- Big Bang – Project to expand the product offerings to our customers to expand beyond TCCC products
- ICEP (Integrated Customer Engagement Platform) SFA on PACE **Software** solution.

Employer: The Coca-Cola Company – BIG IT

Position: Snr Platform Architect – **SAP Finance** and **HR** (Nov 2014 to Apr 2017) – Atlanta, GA

- Responsible for the development of high level architecture across various platforms for projects and enhancements in the **Finance** and **HR** enabling functions.
- Managing a team of several **cross** platform architects to achieve the best strategic solution for **HR** and **Finance** projects while considering company policy and future strategy. Develop the optimal solution required by our **business** partners to enhance and improve the **business** needs.
- Responsible for annual review of current and future state architecture for Enabling Functions (FI and **HR**) solutions (ARIS BPM Modeling) in conjunction with the Deployment and Account **Management** Team. The current and future state environments are captured in the ARIS BPM tool. As SPA's we have access to ARIS in order to make changes and updates to the applicable diagrams. It is a very useful tool to define **business** process modeling and positive process re-engineering.
- Worked **cross-functional** with **business** partners to assist with reviewing and improving **business** processes and ensure continuity of agreed procedures using the ARIS BPM modeling tool.
- Managed and Implemented the development and **functional** requirements for unit testing for various projects including responsibility for on time delivery to ensure development adheres to proposed high level **design**.
- Lead **Functional** Architect for CCME Solution – Solution combined prior CTM/CMA functionality in a solution spanning **cross** applications including SFDC; **SAP** ECC – CCNA and CCR and Teradata. Solution includes billing customers and paying suppliers for customer marketing agreements.
- Responsibility for **Vendor** engagement and SOW review where applicable
- CCBSS – assisted in financial package solution selection to replace the current PR1 system for CBS after complete refranchising of CCR to other bottlers.
- Arcaccontinental Coca-Cola Southwest Beverages transition – Responsible for identifying all Non-**SAP** applications required by CCSWB to facilitate a successful transition. Responsibilities included identifying applications, obtaining **Functional** Specs and other Architectural documents. Facilitated meetings with **Business** users, IT owners and the ARCA transition team. In all 69 applications were identified for inclusion in the transition process. Worked closely with the BSNA (**Business** Services North America) team to ensure applications were included in portfolio as service to other bottlers.

Employer: Coca-Cola Refreshments

Position: Solutions Architect II (Oct 2013 to Oct 2014) – Atlanta, GA

- Responsible for **business** requirements gathering, solution **design**, preparation of **functional** specifications. Overseeing development and **functional** and unit testing for various successful projects.
- SME for presentation and representation of **SAP** EBS **Finance** Team at Service Provider Engagement meetings, Architecture Review Board Meetings.
- Worked **cross-functionally** across **business** partners with the Customer Commercial team to implement the DSD Online (myCoke.com) functionality for CCR using the SFDC CloudCraze application with Paymetric Credit Card processing. This functionality was rolled out to other bottlers in the CONA environment. Later enhancements included functionality to allow myCoke.com customer to pay using eCheck functionality.
- Key member representing FI and **HR** at presentations by external vendors of future products i.e. **SAP** S4/HANA, **SAP** Simplified Financials.
- Member of the **Systems** of the Future initiative representing **SAP Finance** for CCR and CCNA to **support** the transition to external Bottlers in CONA.
- Presenting **business** requirements to strategic partners to obtain bids to complete development and project work.
- Successfully completed MyCokeAccount.com project for the McDonalds Division, on time and within budget. The customer threatened to move to another supplier if issues were not resolved on time.
