Process Computer Systems, PCs,
Data Communication Systems,
AOS/ AIX/Solaris, Novell, UNIX,
VM Ware, Windows, Oracle, DB
Systems, LAN/WAN/Ethernet,
Open/Closed Ring, Cloud
Networking, VPN, Server farming,
Fiber, pLTE, Microwave, Satellite,
Internet, SD-WAN, **Voice**, Security
MS Office Suit, Visio, SharePoint

Education

Master of Science in **Engineering**,
Process Automation & High
Voltage, Energy
Bachelor of Science, **Engineering** –
Applied Mathematics
*Technical University of
Wilhelmshaven, Germany*

Certifications:
PMP/ VDI/ VDE

Northrop Grumman

2016 – 08/2019

Senior Project Manager

- Providing start to finish Program **Management** for **strategic** Government Projects
- This entails planning, scheduling, installation, testing and bring into operation hardware and **software** applications for large **IT** projects.
- Managing cross functional teams and reporting to upper **management**

ODD Inc.

2015 - 2016

Senior Consultant

- Consultant for the execution of the E-Metering System **Integration Project**
- Planning, **design**, customized **software development** and execution oversight in a cross functional global environment for the implementation of an active e-metering system

Siemens Power Distribution

Senior Staff Manager / Program Manager / Global Key Account Manager

2000 – 2015

Hungarian National IT Dispatch Center Project

- Designed and executed turnaround strategy for **IT** turnkey **project** with five locations; budget was \$50 M+
- Worked closely with **customer** to regain trust in vendor and identify decision-makers to bring initiative back on track
- Renegotiated deadlines to avoid liquidated damages, redefined scope and created new schedule for deliverables
- Managed **project** teams, created new schedules and reallocated resources
- Oversaw finances and controlled **quality** to ensure successful outcome
- Successfully turned around failing **project**, renegotiated deliverables to avoid liquidated damages, rebuilt trust in vendor and drove on-time **project** completion within renegotiated scope
- Established robust change order and **risk management** procedures and created clear lines-of-sight for decision-makers to significantly reduce approval turnaround times
- Enabled vendor to expand market reach by improving technology industry market positioning and expanded capacity to handle global projects with rigorous PMI/ PMO guidelines
- Included **customer** and vendor personnel in developing **project** turnaround strategy, improved relationships and demonstrated reliability to assist with securing ongoing contracts

Polish National Dispatch Center Project

- Managed failing dispatch center turnkey **project** with seven locations; budget \$18M+
- Analyzed deliverables and renegotiated contract terms to address **software development** issues, mitigated risks and reined in costs
- Skillfully managed expectations across stakeholder groups, included **customer** (vendor company) and client
- Successfully rescued at-risk **project**, renegotiated timelines and reallocated resources to enable delivery of **project** on **time** under a revised budget to avoid liquidation damages
- Established service contracts and secured significant savings, positioned vendor to regain **customer** trust and expanded relationship to secure future business
- Introduced innovative new Statement of Work (SOW) strategy, identified **customer** and vendor as stakeholders and leveraged assets which enabled deployment of new **IT** capabilities

Endesa National Dispatch Center

2010 – 2015

Senior Staff Manager / Program Manager / Global Key Account Manager

- Led project turnaround, identified gaps between requirements and scope in project with four locations in Chile, Colombia and Brazil; budget \$8M+
- Clearly defined scope, implemented service contracts and renegotiated deliverables, managed changes and secured low-cost labor resources while reducing software development requirements to control budget
- Rolled out schedule for implementation
- Used pre-configuration installation approach, worked with factory to enable remote installation to reduce travel and commission expenses; expanded customer's global prospects

Taiwan National Dispatch Center

2005 – 2011

Senior Staff Manager / Program Manager / Global Key Account Manager

- Rescued underperforming initiatives in 2 locations; budget \$28M+
- Renegotiated contract to align scope with capabilities and avoid multimillion-dollar liquidation damages
- Skillfully managed relationships, integrated local vendor and managed high-level government contacts
- Deployed service contracts
- Negotiated upgrade strategy to ensure future business

Solace Inc.

2003 – 2004

Chief Operating Office/Board Member

- Spearheaded establishment of after-sales service company to increase business for existing customers and generate new IT service revenue
- Managed all facets of startup operation, included definition of mission and vision, business planning, marketing, service contract transition, staffing and P&L
- Orchestrated acquisition by Siemens Global Services after highly successful launch; exceeded goals by 100%+

Project Delivery Guidelines Group

2000 – 2003

Quality Assurance Officer / North America

- Played integral role in establishing global project delivery model for the US market
- Defined role of quality assurance officer for North America
- Created guidelines and templates using PMI standards (PM Book)
- Managed implementation of guidelines and project tracking tools worldwide
