

ALEXANDER CRAMMER

Experienced **Adobe software** engineer with a demonstrated understanding of complex computational concepts primarily in the space of **web applications** and server **configuration**.

EXPERIENCE:

Senior Software Engineer at Cox Communications

May 2017 to Present

Developed client-side source code for **user experience** tests using **Adobe** Target, contributed significantly to the development of **AEM** components, assisted in the finding of suitable workarounds for component limitations, composed highly complex algorithms and custom code to support initiatives beyond the scope of the **AEM** toolset as established by **Adobe**, and created reports using **Adobe** Analytics. Target tests accomplish many different goals such as driving revenue by increasing exposure to our most popular offers, **experience** personalization for our customers, and **testing** new site enhancements before releasing them for every **user**. Began as a contract role, transitioned to full-time, promoted twice.

Full Stack Web Engineer at Hot Sauce

Between July 2016 and May 2017

Created two AngularJS **applications** (gulfpower.com and joinevrevolution.com). Rebuilt and overhauled a .NET MVC application for Publix Tailgating (tailgating.publix.com) using the Less CSS preprocessor, **JavaScript**, and C#. The Publix Tailgating project was memorable for **testing** my adaptability to new back-end frameworks, methodologies, syntax, and programming principles.

Full Stack Web Developer at KJEM Consulting

Between February 2016 and July 2016.

Created two websites using ExpressJS and WordPress. Collaborated on the crucial planning stages of these projects, designed them using Illustrator and Photoshop, managed deployment to multiple environments, and employed the use of **HTML/SCSS/JavaScript/JSON/jQuery/NodeJS/WebSockets/RESTful APIs**.
