I bring 19 years of IAM experience across many technologies, platforms, and operating systems. My experiences working on IAM provisioning projects, **troubleshooting**, and audit remediation provide me with a unique view to better understand how systems integrate and what controls should be in place to mitigate risk.

LEAD SECURITY ENGINEER IAM 10/2023 - Present

Webster Bank, Seattle, WA

- Improved CyberArk Privilege Cloud configurations and **onboarding** processes
- Worked with subsidiary companies to discover and onboard privileged accounts to CyberArk Privilege Cloud
- Collaborated with Linux/UNIX teams to correct SSH key discovery and onboard private SSH keys for enhanced PKI security
- Onboarded applications to Okta for SSO **implementation**
- Updated Privilege Cloud resources using REST **API**
- Implemented secrets **management** via CP/CCP
- Leveraged local LLM AI models for **scripting** efficiency gains
- Built the process to scan for an onboard SSH keys using CyberArk DNA Scan and Tanium
- Wrote script to pull pending discovered accounts from the CyberArk **API**

PROGRAM MANAGER IAM GOVERNANCE 06/2023 - 10/2023

Northern Trust, Seattle, WA

- Implemented IAM governance controls with business teams and application owners
- Improved the entitlement **onboarding** process
- Prioritized the road map for the **identity management** tool

CYBERSECURITY MANAGER IAM 04/2014 - 06/2023

Ally Bank, Seattle, WA

- Set goals, provided career guidance, and conducted performance reviews for direct reports
- Ran provisioning services team and AD/Okta provisioning team, ensuring continual service improvement and enforcement of security policies
- Simplified and improved access request process for 90 applications across multiple lines of business
- Implemented **identity** platforms and applications for better **identity** reporting and tracking, including AD ownership tracking and automation
- Led efforts to replace outdated applications with modern versions utilizing Okta SSO and SCIM **integration**
- Leveraged RPA bots for access provisioning where SCIM **API** was unavailable
- Established reporting on key performance indicators
- Worked with engineers to implement aspects of the CA PAM platform and session recordings
- Configured and supported business application user data **onboarding** into **SailPoint IIQ** for access reviews and Okta SAML and OpenID Connect for SSO

- Provided daily operational support for complex access requests, bulk provisioning, remediation report reviews, and quality assurance
- Ensured adherence to FFIEC, SOX, and PCI regulations, providing evidence of IAM adherence from systems and SIEM tools
- Led audit remediation efforts and identified ways to harden bank application configurations
- Improved provisioning practices, corrected IAM gaps, set IAM standards, and supported **implementation** of recommended changes
- Worked on contract verbiage with vendors and the legal department, including renegotiating license structuring
- Provided security project **management** support related to access requests and provisioning services
- Worked on resource and license planning with business teams
- Provided customer training and assistance on Ally's security standards, access request processes, and maintenance of **documentation** and procedures

PRINCIPAL IAM ENGINEER 02/2020 - 05/2020

Mainz Brady Group @ Legacy Health, Portland, OR

- Assisted in designing the IAM Program and worked on RFPs for IAM platform vendors
- Wrote demo scripts and Request for Proposal scoring for IAM Governance offerings
- Presented recommendations for a successful IAM program to leadership, many of which have been implemented
- Participated in IAM Steering Committee meetings

LEAD INFORMATION SECURITY ANALYST IAM 01/2010 - 04/2014

Blue Cross Blue Shield SC, Columbia, SC

- Wrote PowerShell and Oracle database scripts for mass provisioning of access
- Provisioned and maintained various accounts including RACF, TSO, Exchange, Oracle, RSA SecurID, AD, Novell, and proprietary applications
- Removed system access for terminated users and resolved access audit issues with auditors
- Identified and provided solutions for potential security issues in collaboration with compliance and upper **management**
- Resolved Websense web filtering issues and acted as a subject-matter expert for multiple applications
- Trained users on application administration and led team meetings on departmental and security issues
- Participated in the design and testing of new IAM applications

INFORMATION SECURITY ANALYST IAM 08/2009 - 01/2010

CBTS @ Fifth Third Bank, Cincinnati, OH

- Granted local administrator rights and remote desktop access to servers and desktops
- Maintained and modified share and file permissions as needed
- Created and maintained accounts for employees and vendors using Top Secret and TSO at Fifth Third Bank
- Created security roles for a spin-off payment processing company
- Modified user access across Mainframe, AD, Exchange, and Citrix platforms
- Diagnosed and resolved various access issues reported by the phone team

INFORMATION SECURITY ANALYST IAM 07/2005 - 07/2009

Kelly IT Services @ Sara Lee Corporation, Mason, OH

- Created and maintained the termination process to clean up system access for Sara Lee in North America and Europe

- Provisioned, coordinated, and provided **technical** support for access to approximately 150 applications, serving tens of thousands of users, including executive-level personnel
- Created accounts and managed access across various platforms such as SAP, IBM Mainframe, Active Directory, UNIX, and Linux
- Managed permissions for network resources, email, SIP communications, and Citrix applications within Active Directory
- Diagnosed and resolved access issues across multiple platforms, ensuring security requests met SLA requirements
- Worked with auditors to ensure compliance with SOX regulations
- Collaborated with the Director of End User Support on process improvements for security, hardware requests, and compliance
- Wrote and updated **documentation** for security administration and hardware procurement teams

Computer Science Aug 2003 - May 2004

Northern Kentucky University, Highland Heights, KY

Computer Science Aug 1997 - May 2000

Binghamton University, Binghamton, NY

SKILLS

Linux, PowerShell, Okta, CyberArk Privilege Cloud, Tanium, Active Directory, RACF, Exchange, Oracle, AWS IAM, MicroFocus DRA, Azure, AS/400, Temenos T24, Thales Luna 7 HSM, FIS Profile, Agile Scrum Trained, CA PAM, Jira, Confluence, ServiceNow, SIEM, **Identity** and Access **Management**, PCI, SOX, FFIEC, Contract Verbiage
