Career Object:

PLC : Siemens S7 **PLC's** 300 series with Profibus/Profinet or Ethernet **PLC communication**.
 Allen-Bradley (Control Logix5550, PLC5/86, PLC5/25, SLC500, 5/04, SLC5/05, MicroLogix1100)
 Compactlogix **PLC** Ethernet ENBT/ENET/ Device Net
 Siemens IPC427D/ Step7 Professional V5.5 WinCC v7.2 with VBS script.
PLC Controls based on Siemens WIN AC/RTX with IPC427D systems.
HMI/SCADA: Siemens WINCC V6.0 WINCC V7.2, Rockwell **Software** Rsview ME, FactoryTalkStudio,
Motion Controls: Allen-Bradley KINETIX 6000 / ULTRA 3000 SERCO Motion Compactlogix L43
PLC processor, Control technique AC servo drives with Siemens SINUMATIC 810D W/Profibus.
VFD AC/DC Drive: Allen-Bradley PowerFlex AC drive753,40,70 1395 DC Drive ,Siemens
 Micromaster 440 series with profibus or Ethernet IP's.
CAD: AutoCAD **Electrical** 2015, AutoCAD Vault.

Relevant Work History:

Shultz Steel Company SouthGate, CA Aug 2011 – Present
Electrical Engineer

- **Project** managements or lead projects; Update the various automation systems controls on plants.
- Controls **Engineering**, programed WinCC HMI's Furnace combustion controls and retrofit use of Siemens S7 319 **PLC**.
- Programmed PID and temperature controls use siemens WinCC V7.2 and Win AC/RTX IPC427D (Siemens PC bases control systems) for Furnace combustion controls.
- Controls **engineering** for DCS Grinder Application use A-B Cpxlogix L32 **PLC** with Factorytalk view studio ME.
- Controls **Engineering** and programmed metal inspection system use of Allen-Bradley Kinetix 6000 with controllogix **PLC's**.
- Design **PLC** Control panels **PLC** I/O's base on UL or NEC codes. Autocad **Electrical** 2015.

Spraying Systems Inc., Wheaton, IL Apr 2010 – Aug 2011
Controls Engineer

- I Programmed an application of a controls forces of the hydraulics pressure as use PID controls and proportion and amplified the analog controls outputs from the **PLC's**.
- Application design use AB controllogix **PLC** (L61 processor) and I programmed a HMI screens for the High servo Spraying controls use Rsview Studio ME **software**.
- **Engineering** Controls and programmed with controllogix **PLC** for pharmaceutical processing systems.
- Design **Electrical** Schematics in use the 2010 Auto Cad **Electrical** tools.

Wes-Tech Automation Solution. Buffalo Grove, IL Sep 2008 – Apr 2010
Controls Engineer

- Kinetix 6000 SERCO Motion controls design and **PLC programming** for medical part assembly and process automation.
- Program design/start up 3axis Gantry Robot use Siemens S7/300 family **PLC** ,Sinumerik 810D NC controller.
- Siemens **PLC** S7-300 CPU 315-2 DP **PLC** program design for Abbott,Co IL Pharmaceutical line Bypass tube machine
- Lean cells for test and assemble station --- designed **electrical** schematics use Acad LT and programmed Allen Bradley Factorytalk view HMI's products.
- Compactlogix L43 **PLC** Ladder Logic Design for automatic screw drive and parts feeding machines

- Controls design Seal cutting machine Allen-Bradley Kinetix6000 with Controllogix **PLC**
- Modification of Siemens S7 412 **PLC** program for the Automatic packaging machines
- Controls **Engineering** and programmed metal converting systems for ford motor company.
- Programmed Profibus scanner SST-PBB-CLX modules with Allen Bradley ControlLogix **PLC**'s of output motor controls devices for the forge press system .
- Programmed Allen-Bradley controllogix L61 **PLC** with EC3 plus DeviceNet Motor overload controls for heat treat furnace and forge press machines.
- Programmed Power Flex 40/753 AC Drives.

Dukane Inc. St.Charles, IL Aug 2005 –Sep 2008

Senior Controls **Engineer**

- **PLC** ladder logic **programming** for thermal press Temperature controls ,PID closed loop process.
- Custom Machines controls design and **programming** wiring based on Dukane ultra sonic product.
- Siemens S7 317 **PLC** STL,LAD program design for the pick-N-place systems
- Siemens Protool v6.0 – application **programming** for the servo conveyors
- ControlLogix PLC1756-M02AE SERCO Motion module and Ethernet, Ladder Logic Program Design and Pharmaceutical Bundler Packer 3 Axis Servo Machine with Compactlogix L43 **PLC** for Lean Cell,Heat Platen Machine for Hybrid Battery Assembly Line use **PLC**/Ultra3000 Servo Drives/ kinetix 6000.
- Galil Motion **programming** with CDS3300 motion controller
- Allen-Bradley Servo Kinetix 6000/Ultra 3000 serco Motion **Programming** for ultra-plastic weld.
- Panelview Plus 1000 Programing,with RSview Studio ME
- Design Control **electrical** schematics and panels layouts – in use ACAD **Electrical** 2008
- RCM/PPM/FEMA maintenance failure **analysis** based on preventive maintenance **software** tools

VERSON Inc, Chicago, IL June 1997 – Aug 2005

Senior **Electrical Engineer**

- Controls **engineering** use Allen-Bradley Controllogix **PLC** and Ethernet 20comm-E communicate to the Power Flex Drive
- Kinetix 6000 Servo Motion **Programming** for Material Handling Machine
- PowerFlex70 and 40 **Programming** for Conveyor
- Allen-Bradley Controllogix 5555 **PLC** program for Furnace process controls Systems
- Allen-Bradley SLC5/05 **PLC** program design
- In Used Panelview, 900,1000,and RS-view HMI **software** program design for vacuum furnace
- **SCADA** Wonder ware **programming** Intouch 7.1
- In used Interact HMI and Ethernet Communicate to SLC5/05 and Controllogix **PLC**
- Technical Support for Ford Motor company Chicago Assembly Plant and Ford Stamping Plant at Chicago Height,Illinois D258/D219 Free Style New Vehicle Welding Robot Dash and Cowl Line Uses **PLC**-5 and Panelview 1000e and Controllogix 5550 **PLC**, Rslogix Enterprise Series **Software**
- Retrofit **Project** "C" Press(Progressive Stamping Press) Chrysler Belvidere
- **Programming** **PLC**-5 and 1400 Panelview Touch Screen (in used Tools parameter controls and Recipe management)
- Design **Electrical** Controls and Build Control Panels / Supervisory Controls-Monitoring Panels
- Allen-Bradley SLC5/04 **PLC** program support for Metal Stamping Press System
- **Engineering** Motor Controls and Schematic Design for Conveyor and metal coil feeder with ACAD-R14 , RSWire and Develop Panel Mate 3000,1700 MMI and **SCADA** application **Programming** for the 400 ton metal stamping Press systems
- **SCADA** Wonder ware **programming** Intouch 6.0 (Device Locator and Recipe database manager **programming** with Microsoft NT 4.0 server and SQL with database access)

- Controllogix 5550 **PLC** Ladder logic **Programming** for Stamping Press System
- Allen-Bradley **PLC-5 programming** and Wonderware **SCADA programming** for Blanking Cut to length Uncoiler /Feeder/Straightener metal Coil Line Install at Ford Sterling Hts,
- Develop application HMI Recipe Manager Controls (Panelview 550) In-Die Transfer Feeder

Curtron Inc. Troy, MI Oct 1990 –June 1997

Systems Engineer

- HMI Application Line supervisor **software engineering** for the General Motors
- **Programming SCADA** Wonderware **programming** Device Locator MS SQL/Access.
- **Programming SCADA** Wonderware (Line supervisor for IHI Stamping press)
- Allen-Bradley Panelview 550/900/Remote I/O's BlockTransfer **PLC programming**
- Control design of Feeder panel. (Used A-Cad r12 and 13)
- **Programming** Allen-Bradley drive systems 1395 DC and AC VFD's.
- System Supervisory and Monitoring and messages displays **programming** in use VB 6.0

GOLD STAR America Inc. Huntsville, AL May 1984 –Oct 1990

Electrical Engineer

- Pre/Flow conveyor controls design and **programming** for Thomson's Electronics
- Responsibility maintenance **engineering** for **computer** assembly plant production line facilities
- **Electrical Engineering** and job site supervised personnel.
- Control Design and **programming** for **Computer** assembly line used Mitsubishi Melsec KoJ **PLC** controller and F40MR CPU controllers.
- Omron C500 program design for Conveying Shuttle Facility at Huntsville Alabama.
- Mitsubishi A Series **PLC programming** for Microwave Assembly Line.

Education:

- 1977 – 1980 Graduated Kyung Ki High school, Seoul Korea
- 1980 – 1984 Graduated In-Ha University, (**Electrical Engineering**) BS, Inchon, Korea

Additional Education and certifications :

- Completed Course RS Wire CAD School Rockwell-**Software** Wi,-- 1999 Feb
- Completed Rockwell Devicenet Course,Rockwell-**Software** Wi,-- 1998 Jan
- Completed Rslogix 5000 **programming** Course,Rockwell-**Software** Wi, -- 1998 May
- Eaton/Cuttler Hammer University Panelmate **Programming** Course, 1999 May
- Completed Rs-Logix 500 **PLC** Course Rockwell **Software** School. Course--1996 June
- Completed Course Wonder ware Intouch 6.0 school. – 1995 Mar
- Completed Course AutoCAD **Electrical** 2008 (Haggerman Schaumburg, IL) 2007 Feb
- Completed Course Rockwell **PLC-5 Programming** school, Troy, MI, --- 1995 Aug
- Completed Indramat Servo Controls **programming** course (Hoffman Estate,IL)--- 2000 Apr
- Galil Motion Controls Training (Rocklin,CA) – 2007 Feb
- Siemens WInCC V7.2 training -2014 March.
- Siemens S7 **Programming** Simatic S7 **software** V5.5 .
- AutoCAD **Electrical** 2015.

Language: English, Bilingual Korean and some Japanese

U.S Citizen

Jae Lee

- Glendale, CA, US

Skills

- autocad - 17 years
- plc - 9 years
- automation - 6 years
- failure analysis - 1 years
- hydraulics - 1 years
- schematics - 1 years
- controls - 24 years
- programming - 24 years
- ethernet - 11 years
- electrical wiring - 3 years
- schematic - 3 years
- scada - 14 years
- software engineering - 6 years
- supervision - 6 years
- visual basic - 6 years
- wonderware - 6 years
- cpu - 6 years
- electrical engineering - 6 years
- electronics - 6 years
- microwave - 6 years

Work Preferences

- Desired Work Settings: No Preference
- Likely to Switch: False
- Willing to Relocate: False
- Travel Preference: 0%
- Work Authorization:

- US
- Work Documents:
 - US Citizen
- **Security** Clearance: False
- Third Party: False
- Employment Type:
 - Full-time
