017 Customer: Consumer Lifestyle (Personal Care); Philips HealthTech (Sleep Respiroics Care). February – July 2017 Responsible for Global **implementation** across four continents and business groups leading a team of **Solution** Architects, QA staff and **implementation** consultants for a multi-component hosted **solution** for a fortune 500 company, with 112,000 employees, leading teams in five countries, for global supply chain managing air, sea, road, and rail modes of transport. Go live July 2017. Philips. VALUE ADDED: Forged a team from various international Professional Services and Product **Engineering** divisions and became the governing voice for the engagement. **See Appendix C.**

Descartes - Customers in the Services Industry

TMS SPM 2016 Customer: EMCOR Group

Process Analyst / Design **Architect** / Project Manager for a Fortune 500 Services Organization using complex synchronous **integration**, go live February 2017. Successful **implementation** of a route **planning** and optimization system with a GPS telematics **solution** for a nationwide facility service across 500 service vehicles, saving fuel, wages, overtime, asset wear and tear and, at the same time, increasing on-time servicing for predictable outcomes. VALUE ADDED: Led a logistics delivery **solution** for a services company, with no product modifications proving “thinking outside the box” can be successful.

Descartes - Customers in the Retail Industry

TMS SPM 2014 – 2015 Customer: Restoration Hardware (Agile TMS/WMS)

Responsible for leading a team of **Solution** Architects, Programmers, QA staff and **implementation** consultants for a \$4m “Final Mile” *heavily customized* **solution** for a prestigious high-end retailer of Quality furniture and home fittings and appliances (average RH customer income: \$300,000).

Introduced Documentation standards, agile methods, QA controls, and product release management to what had been an ungoverned and ungovernable project in July 2014. Wrote **Functional** Specifications to mentor the team and introduced JIRA. Go live April 1, 2015. Rollout nationally underway across 11 installations in 2016, 2017 and 2018.

VALUE ADDED:

- Put Quality at the forefront of everything we did.
- 86 releases in 22 months, average sprint 2 weeks.
- Enhanced customer satisfaction in an agile development environment; and
- Delivered stable outcomes for rollout deployment for years forward.

WORK EXPERIENCE – REDPRAIRIE (JDA/BY) 2003-2013 Transportation Management Systems

TMS SPM REDPRAIRIE EUROPE (2007-2013)

TMS SPM 2013 UK – Senior Product Manager

Pilot **Solution** for retail chain store using a Template method I developed.

Duration: 26 weeks. FTE's x 4 (Senior PM and Application Consultant) part-time (Engineers x 2)

2012 UK Senior Product Manager: Best Practice Initiatives: “Templates” (2000 hours)

- ✓ Pioneered the adaptation of partially pre-packaged solutions with Transportation “Templates” (UK);
- ✓ Using the newly adopted Process Modeling Tool (iGrafx), pioneered the first **Functional** Process Map of Transportation **Solution**.
- ✓ Designed and mapped an alternate “Rapid Deployment” Method focused on cost, agility, customer empowerment (with English and French language deployment).
- ✓ Introduced innovation into product deployment service tasks with ideas for methods and standards:
- ✓ Ready-to-deploy master data load tool.
- ✓ Role-based technical documentation (Business, Product, **Solution**, and Technical)
- ✓ Process-flow based **training**.

2010-2011 Senior Project Manager (KSA, UK, EU) Introduced a Third-Party Logistics to systems technology, though discovery (Saudi Arabia);

Led Vendor **Solution** for European Third-Party Logistics through normalization /consolidation (France). Delivered Proof of Concept.

2007-2009

TMS SPM on secondment from US to Europe (Intra-company Transfer)

2007-2008: Posten Norge (Norway Post). Led the Pre-Study **Functional** Exposé. Defined Statement of Work, Deliverables, Duties and Responsibilities and conducted project cost estimates for Pre-Study leading to a \$large project. \$1.25mm, 6 full-time resources, duration 5 months. VALUE ADDED: Contributed to the contract definitions: hours estimate, deliverables and 101 data **interfaces**.

2008-2009: Posten Norge (Norway Post). On the main project, authored Project **Functional** Definition Methodology for Business Requirements, and **Solution** Design, and provided consultative advice across disciplines. Directed a team of four led application / **functional** consultants across 12 design work streams. 20 months. VALUE ADDED: Put together 4 ERP teams – each leading a **functional** stream (Accounting, Logistics **Planning** Operations, Shipment Tracking, Asset Management) of Project Leaders with work packages, plans, schedules in Norway, Sweden, Denmark.

TMS SPM REDPRAIRIE UNITED STATES (2003-2007)

(North Carolina and Wisconsin, USA)

TMS SPM 2007 Customer: Technicolor - Innovated RP's first ever Transportation hosted Service from inception to ROI, resulting in repeat business, references and provided the major Transportation guest speaker at User Conference two years running. 90,000 packages per day. \$1m+ (hosting over several years) full-time resources 4 duration 18 months.

TMS SPM 2007: Customer: Monsanto Additional customizations and **integration**. 4 full-time resources duration 1 year.

TMS SPM 2007: Part of the Center of Excellence project management template team in, setting benchmarks for Transportation project deliverables. (Internal project)

2006: QA Manager, 2006 **TMS** Product Releases: From Waukesha, WI I led QA Engineers from three countries (India, China, Mexico) (internal project)

TMS SPM 2003-2005: Developed long-term, partnering relationships with the customer, consultants, project team, channel partners and RedPrairie groups. Supported and participated in many sales opportunities as SME. Managed complex, strategic projects resulting in long term relationships built on competence and trust.

- **International Specialty Products** 3 full-time resources Duration 12 months
- **Johns Manville** \$1m+ 4 full-time resources Duration 12 months
- **ADS** \$1m+ 4/5 full-time resources (new facility) over 18 months. SQ FT 500,000 facility 3000+ units per hour additional customizations and **integration**.
- **Georgia Pacific** 4 full-time resources 12 months

Transportation Customers: Johns Manville (Denver, CO); Nestlé, (DeKalb, IL and Nestlé Waters, Tempe, AZ), Svenska Cellulosa Aktiebolaget (SCA), Neenah, WI; Georgia-Pacific, Green Bay, WI (Consumer Products) and Atlanta, GA (Building Products); Shippers Commonwealth (Norfolk, VA); ISP (Wayne, NJ); Monsanto (St. Louis, MO); CertainTeed (Valley Forge, PA); Vertis Logistics (Roswell, GA), Technicolor, (Camarillo, CA).

Warehouse Customers: Ditzfeld (Sedalia, MO); Creative Labs (San Jose, CA); ADS, (Morristown, NJ), ADS (Gaffney SC).

1999 – 2002 QIVA PM, TMS Senior Business Consultant (Ocean) & Product Manager (CA and MY)

SME on N.V.O.C.C. and Container Leasing

Led aspect of solutions lifecycle from conceptualization, capital sponsorship angel round, and design, development, and delivery. Vessel Operations, Scheduled Rotations, Container Inventory, Container M&R, Container Booking, Asset Tracking, Local Drayage, BOLs, Incoterms, Through and Leg Rates & Services (BAF etc.), HAZMAT UN Class/Codes.

Led ANSI <> EDIFACT Electronic Document Interchange (EDI) mapping and merge (Transportation) project with EDIFACT, working with USA ANSI Transportation Subcommittee Chairman. San Francisco: Led **Functional** designed team for SCEM **software**. Kuala Lumpur: Led Team of Engineers 2000-2001. Delivered ITL **solution** for Hong Kong client.

Was the lead BSA on shared business transactional data process improvement and master data normalization across disparate business systems and trading partners (via collaboration workshops), for the data acquisition and extraction, and data parsing / curating prior to load into the consuming systems.

Wrote business data processing “swim lanes”, identified trigger events to share data between and among systems, defined the transmission methods and protocols, and engaged in “deep dive” forward and reverse logical mapping of the data load itself.

This greatly reduced the exception handling, previously done manually, by embedding branching and looping logic, and sequence-sensitive logic within the transformation layer.

Major (Shipping) Customers:

Pacer Stack, Oakland, CA (APL/NOL); Liz Claiborne (Mærsk), Bergen, NJ; Scanwell Logistics (OOCL)

WORK EXPERIENCE – AUSTRALIA / NEW ZEALAND / ASIA

TMS Business Systems Analyst

1994 – 1998 Logistics Systems International

TMS Business Analyst (Sydney, Australia; Wellington, New Zealand; Kuala Lumpur)

Managed design build and **Implementation** of Supply Chain Execution Systems for K-Mart, Target, Linfox, TranzRail NZ, Nestlé Malaysia, Ecolab Australia, Merck, Wyeth Pharmaceuticals, Christian Dior, and Yamaha and others.

EDUCATION, QUALIFICATIONS, VOCATIONAL TRAINING:

1988 – 1989 University of Technology, Sydney: Industrial Law I / Industrial Law II (Case Law), Sydney,

1990 – 1992 CPTI, Sydney: Diploma of **Computer** Programming, Sydney, NSW, Australia

2003 Project Management: Advanced **Functional** Skills Course, Raleigh, NC (Employer Sponsored)

2011 Certified PRINCE2 and PRINCE2 Registered Practitioner, APM Group Ltd., London, UK

TECHNOLOGY SKILLS:

Proficient in MS Office (Word, Excel, Project, Visio, PowerPoint SharePoint, SQL), XML Spy, Notepad++, iGrafx, Atlassian JIRA, Vantage, Tenrox, OpenAir, TFS, Notepad++ XML Spy, SAP (Time Entry and Billing) Scooter Beyond Compare), Sales Force (**Financial** Force), CRM, TSI Mercator, Quest (Toad for Oracle), Skype, TechSmith (Snagit – image and video), Camtasia.

Product Components: Cloud Based and Client / Server

TMS: Transport **Planning** / Optimizing / Billing / Invoicing / Cost and Revenue Accruals / Reports

WMS: Fleet Center, Telematics, GPS Asset Tracking, Speed gauge, Scan Packing / Shipper Dispatch

Customs: IMPORTS: HTCs, quotas, import duty, and clearance from under bond

Customs: EXPORTS: Dual use, Denied Party, ECCNs.

Mobile Components:

Driver Workflow, HOS, Job Tracking, ELD.

Operating Systems:

IOS, Android, Windows Mobile, Windows.

Methodologies: Agile, In-house Waterfall (DSG, JEM. RP), and PRINCE2

INTERESTS:

1990-2024: Save The Children Fund: life opportunity **financial** sponsorship to children from poverty.

2017-2018: Donated to **education** facilities in Malawi. (UNICEF USA).

2022 : Donated to Ukraine Humanitarian Effort.

Work Example Appendix A

Macys **Implementation** Job Aids (Freight Order Management)

1. TMS-000 (VPN)
2. TMS-001 (Login to PRD)
3. TMS-002 (Projects Artefacts Library)
4. TMS-003 (Tests Library)
5. TMS-004 (Tests Scripts)
6. FOM-001 (Manually Creating Enterprises)
7. FOM-002 (Manually Creating TMS Customers to Support FOM)
8. FOM-003 (Creating Users & Roles)
9. FOM-004 (Creating Filters)
10. FOM-008 (Page Layout & Field Label Editor)
11. FOM-009 (TMS TSB Search for FOM PO Status)
12. FOM SDD Reading & Review Guide

Work Example Appendix B

Baxter **Implementation** Job Aids – SOPs and Job Aids

1. SOP-001 Operational Transport Navigation & **Planning**
2. SOP-002 Operational Transport Load Tendering, Acceptance, and Tender Evaluation and Response
3. SOP-003 Operational Domiciles Dock Scheduling, Appointments, Monitoring, Exceptions

Job Aids – for **Blue Yonder** TMS Planners

4. TMS-001 (Login to PROD)
5. TMS-002 (**Planning** Daily Start)
6. TMS-003 (Daily Shipment Optimization into Loads)
7. TMS-004 (Tendering Loads)
8. TMS-005 (Managing Tendered Load Exceptions)
9. TMS-006 (Managing Rejected Load Tenders)
10. TMS-007 (Send Loads to Freight Auction)
11. TMS-008 (Award Carrier Bid)
12. TMS-009 (Spot Buy)
13. TMS-010 (Create Booking)
14. TMS-017 (Propagating SmartBench Searches)
15. TMS-020 (Daily Shipment Assign to New to Loads)
16. TMS-023 (Adding Shipment Leg[s] to a Tendered Load)
17. TMS-044 (Planner - SmartBench Searches)
18. TMS-046 (TMS Classic Searches for Planners)
19. TMS-048 (Contract Operations - Updating the Spot Rate Gross Amount)

Job Aids – for **Blue Yonder** TMS Carrier Partners

20. TMS-012 (Track & Trace)
21. TMS-013 (Carrier Operations)
22. TMS-014 (Bidding on Freight Auction)
23. TMS-041 (GENERIC CARRIER - References List)
24. TMS-042 (GENERIC CARRIER - Rescheduling Delivery Appointments)
25. TMS-043 (GENERIC CARRIER - Changing the Load Operational Status)
26. TMS-045 (GENERIC CARRIER - Scheduling New Delivery Appointments)
27. TMS-047 (GENERIC CARRIER - Rescheduling Delivery Appointments -in transit Loads)
28. TMS-049 (GENERIC CARRIER - Scheduling New Dock Commitments)
29. TMS-050 (GENERIC CARRIER - Updating Dock Commitments)

Job Aids – for **Blue Yonder** WMS / 3PL Warehouse Partners

30. TMS-021 (Viewing Incoming Loads)
31. TMS-022 (View Inbound Shipments on Multi-Stops Loads)
32. TMS-024 (Track & Trace - Late Loads)
33. TMS-027 (Altering Dock Slot Times)
34. TMS-028 (Daily Creating Carrier Appointments for Load Pickup)
35. TMS-040 (View Inbound Loads, Update Carrier Schedules if needed)
36. TMS-042 (3PL - Schedule Inbound Loads)
37. TMS-043 (3PL - Changing the Load Operational Status)
38. TMS-044 (3PL - SmartBench Searches I)
39. TMS-046 (3PL - SmartBench Searches II)
40. TMS-047 (3PL - SmartBench Searches III)
41. TMS-051 (3PL - Schedule Inbound Loads not in BY)
42. TMS-052 (3PL - Managing Dock Hours)

Job Aids – for **Blue Yonder** Carrier Administrators

43. TMS-030 (Creating SCACs)
44. TMS-031 (New Carriers)

Job Aids – for **Blue Yonder** Carrier Contract Managers

45. TMS-060 (Creating Carrier Tariffs and Carrier Tariff Services)
46. TMS-061 (Applying Lanes to Carrier Tariff Services)
47. TMS-062 (Applying Rates to Carrier Tariff Service Lanes)
48. TMS-063 (Adjusting Rates to Carrier Tariff Service Lanes)
49. TMS-064 (Creating Qualifiers to Rates for Carrier Tariffs)
50. TMS-065 (Creating Fuel Surcharges and Contracts)
51. TMS-066 (Rate Structure - Functions and Relations)
52. TMS-067 (Delivery Schedules, Itineraries and Timetables)
53. TMS-068 (Lane Constraints)
54. TMS-069 (Business **Analysis** Reports)
55. TMS-070 (Applying Rates to Carrier Tariff Service Lanes - Example)
56. TMS-071 (Validating New Carrier Tariff Service Rates)
