

Sahriar Hossain

QA Engineer | Mobile Testing | AI & Automation | Cross-Functional Leadership

929-254-8997 sahriar.hoss@gmail.com /in/sahriar-hossain/

EXPERIENCE

Senior QA Engineer

Seattle, WA

Meta

01/2024 - 10/2024

- **Project:** Led the testing and optimization of Voice AI for Ray-Ban Smart Glasses at Meta, ensuring seamless functionality and accuracy in voice command recognition and execution
- Directed a cross-functional QA team of 15 engineers (5 in-house, 10 offshore), focusing on Espresso-based automated testing for Android UI
- Conducted rigorous testing of AI-powered object recognition and description capabilities, ensuring precise and reliable performance
- Tested and validated voice-activated functionalities, including setting timers, reminders, and alarms, ensuring seamless user experience
- Configured and tested the integration of smart glasses with messaging platforms like WhatsApp, Messenger, and phone text services, verifying the accuracy of communication features
- Utilized ADB commands to extract and analyze logs, assessing system performance and identifying any critical issues for prompt resolution
- Developed and implemented automated test scripts using Pytest for Meta Smartglasses, ensuring reliability of critical functionalities such as AI-powered object recognition and voice command accuracy.
- Verified that AI-based object recognition met accessibility guidelines, testing voice commands and audio cues for users with visual impairments

Senior QA Engineer

New York, NY

Hulu

09/2022 - 01/2024

- **Project:** Oversaw the integration and seamless merging of Disney and Hulu content across mobile and web platforms, ensuring a cohesive and user-friendly experience
- Conducted comprehensive manual testing across all OTT devices, web platforms, and video playback systems, resulting in a 35% reduction in critical playback issues and a 98% increase in test coverage
- Spearheaded mobile testing for Android and iOS applications, utilizing Appium and Espresso frameworks for automation
- Developed and implemented a rigorous ad testing process, focusing on insertion and playback within the Hulu platform, resulting in a 25% reduction in ad-related errors and a 15% increase in ad completion rates
- Utilized Appium to create a unified test framework across iOS and Android platforms, ensuring Hulu's mobile applications maintained consistent performance and compatibility
- Conducted integration tests for Disney-Hulu combined content, ensuring unified playback and stable performance across OTT devices, web platforms, and mobile apps
- Performed comprehensive end-to-end manual testing on newly released products, ensuring quality

QA Automation Engineer

Remote

National Basketball Association

10/2020 - 08/2022

- **Comprehensive Testing:** Performed functional and non-functional testing, including regression, integration, and smoke testing, to ensure the highest standards of product quality
- **Cross-Browser Testing:** Utilized Selenium WebDriver and Selenium Grid for cross-browser testing, ensuring consistent functionality across major browsers such as Chrome, Firefox, and Safari
- **POS System Validation:** Conducted point-of-sale (POS) testing for NBA's in-store systems, focusing on validating payment processing, inventory management, and customer loyalty program integration
- **White Box Testing:** Executed comprehensive test plans for white box testing, including unit testing, integration testing, and system testing, to thoroughly validate software functionality and performance
- **Automated Testing:** Developed and maintained automated test scripts using Cypress for web applications, ensuring high test coverage and consistent, reliable test results

Mobile Tester

New York, NY

Nike

11/2018 - 07/2020

- **Project:** Successfully launched Nike's 'Stories' feature across mobile platforms, driving engagement to 300k daily views by ensuring flawless functionality and an exceptional user experience
- Pioneered the SNKRS Stories feature, leading to a 40% increase in user engagement and a 15% boost in app downloads
- Played a key role in the customer loyalty scheme by utilizing SQL to analyze engagement metrics and retention rates, driving strategic insights
- Conducted comprehensive usability testing for AR sneaker try-on experiences, providing critical feedback that enhanced the user interface and contributed to seamless, immersive app updates
- Collaborated closely with product managers, engineers, and design teams within an Agile environment, advocating for product reliability and continuous improvement
- Led the development and implementation of a CI/CD pipeline using Jenkins, improving deployment efficiency and reducing release cycle times by 35%
- Conducted rigorous regression and performance testing for POS systems, ensuring stability and reliability across all platforms

EXPERIENCE

QA Analyst

Apple

San Jose, CA

08/2018 - 10/2018

- Tested the iPhone X before its launch, ensuring seamless functionality and **performance** across key features and **mobile** interfaces
- Designed and executed comprehensive **test** cases to assess user experience, compatibility, and **performance** across diverse scenarios.
- Ensured **integration** of new features like Face ID and TrueDepth Camera met strict **performance** benchmarks before public release.

QA Analyst

CBS Streaming

Burbank, CA

11/2017 - 08/2018

- Led **testing** and validation of the download feature for **mobile** and tablet devices, ensuring reliable offline viewing functionality across platforms
- Collaborated closely with developers and product managers to identify and address compatibility issues, enhancing cross-platform reliability.
- Conducted **regression testing** to confirm that updates to the download feature maintained existing functionality across app versions.

QA Analyst

HBO

New York, NY

09/2015 - 10/2017

- Conducted **integration** tests on **mobile** streaming features to ensure seamless **performance** across backend **services**
- Documented and tracked issues related to streaming and playback, contributing to the **continuous improvement** of the platform.
- Conducted **regression testing** to ensure updates to backend **services** did not impact **mobile** streaming **performance**.

KEY ACHIEVEMENTS

Voice AI Optimization

Successfully led **testing** for Ray-Ban Smart Glasses Voice AI, improving accuracy by 20%.

Nike Stories Launch

Launched Nike's 'Stories' feature, achieving 300k daily views and boosting app downloads by 15%.

Disney-Hulu Integration

Reduced critical playback issues by 35%, increasing Disney-Hulu **test** coverage to 98%.

Optimized Ad Testing

Improved ad completion rates by 15% through new **testing** processes reducing errors by 25%.

EDUCATION

Associate Degree

New York City College of Technology New York

New York

01/2012 - 05/2013

SKILLS

A/B **Testing**, **Agile**, Android, Android Studio, **API**, **Appium**, **Automated** Testing, Charles Proxy, Chrome, CI/CD, Cucumber, Cypress, Debugging, Espresso, Firefox, Functional **Testing**, Git, **Integration** Testing, **ios**, Java, Javascript, Jenkins, Jira, Log **Analysis**, Manual **Testing**, **Mobile** Apps, OTT, **Performance** Testing, POS **Systems**, Postman, Proxy, Pytest, Python, Pytorch, React.js, Ruby, **Selenium**, **Selenium** Webdriver, Splunk, SQL
