

MICHAEL W. THOMAS

CYBERSECURITY PROFESSIONAL

[LINKEDIN.COM/MTHOMAS77](https://www.linkedin.com/in/mthomas77)

THOMAS.MICHAEL77@GMAIL.COM

Information Security Strategist / Business Analysis / Expertise in Cybersecurity Analysis / Experience in Sensitive + Classified

- Accomplished and results-driven Cybersecurity and Information Security contributor with broad based expertise in support of infrastructure, applications, and cybersecurity measures for companies across a variety of industries.
- Expertise in leveraging SIEM technology, resulting in substantial gains to overall security posture and better client deliverables.
- An effective communicator who leverages an unwavering commitment to excellence to serve as a key member of IT teams, consistently delivering positive results in challenging and time-critical environments.

"Cybersecurity expertise exemplified: Michael Thomas blends hands-on experience with an unwavering commitment to safeguarding digital landscapes. His proven track record showcases not only technical prowess but also an innate ability to adapt, strategize, and excel in an ever-evolving cyber world."

-Robert A. System Architect at Bristol

CORE COMPETENCIES

- Seasoned SOC Analyst
- Skilled in Incident Response
- Effective Mentorship of Junior Analysts
- Working Across Department Lines
- Expertise in Multiple Industries
- Skilled in Process Improvement
- Experienced in Information Security
- Security Education Training & Awareness
- Exceptional Results in Vulnerability Assessments
- Experienced in Data Loss Prevention
- Python Scripting & Malware Analysis
- Governance & NIST Standards
- Collaboration Experience with SharePoint and Teams
- Threat Intelligence Specialist

PROFESSIONAL EXPERIENCE

JUNE 2024 TO PRESENT: OXFORD GLOBAL RESOURCES

- CYBERSECURITY ENGINEER (SHORT-TERM CONTRACTOR - ROLE ENDING 30SEP2024)

- Managing the creation and issuance of SSL certificates for internal and external systems and applications for a US Government DoE facility.
- Ensuring the security and integrity of SSL certificate issuance processes, including validation, approval, and revocation procedures.
- Researching, designing, and developing a solution to allow for automatic SSL certificate renewal, addressing issues of security, scalability, comprehensive monitoring, and resource utilization.
- Researching 3rd Party Certificate Lifecycle **Management** Solutions that could integrate into current infrastructure and improve the overall security posture.
- Implementation and maintenance of SSL certificate **management** systems and tools.
- **Collaboration** with cross-functional teams to identify SSL certificate **requirements** and providing technical guidance and support.
- Conducting periodic audits and assessments of SSL certificate usage and compliance with organizational policies and industry standards.
- Troubleshooting SSL certificate-related issues and incidents, including expiration, misconfiguration, and security vulnerabilities.
- Staying informed about emerging trends and best practices in SSL certificate **management** and cybersecurity.

SEPTEMBER 2021 TO JUNE 2023: CGI FEDERAL

- CYBERSECURITY OPERATIONS CENTER **ANALYST**

- Tier II SOC **Analyst** covering 12-hour overnight shifts in support of multiple clients, over various network environments.
- Utilized SIEM, SOAR, and available EDR/IDR technology to investigate security events and incidents, utilizing MITRE ATT&CK Framework, to create detailed annotations and client deliverables.
- Proposed revisions to firewall settings and managed remote **access** implementations, enhancing the overall security posture of the organization.
- Responded quickly and effectively to real-time security threats, escalating findings to Leadership and **Management**, engaging internal/external customers as needed.
- Worked Proofpoint and Carbon Black to prevent accidental data leakage and/or intentional exfiltration as part of Data Loss Prevention initiative.
- Investigated SPAM/Phishing emails, suspicious links, and weaponized attachments to help minimize the threat of a successful social engineering attack. Created info-graphic to be included as part of Security Awareness **Training**.

- Proposed changes to SOC SOPs to create a uniform and more robust client deliverable that exceeds expectation while encouraging deeper analytic focus.
- Conducted Threat Hunting campaigns within Splunk, Microsoft Azure Sentinel, and AWS GuardDuty to identify undetected actors across multiple environments.
- Tracked, recorded, and monitored security issues, resolving vulnerabilities to enhance system security.

DECEMBER 2020 TO MAY 2021: MULTISTATE PARTNERSHIP FOR PREVENTION

- INFORMATION SECURITY OFFICER (SHORT-TERM CONTRACTOR)

- Contracted as Senior-level InfoSec/Cybersecurity Technology Specialist with Business Analyst experience within a medical software environment.
- Excellent leadership and mentoring skills.
- Created technical reports with knowledge of cybersecurity, cloud security, and network security.
- Conducted meetings with MPP and AWS Project Managers to answer questions concerning HIPAA Security, Data Loss Prevention, and Secure Coding Practices, and ensured adherence to MPP Corporate Policy.
- Created MSPP Security Training and Awareness Program
- Implemented a Social Engineering Identification Training regimen that included phishing and vishing simulations.
- Administered The GUARD, compliance software to maintain accurate record of all required HIPAA trainings companywide.
- Provided AWS Security Monitoring via GuardDuty
- Provided support and answered questions pertaining to PrepMod, MPP Proprietary Software, for internal and external customers.
- Spearheaded gap assessment and vulnerability identification initiatives to improve overall security posture.
- Led vetting effort to acquire CPA partnership in ensuring a seamless SOC 2 audit.

MARCH 2020 TO AUGUST 2020: HAYS RECRUITING

- THIRD PARTY RISK SECURITY ANALYST (SHORT-TERM CONTRACTOR)

- Performed duties as Senior-level InfoSec/Cybersecurity Technology Specialist and Business Analyst for Truist Bank.
- Spearheaded research, direction, creation of process documentation, Bitsight VRM and Archer SOPs, and deliverables to formally establish the 3rd Party Risk Program for Truist Bank.

- Created visual aids and presentation deck templates to be used for executive presentations and client interactions.
- Worked as part of a team of InfoSec **business** analysts to assess the level of **risk** and/or exposure for Truist Bank, constituted by initiating or continuing a 3rd party vendor relationship with outside entities.
- Conducted meetings with Truist project managers, as well as vendor project managers, to answer questions concerning 3rd Party **Risk**, as well as to ensure corporate policy.
- Reviewed vendor contracts and performed Redline assessments to address areas where vendor specifications did not meet Truist Bank standards.
- Lead **collaboration** efforts with internal and external IT service providers and **business** units in evaluating and gathering technical **requirements** for **business** clients' information security initiatives.
- Acted as a thought leader and trusted partner enabling **business** units to more aggressively leverage its capabilities to drive **business** value and strengthen its role in upholding Truist Bank's competitive advantage.

OCTOBER 2019 TO MARCH 2020: TEKSYSTEMS

- IT CYBER SECURITY **ANALYST** (SHORT-TERM CONTRACTOR)

- Performed Tier II investigations, analytics, and incident response for National General Insurance Company.
- Performed duties as Backup McAfee ePO, performing policy/rules creation and modifications for ePO Administrator and ePO Security.
- Acted as backup administrator for McAfee DLP, assisting with rule creation using RegEx.
- Acted as member of Change **Management** Board.
- Investigated suspicious end user emails, sandboxed links, removed threat emails from user inboxes, and worked closely with the **IAM** team to have user **access** restricted until passwords were changed.
- Utilized IBM QRadar to investigate security events and incidents.
- Performed sandboxing of suspicious and/or quarantined executables and reported findings
- Performed incident response and activated Cyber Incident Response Team, given the severity.

JUNE 2018 TO SEPTEMBER 2019: ENVIRONMENTAL PROTECTION AGENCY

- SENIOR CYBER INCIDENT **ANALYST**

Fulfilled critical roles, acting as both Senior Cyber Incident **Analyst** and ArcSight Engineer, designing, implementing, and securing mission-critical network infrastructure for the Environmental Protection Agency. Upon joining EPA CSIRT, leveraged extensive user knowledge of ArcSight to spearhead monitoring, **analysis**, administration, and custom rule writing for superior threat detection and successful threat hunting. Used threat hunting knowledge and

available list of IOCs to discover compromised assets on first week of employment. Contractor role assigned by APEX Systems.

- Produced cybersecurity **training** materials, briefings, and SOPs detailing the use of ArcSight in a cybersecurity **analysis**, as well as instructions on how to investigate and document an incident for CSIRT Incident Response.
- Created informationals, whitepapers, and other cybersecurity deliverables for Federal client.
- Monitored for changes in security posture using **Microsoft** Defender Suite for Cloud.
- Investigated products, interviewed SMEs, conducted product trials, and evaluated various cybersecurity solutions.
- Performed event **analysis** and incident response using **Cisco** Firepower, Azure Sentinel, and **Microsoft** Defender.
- Produced in-depth client deliverables, as well as detailed after action reports.

Early Career

CYBER SECURITY OPERATIONS CENTER **ANALYST** - *DXC Technology*, The Select Group, Herndon, VA (2017 – 2018)

CYBER SECURITY OPERATIONS CENTER **ANALYST** - Duke Energy, OPTOMI, Charlotte, NC (2016 - 2017)

EDUCATION & PROFESSIONAL CERTIFICATIONS

WESTERN GOVERNORS UNIVERSITY

Candidate for Bachelors in Cybersecurity and Information Assurance (Incomplete)

CRAVEN COMMUNITY COLLEGE, NEW BERN, NC

Associate of Applied Science in Cyber Security

CRAVEN COMMUNITY COLLEGE, NEW BERN, NC

Associate of Applied Science in IT Support

Active Certifications: CompTIA A+, CompTIA Network+, CompTIA Security+, CIW Web Security Associate

Inactive Certifications: CompTIA CySA+, EC-Council Certified Encryption Specialist

Technical Skills: Windows, Cybersecurity, Remedy CRM, VMware, Linux, LAN/WAN, **Microsoft** Service Now, Archer, Splunk, ArcSight, QRadar, SIEM, Splunk Query Language, **Cisco** Firepower, SolarWinds, Nessus Vulnerability Scanning, Windows Server, DNS, Wireshark, Office 365 Suite of Software (PowerPoint, Visio, Excel,

Word, Teams), Microsoft Cloud Security, Microsoft Defender Cloud, Symantec Security Analytics, Checkpoint, AMP Threat Grid, Palo Alto Firewalls, Blue Coat, McAfee, BitSight, Carbon Black, Imperva, Trend Micro, Proofpoint, Data Loss Prevention, SailPoint, Azure Sentinel, Scripting, Python, Bash, Java, SOAR, MITRE ATT&CK, Security Analysis, Incident Response, Endpoint Security, SETA
