Sacramento, CA 95834

Phone: 510-480-2022

Email: Bwasadahal@gmail.com

Professional Summary

Data Analyst with a strong background in business analysis and **healthcare data** analysis. Skilled in using SQL, SAS, Power BI, SSIS, and Tableau to perform **data** extraction, transformation, visualization, and reporting. Adept at leveraging analytical tools to deliver insights, streamline processes, and support decision-making. Proven ability to work collaboratively in a team and manage multiple projects efficiently.

Professional Experience

Healthcare Data Analyst

Amazon Inc Services

2022 – Present

- Analyzing **healthcare** claims, provider **data**, and patient records to identify trends and optimize **healthcare services**.
- Developing and maintaining complex SQL queries for **data** extraction, transformation, and loading (ETL) processes.
- Creating interactive dashboards and reports in Power BI and Tableau to visualize key performance indicators (KPIs).
- Collaborating with cross-functional teams to gather **data requirements** and deliver actionable insights.
- Conducting statistical analysis using SAS to evaluate **healthcare** outcomes and improve service quality.
- Designing and implementing **data** pipelines using SSIS to automate **data integration** and reduce manual work.
- Assisting in **data governance** activities, ensuring **data** accuracy, consistency, and compliance with privacy regulations.
- Developing predictive models to forecast patient outcomes and support strategic planning.

- Providing training and guidance to stakeholders on **data** interpretation and visualization techniques.
- Leading **data** quality initiatives to improve **data** management practices and enhance reporting accuracy.

Business Analyst

Lytton Rancheria of CA

January 2018 – December 2019

- Conducted detailed analysis of business processes to identify opportunities for optimization and cost reduction.
 - Utilized SQL and SAS to query and analyze large datasets, providing insights to support business decisions.
 - Developed and presented comprehensive reports and dashboards in Power BI and Tableau to monitor key business metrics.
 - Collaborated with stakeholders to define business **requirements** and translate them into technical specifications.
 - Assisted in the design and implementation of new business processes, ensuring alignment with organizational goals.
 - Coordinated **data integration** efforts, using SSIS to streamline **data** flow between systems and enhance **data** accuracy.
 - Led **data** validation efforts to ensure **data** integrity and consistency across multiple databases.
 - Conducted market research and competitive analysis to identify trends and support strategic planning.
 - Facilitated workshops and training sessions for team members on **data** analysis tools and techniques.
 - Managed cross-functional projects, ensuring timely **delivery** and alignment with project objectives.
-
