aearl.harris@gmail.com

### SUMMARY of PROFESSIONAL SKILLS

Have excellent interpersonal and project management skills, good analytical ability, and a diversity of work experiences. Distributed control experience, P&ID development, process automation, working knowledge of NEC, power systems and GMP experience. SCADA, PLC, Robot and motion control programming, HMI development, Instrumentation specification and procurement, control panel specification and drawings, Low and Medium Voltage switchgear specification. Electrical Design, Motor Control Center (MCC) specification, Construction Management, Check-out and Start-up experience. Power Systems Analysis and Fault Calculations, Linear and Non-Linear process modeling experience, DSP analysis and design and Analog Circuit design. Knowledge of Classical Control Systems, Digital Signal Processing, and Digital and Non-Linear Control Systems. Excellent trouble-shooter with good mechanical aptitude. **Computer languages:** PRO-MATLAB, some C, Microsoft Visual Basic, Microsoft OFFICE Professional, Microsoft Project, DAPPER Power systems analysis tool, PLC ladder logic, AutoCAD® Rel. 2000, Fanuc RJ2 robot software.

### MANAGEMENT ATTRIBUTES

**Communication:** Exceptional team player with skills in diplomacy. Exceptional people skills with the ability to communicate and relate to people at all levels. Superior written and verbal communication skills.

**Leadership:** Self-motivated individual with the ability to inspire others to top performance. Excellent trainer and motivator, with the ability to bring out creativity in others. Ability to remain calm under pressure while meeting tight deadlines and demanding objectives. Visionary, strategic thinker with the ability to simplify complex problems. Hands-on, practical approach to problem solving.

**Responsibility:** Action oriented with the ability to get things done. Persistent, loyal, reliable, and responsible individual who is fully committed.

**Style:** Highly enthusiastic individual with the ability to gain the confidence of others. Precise, analytical and logical thinker who can analyze situations rapidly. Resourceful, innovative and imaginative problem solver who can work independently or part of a team.

### EDUCATION

MSEE, 1991, University of Southern California, 3.30 GPA, Hughes Masters Fellow  
BSEE, 1987, Mississippi State University, 3.30 GPA, Weyerhaeuser Scholar, Eta Kappa Nu Honorary

### CERTIFICATIONS

Professional Engineer (Electrical) State of California License #E13888  
Instructor for Professional Engineering Review Course (1994-1996)  
UCLA Plant Engineering Certificate Program

Plant Engineering Certificate Program covered various topics in facilities, i.e. cooling towers, boilers and boiler control, plant electrical distribution, Civil and Structural, pumping machinery, compressors, HVAC, water treatment and miscellaneous topics in facilities management.

### EXPERIENCE

**Experience Summary:** Accomplished professional engineer with over twenty years of engineering experience in various industries. Experience working for both large and small companies. Demonstrated experience incorporating superior controls to improve productivity and efficiency. Managed projects successfully with electrical and control budgets up to \$12 million. Proven track record of success implementing complex projects with tight deadlines. Led projects from concept to completion. Purchased and installed leading edge equipment with highly successful results in applications.

#### Disneyland Resort, Anaheim, CA (1/09-Present)

**Title:** Principal Engineer Architectural and Facilities Engineering

- Responsible for code compliance at Resort. Responsible for the maintenance of all facility electrical distribution. Duties include maintaining short circuit studies and trouble-shooting of electrical facilities.

#### San Diego Gas and Electric, San Diego, CA (2/06-1/09)

**Title:** Senior Engineer/Team Lead Distribution Standards

- Team leader for distribution standards. Responsibilities included: Distribution transformer Engineer, SCADA specifications for distribution equipment, switch specification and distribution standards.

#### San Diego Gas and Electric, San Diego, CA (2/05-2/06)

**Title:** Operations and Engineering Manager (Orange County Operations)

- Supervised 11 Union employees, one district engineer and one administrative employee.
- Ensured district meet Reliability and Corrective Maintenance goals while maintaining a safe working environment.

**San Diego Gas and Electric, San Diego, CA (11/02-2/05)****Title: Senior Engineer/Team Lead Distribution Standards**

- Introduced cutting edge RTU's for SCADA 12 Kv distribution switchgear and successfully launched the introduction of a new series of underground switchgear.
- Served as mentor for seven entry level engineers.

**SONY Electronics, Inc., San Diego, CA (1998-2002)****Title: Senior Staff Electrical Engineer**

- Implemented automation projects and process modifications for improving line efficiencies.
- Responsible for programming and maintaining Omron PLC's; programming and configuring Fanuc RJ2 Series robots; specifying and ordering of hardware and software components, generating electrical documentation and panel fabrication drawings, managing electrical installation; and system start-up and testing.

**Nestlé USA, Glendale, CA (9/95-5/98)****Title: Project Instrument/Electrical/Controls Engineer**

- Managed all electrical engineering for a \$26mil process expansion. (\$12mil electrical)
- Managed all electrical engineering for a \$1.5mil electrical service upgrade.
- Managed all electrical and controls engineering for a highly automated, \$4.2mil infant formula expansion.
- Developed construction drawings to replace an existing Foxboro DCS system with Allen-Bradley PLC based controls and FIX DMACS® HMI.
- Successful conversion of approx. 1000 I/O points during one-week shutdown. (Employee of the Month, Sept. 1995)

**HARRIS CONSULTING ENGINEERS, LA CRESCENTA, CA (1993-1995)****Nestlé USA, Glendale, CA (3/94-9/95) (Contracting Engineer)****Title: Project Lead Instrument/Electrical/Controls Consulting Engineer**

Performed instrumentation engineering on various automation projects for power plants, utilities, water treatment, pharmaceuticals, chemical, and mining industries while working as an independent consultant.

**NOVA AUTOMATION (1992-1993)****Title: Engineer III**

- Conducted electrical load surveys and performed load analyses for power distribution grids and co-generation facilities.
- Implemented control schemes using PLC and DCS systems for plant automation.

**BAXTER HEALTHCARE CORPORATION (1991-1992)****Title: Control Systems Supervisor**

- Supervised a department of ten instrumentation technicians with a \$1.2 million annual budget.
- Duties included installation and calibration of transducers, controllers, and instruments used in pharmaceutical processing and packaging.
- Responsible for ensuring proper operation of plant's PLC's.

**HUGHES AIRCRAFT CORPORATION (1987-1991) (Hughes Corporate Rotation Program 7/87-10/89)****Title: Control Systems Engineer, Space Systems, El Segundo, CA**

- Responsible for developing linear and non-linear analytical models for analysis of spacecraft control systems. Developed sampled-data control algorithms for flight control software.
- Designed and implemented an analog circuit interface card used for measuring sub-sea cable resistance and analog signal conditioners for flow and pressure transducers for a sub-sea oil and gas project. (Superior Performer Award)

**WEYERHAEUSER PULP AND PAPER COMPANY (1984-1986)****Title: Engineering Intern**

- Worked with plant maintenance and engineering to modify and maintain processes of power distribution equipment.

# Earl Harris

- Mission Viejo, CA, US

## Contact Information

- oex-c00-bl4@mail.dice.com
- 7605800200

## Education

- **Bachelors** | Mississippi State University
- **Masters** | University of Southern California

## Skills

- **engineering** - 39 years
- **electrical engineering** - 38 years
- **troubleshooting** - 33 years
- **installation** - 30 years
- **automation** - 26 years
- **distribution** - 25 years
- **control system** - 20 years
- **drawing** - 20 years
- **team leadership** - 20 years
- **compliance** - 16 years
- **scada** - 18 years
- **controls** - 15 years
- **documentation** - 15 years
- **plc** - 8 years
- **software** - 8 years
- **configuration** - 4 years
- **hardware** - 4 years
- **programming** - 4 years
- **qa** - 4 years
- **robotics** - 4 years

## Work Preferences

- Desired Work Settings: No Preference
- Likely to Switch: False
- Willing to Relocate: True
- Travel Preference: 75%
- Preferred Location:
  - San Diego, CA, US
  - Huntsville, AL, US
  - Portland, OR, US
- Work Authorization:
  - US
- Work Documents:
  - US Citizen
- Security Clearance: False
- Desired Salary: 230,000+ (USD)
- Third Party: False
- Employment Type:
  - Full-time
