

Ten years deep APM expertise using Dynatrace and competitive products. Deliver high value, enterprise-wide implementation with **performance** and **reliability** improvements in cloud and on-premise environments. Support DevOps, **Production**, and Business partners via triage, training, custom dashboarding, **problem management**, and incident resolution.

Skills and Capabilities:

- Superior **problem**-solving skills delivering reliable, secure performant applications
- Dynatrace certified (2014-2022 **current**,) AppDynamics(2013.)
- Manage and upgrade **Production** and Non-**Production** Dynatrace tenants
- Develop and manage dashboards, rules, business transactions, incidents, extensions, custom code.
- Plan and deliver conversion of Dynatrace Managed for on-prem + AWS + Azure migration
- Enhance **management** capabilities and user satisfaction via triage and training.
- Collect **performance** metrics, provide **analysis**, drive **performance** and **reliability** issues to closure.
- Excellent communication, political sensitivity, and project **management** skills
- 7x24 **Production** support via team rotational schedule

Employment History:

Dynatrace + Independent Consultant 2014 – Current:

Expert Services engagements ranging from 3 months to 4 year duration

- Serve as a technical implementation expert (SME) resolving critical / complex application **performance** and integration issues. Drive **optimization** changes improving business critical applications.
- Triage **production** and development issues, conduct training, and remediate configurations focused on maximizing product capabilities & techniques using both real-time and trended instrumentation for memory leak, heap **management**, garbage collection, and HTTP payload data in Micro Services, Java, .NET, DB, and AWS based systems.
- Identify, prioritize, and resolve poorly performing configurations, code, transactions, queries, events and errors.

AppDynamics/OpTier *Solution Delivery Organization* 2010-2013-

Provide APM product expertise resolving application and infrastructure problems. Mentor clients formally in product, **performance testing**, and **production** triage, enhancing capabilities for rapid resolution of complex applications in enterprises with up to 5000 servers.

Hewlett Packard (acquired Mercury Interactive, San Jose, CA.) 2003 – 2010

Client Principal / Engagement Manager / Lead Solution Consultant

*Seven years delivering enterprise **performance** solutions*

Assigned to largest, highly visible, strategic, or differentiated customers. Accountable for successful services delivery and benefits realization (manage risk, accelerate business outcome, lower costs) of large / complex initiatives. Leadership of teams with 4–30 billable engineers.

Kubota Pacific **Senior Systems Engineer**, Sunnyvale, CA.

Fast paced Silicon Valley start up environment. Seven years experience in High **Performance** Computing (HPC) environments as a manufacturer representative of high **performance** parallel-processing graphics mini-super-computers. Knowledge of highly optimizing C & Fortran compilers, hardware architecture, and Unix internals used in scientific and technical computing environments.
