Senior Software Engineer

Hands on experience in all aspects of design, implementation, programming, testing, integration, quality, and lifecycle support. Expertise in server design for large scale process control and data acquisition for mid to large size company. Innovative team player that gets results by inspiring commitment, trust, and loyalty. Additional strengths include:

- Application Development
 - Systems Integration
 - Quality and Testing
 - Redundant Control Systems
 - Supervisory Control & Data Acquisition (SCADA)
 - Distributed Control Systems (DCS)
 - Software Methodologies
 - Object Oriented Programming (OOP)
 - Service Oriented Architecture (SOA)
 - Embedded Programming
 - Socket Programming
 - Multithreading
 - Critical Thinking
 - Project Management
- C++, C#, C, SQL, MFC, .NET, STD, WCF, COM, and Visual Studio (6,10,12)
 - Communication protocols such as TCP, UDP, Modbus, BSAP, HSQ, Fisher ROC, OPC, and ODBC

PROFESSIONAL EXPERIENCE

FMC Technologies, fka Control Systems International | Irvine, CA

Senior Software Engineer | Software Developer

- Designed and implemented redundant I/O server applications for Windows platforms.
- Performed and directed revisions, repairs, and expansions of existing programs to increase operating efficiency and adapt to new requirements.
- Modified existing software to correct errors, adapt to new hardware, and upgrade interfaces and improve performance.
- Consulted with customers and other departments on project status, proposals, and technical issues, such as software system design and maintenance.
- Communicated with staff and clients to understand specific system requirements.

- Analyzed user needs and **software** requirements to determine feasibility of design within time and cost constraints.
- Analyzed information to determine, recommend, and plan installation of a new system or modification of an existing system.
- Conferred with systems analysts, engineers, programmers and others to design system and to obtain information on **project** limitations and capabilities, performance requirements and interfaces.
- Participated in product design reviews to provide input on **functional** requirements, product designs, schedules, or potential problems.
- Designed, developed and modified **software** systems, using scientific **analysis** and mathematical models to predict and measure outcome and consequences of design.
- Developed and directed **software** system testing or validation procedures.
- Directed **software programming** and **development** of documentation.
- Documented design specifications, installation instructions, and other system-related information.
- Verified stability, interoperability, portability, **security**, or scalability of system architecture.
- Provided staff and users with assistance solving **computer** related problems, such as malfunctions and program problems.
- Documented **software** defects, using a bug tracking system, and report defects.
- Developed testing programs that address areas such as networking, **communication**, database impacts, **software** scenarios, regression testing, negative testing, error or bug retests, and usability.
- Implemented tools and simulators for testing large scale projects.
- Coordinated installation of new system.

Wonderware Corporation, Irvine, CA

2000-2001

Staff **Software Engineer** for I/O Server Group

- Designed and developed ActiveX control (**C++**) for the browsing tag information from industrial programmable logic controllers.
- Provided an automated mechanism to transfer **PLC** namespace information into InTouch application.

EDUCATION

Masters in **Electrical Engineering** | San Diego State University, San Diego, CA

Bachelor in **Electrical Engineering** | San Diego State University, San Diego, CA

Work History

Total Work Experience: 25 years

- Staff **Software Engineer** Wonderware Corporation
Jan 01, 2000
- Senior **Software Engineer** | **Software** Developer FMC Technologies, Fka Control Systems International

Education

- **Masters** | San Diego State University

Skills

- **bug tracking** - 20 years
- **programming** - 20 years
- **software** - 20 years
- **software development** - 20 years
- **software engineering** - 20 years
- **c++** - 15 years
- **mfc** - 15 years
- **microsoft visual studio** - 15 years
- **modbus** - 15 years

- **multithreading** - 15 years
- **oop** - 15 years
- **scalability** - 15 years
- **socket programming** - 15 years
- **tcp** - 15 years
- **opc** - 12 years
- **scada** - 10 years
- **udp** - 10 years
- **.net** - 2 years
- **embedded systems** - 2 years
- **c#** - 1 years
- **soa** - 1 years
- **wcf** - 1 years
- **xml** - 1 years
- **activex** - 2 years

Work Preferences

- Desired Work Settings: No Preference
- Likely to Switch: False
- Willing to Relocate: False
- Work Authorization:
 - US
- Work Documents:
 - US Citizen
- **Security** Clearance: False
- Third Party: False
- Employment Type:
 - Full-time
 - Contract - Independent
 - Contract - W2
 - Contract to Hire - Independent
 - Contract to Hire - W2
