WORK EXPERIENCE

Kolon Tissue Gene

Baltimore, MD

SAP Inventory Management Specialist

July 2024 – Present

- Oversee the configuration and implementation of **SAP Material Management (MM)** module to optimize stockroom operations, including material handling and order entry.
- Regularly configure and monitor **inventory** levels at vendor locations within **SAP**, ensuring **data** integrity and **compliance** with procurement protocols.
- Collaborate with R&D teams to configure workflows for lab **supply** replenishment, creating and tracking purchase orders in **SAP** for efficient material **management**.

- Conduct regular **inventory** audits and safety inspections, utilizing **SAP reporting** tools to configure reports that ensure **compliance** and organizational standards.
- Assist in developing and implementing budget controls for laboratory supplies and equipment, leveraging **SAP** for precise expenditure tracking and financial **reporting**.
- Coordinate and manage the **logistics** of local and international shipments of R&D materials, ensuring all processes are configured and documented within **SAP** systems.

Tata Consulting Services (TCS)
SAP MM Database Specialist

Baltimore, MD
 November 2023 – June 2024

- Responsible for material changes for all plants and regions/**sales** orgs.
- Proficient in **data** extracts and loads, specifically for material master and recipe/BOM.
- Expertise in managing master **data**, including creation, updates, and deletion.
- Skilled in performing complex **data** entry in **SAP** and other systems with a **high** level of speed and accuracy.
- Able to gather **data** from content owners and transfer it into a standard format for **SAP**-based ERP systems.
- Knowledgeable in business **data** standards, **policies**, and procedures, and ensures **compliance** and improvement through audits.

Emergent BioSolutions
Supply Chain Supervisor

Baltimore, MD
 March 2021 – November 2023

- Managed various projects related to **warehouse management**, including **project planning**, risk management, change **management**, and quality assurance, resulting in a 25% increase in productivity.
- Conducted business **analysis** to identify **process** improvement opportunities and implemented changes resulting in a 20% **reduction** in operational costs.
- Oversaw **inventory** accuracy through regular cycle counts and audits, providing routine **management** information on **inventory** performance, resulting in a 98% accuracy rate.
- Managed critical KPIs including IRA, on-time shipment in full, safety, etc., ensuring performance metrics were met or exceeded, resulting in a 98% performance rate.
- Utilized **SAP** for **warehouse management**, including **inventory** tracking, material handling, and order processing.
- Generated reports and analyzed **data** in **SAP** to identify trends, optimize **inventory** levels, and improve operational efficiency.
- Implemented **SAP** best practices for **warehouse** processes, resulting in streamlined operations and increased productivity.
- Collaborated with **cross-functional** teams to integrate **SAP** functionalities and improve overall **supply chain management**.
- Trained **warehouse** personnel on **SAP** usage and provided ongoing support for **SAP**-related issues.

United States Army – Maryland National Guard
Automated Logistic Specialist

Aberdeen, MD
 May 2018 – Present

- Established and maintained accurate records, including stock lists, **inventory**, material control, and other related documentation, ensuring **compliance** with organizational and **regulatory** requirements.
- Conducted regular **inventory** audits and cycle counts, ensuring **inventory** accuracy and timely resolution of any discrepancies, resulting in a 99% accuracy rate.
- Collaborated with units to ensure timely and accurate **supply** delivery and **management**, optimizing **supply chain** operations and reducing delivery times.
- Trained and mentored other soldiers, ensuring they were adequately trained and equipped to perform all job functions using **SAP/GCSS-ARMY**.

- Conducted business analysis to identify process improvement opportunities and implemented changes resulting in a 15% reduction in operational costs.
- Developed and implemented standard operating procedures for warehouse management using SAP as a primary tool, resulting in a 30% increase in efficiency.
- Provided ongoing training/retraining of employees to ensure that they were prepared to meet or exceed productivity standards using SAP as a key driver, resulting in improved employee performance and job satisfaction.
- Created, changed, and administered policies/procedures, ensuring compliance with all organizational and regulatory requirements, resulting in a 95% compliance rate.
- Oversaw Courier Company and ensured they met company handling standards, providing ongoing feedback and support to optimize performance and maintain a 95% on-time delivery rate.
- Utilized SAP for warehouse management, including inventory control, order processing, and shipment tracking.
- Generated reports and analyzed data in SAP to monitor inventory levels, track order fulfillment, and identify areas for improvement.
- Collaborated with cross-functional teams to integrate SAP functionalities and improve overall supply chain efficiency.
- Trained warehouse personnel on SAP usage and provided ongoing support for SAP-related issues.

VOLUNTEER EXPERIENCE
