

Catarini DeRoo

Senior **Software Engineering** Manager

Boston, MA
(508) 847-1776
catdancuart@gmail.com

INTRODUCTION

Dynamic and empathetic **engineering** leader with a proven track record of enhancing team performance, fostering cross-functional alignment, and driving technical excellence. Skilled at facilitating crucial discussions to align product and **engineering** priorities, establishing strong relationships, and creating a collaborative, supportive work environment.

EXPERIENCE

Alteryx

Senior Manager, **Software Engineering**

JULY 2024 - PRESENT

- Led the development and launch of large-scale AI and machine learning initiatives, advancing the company's analytics product offerings with no-code data pipeline tools.
- Led a comprehensive Project Plan Commit (PPC) **process** to prepare for a new GenAI initiative, aligning cross-functional teams on project scope, architectural decisions, and timelines while identifying potential risks and securing stakeholder buy-in to ensure a smooth and efficient project kickoff.
- Managed **fullstack** and DevOps teams across the full **software** development lifecycle, from conceptualization through **deployment**.
- Collaborated with product management, data scientists, and cross-functional leaders to translate complex **business** requirements into actionable technical solutions.

Software Engineering Manager

DECEMBER 2020 - JULY 2024

- Spearheaded the **Agile** transformation of the **engineering** team, enhancing delivery speed of critical features by implementing efficient workflows and fostering a culture of **continuous** improvement.
- Directed the design and development of core AI and ML solutions by leading cross-functional **collaboration** and innovation.
- Developed and mentored 10 direct reports, guiding them to reach their full potential through personalized growth plans, skills development, and regular feedback.

SKILLS

Engineering Leadership:

Professional Development,
Technical Modernization,
Cross-Functional
Collaboration, Strategic
Hiring, Project Planning,
Engineering Operations, Risk
Mitigation

Software Development:

HTML5, CSS3, JavaScript
(ES6+), TypeScript, React,
Angular, Responsive Design,
Node.js, Express,
Microservices, **RESTful** APIs,
Scalability, Performance
Optimization

DevOps & **Cloud:** AWS, Google

Cloud, **Docker**, **Kubernetes**,
Serverless **Architecture**,
Gitlab CI/CD Pipelines

CERTIFICATIONS

Google **Cloud** Digital Leader Certification

Issued June 2024

Machine Learning Foundation Micro-Credential

Issued December 2022

LANGUAGES

English, Portuguese, French,
Spanish

PatientsLikeMe

Lead Software Engineer

OCTOBER 2020 - DECEMBER 2020

- Owned the professional development of three engineers, providing mentorship, goal-setting, and performance feedback to foster growth and elevate team capabilities.
- Conducted an audit of the application UI stack, identifying areas for improvement and implementing modernizations that enhanced performance, usability, and maintainability.
- Strategically executed hiring initiatives, interviewing and selecting top engineering talent to meet team growth objectives.

Senior Software Engineer

JANUARY 2020 - OCTOBER 2020

- Developed a robust web application utilizing React and Material-UI for the front end and collaborated closely with designers to implement a cohesive and accessible design system.
- Leveraged Ruby on Rails for back-end development, building RESTful APIs that efficiently handled data transactions and user requests. Integrated SQL databases to manage and query patient data, ensuring data integrity and optimal performance.

Invaluable

Senior Software Engineer

NOVEMBER 2017 - JANUARY 2020

- Played a key role in transforming the codebase from Handlebars and jQuery to a modern stack with Node.js and React, enabling server- and client-side rendering for improved performance, scalability, and maintainability.
- Designed and developed a CMS tool that enhanced email marketing efficiency by enabling the creation of 10x more emails per day, as measured by daily output, by streamlining the templating process.

Gordon Multimedia — Web Designer and Developer

JULY 2011 - APRIL 2014

- Designer and developed WordPress websites for small businesses using HTML, CSS, and PHP.
- Served as the web development representative at the city's BNI chapter, building relationships with local businesses and successfully converting them into customers.

EDUCATION

Framingham State University

Bachelor of Arts (B.A.), Visual Communications

2009 - 2012

Catarini DeRoo

- Billerica, MA, US
