[linkedin.com/in/simon-c-92514510](https://www.linkedin.com/in/simon-c-92514510)

OBJECTIVE:

Career growth opportunity in **SAP Functional** Consultant utilizing my strong **SAP MM/WM** and S/4HANA expertise.

QUALIFICATIONS:

- 25+ years of industrial and consulting experience with best practice supply chain processes in an automotive, chemical, food & beverages, consumer packaged goods, pharmaceutical, wholesale, semiconductor manufacturing, telecommunications, environmental, oil & gas, and retail industry.
- 25 years of hands-on **SAP** experience with all project stages including **business** development, project scoping, requirements definition, gap **analysis**, **business** process reengineering, issue resolution, configuration, custom code specifications, training, go-live assistance and post **implementation support**.
- Participant in 14 full life-cycle **SAP** implementations on **SAP R/3** through ECC 6.0 and exposure to S/4 **HANA**.
- Participant in 5 S/4HANA greenfield implementations (1709 through 2023) by using Agile Methodology.
- Advanced education and publication of three working papers concerning logistics and **inventory** optimization.

SKILLS:

Supply Chain Software	SAP Technology	O/S	WEB App & Language	Other
SAP (ERP, ATTP, EWM)	SAP IDoc/ALE	UNIX (AIX)	JavaScript/XML/C++/VB	DBMS (DB2, Oracle, HANA)
APS (MIMI, Manugistics)	SAP Solution Manager	Windows	Ariba, Fiori, Fieldglass	Middleware (PI/PO, MQ, TIBCO)
JD Edwards (PeopleSoft)	SAP LSMW	MVS	Winshuttle	QA (HP ALM , CATT)
TMS (ShipERP, PB)	EDI (Gentran)	Linux	SAP Portal, SAC	OR (CPLEX, XPRESS, OSL)
WMS (RedPrairie, PkMS)	S/4HANA	AS/400	Azure, Jira	Crystal Reports/ClearCase

CAREER HISTORY:

12/19 – Present **SCS Global, LLC [Richardson, TX]**

Principal SAP Consultant & Sr. Solution Architect, SAP Consulting Services

Client: Hunter Douglas [Broomfield, CO], PepsiCo [Plano, TX], Occidental Petroleum [Houston, TX], FMC Corporation [Philadelphia, PA], Accenture [New York, NY]

- Specializing in the **implementation** of **SAP S/4HANA MM/PP/LE/EWM**.
- Responsible for the MTS **Implementation** Project to migrate the 4PL warehouses in Mexico by using EDI **interfaces** with the cloud-based Navisphere TMS.
- Responsible for the **implementation** of **SAP S/4HANA 2021** with Agile Methodology in the PGT FLNA (Frito-Lay) Project.
- Localized PepsiCo PGT solutions to the 35 FLNA (Frito-Lay) manufacturing plants.
- Responsible for **SAP** Supply Chain **support** in the OASIS Project (Upstream process).
- Completed **SAP MM/WM/Ariba** configurations for the LAPC rollout project in S/4HANA 1909.
- Responsible for the **SAP MM/EWM** global **implementation** in the S/4HANA 1709 environment as a GPO (60 countries, 520 plants).
- Responsible for leading the **SAP S/4HANA data** migration including the **Data** Construction, **Data** Mapping and **Data** Transformation in the Project BPM.

Simon Chung

- Responsible for MTD **MM/EWM** Hypercare after R4 and R5 BPM Projects Go-Live.
- Responsible for **SAP MM** process **design** and configurations in the Project OASIS.
- Completed **SAP** MTD **MM/EWM** job aids and training for the super users.
- Complete integration **test**, **user** acceptance test, and regression **test** for the BPM Project.
- Designed and implemented additional functionalities in **inventory management**, **warehouse management**, stock transport orders and **production** execution.
- **SAP** project **management** including project proposals, timeline determination, project scheduling, task tracking, and risk **analysis**. Experienced with global delivery model including offshore development.

08/14 – 11/19

Neovia Logistics – previously Caterpillar Logistics [Irving, TX]

Sr. IT Architect, **SAP Service Delivery – Team Lead for Welbilt KC and BOBST**

Client: Welbilt KC [Jeffersonville, IN], BOBST [Indianapolis, IN], Ford of Mexico

[Mexico City, Mexico], Harley Davidson NA [Greenwood, IN], AutoZone Brazil

[Paulinia, BR], MCFA [Indianapolis, IN], Fisher [Cincinnati, OH]

- Specializing in the **implementation** of **SAP MM/WM/LE/EWM**.
- Responsible for supporting the **SAP** WM/LE including the shipping, stock **management**, RF technology and voice pick for the service part **management** in automotive industries.
- Responsible for **business analysis** & requirements gathering, research and interviews with end users, documentation, reading blueprints, testing, and modeling of **business** requirements translating **user** requirement into **functional** and technical specifications.
- Participated in the S/4HANA Migration Project and completed the Fiori configuration for the new client.
- Designed and implemented the customized **EWM** to the 3PL warehouses with ShipERP.
- Completed UPS WorldEase and TradeDirect project by using ShipERP for the Canada shipments.
- Completed configurations for the drop ship, stock transfer order, and pricing procedure.
- Completed **SAP** WM/LE configurations including delivery process, shipping point, route determination, **vendor** return, customer return, transportation planning and shipments.
- Completed integration **test** between **SAP** and conveyor system DEMATIC for the DC migration project.
- Designed and implemented **Vendor** EDI, Supersession, and CCAPS for Ford Company.
- **SAP** project **management** including project proposals, timeline determination, project scheduling, task tracking, and risk **analysis**. Experienced with global delivery model including offshore development.
- **Cross functional production support** for BOBST, Ford, Harley-Davidson, AutoZone, and Manitowoc accounts.

02/12 – 08/14

SCS Global, LLC [Richardson, TX]

Principal **SAP Consultant & Sr. Solution Architect, **SAP** Consulting Services**

Client: AbbVie Pharmaceutical [Chicago, IL], Cameron International [Houston, TX],

Computer Science Corporation [Houston, TX], Tyco Flow Control [Houston, TX]

- Specializing in the **implementation** of **SAP MM/WM/EWM**.
- Responsible for the **SAP MM/WM** localization of Irish plants and warehouses in the Project Foundation.
- Responsible for the **SAP MM/WM** global **implementation** (10 countries, 20 plants) and **master data** migration in the Project OneSubsea.
- Facilitated **SAP MM Business** Blueprint workshops for the direct procurement and indirect procurement, and developed **Business** Blueprint for the Localization Project of Global Template on S4/**HANA** environment.
- Completed **SAP MM** configurations for the localization of the global template including schema determination, CCSTO and POSO.

Simon Chung

- Completed **material master**, **vendor master**, **purchasing** info record, source list, and transactional **data** validations for the OneSubsea **data** conversion.
- Responsible for leading the **SAP WM implementation** including the barcode label development and Intermec RF handheld scanner installation for the Project Fusion.
- Facilitated **SAP MM/WM Business** Blueprint workshops and developed **Business** Blueprint.
- Developed **test** scenarios for the Acsis ProducTrak and Parcel Pack application.
- Designed and implemented logistics execution including **warehouse management**, shipment, and stock transport orders.
- **SAP** project **management** including project proposals, timeline determination, project scheduling, task tracking, and risk **analysis**. Experienced with global delivery model including offshore development.

08/10 – 01/12 Capgemini, LLC [Irving, TX]

Sr. **SAP** Consultant & Team Lead, **SAP** Technology Services **SAP** SC Service Line
Client: West-Ward Pharmaceutical [Cherry Hill, NJ], McKesson Corporation [San Francisco, CA], Lawson Products [Chicago, IL], CHG [San Antonio, TX]

- Specialized in implementing and supporting **SAP MM/WM/LE**.
- Responsible for leading PTP/WM team activities on **SAP Implementation** Project.
- Facilitated **SAP WM/IM Business** Blueprint workshops and completed **Business** Process Requirements documents for the Multi-Source Injectable (MSI) **business**.
- Completed Gap **analysis** and **Functional Design** documents for PTP/WM processes including DEA222 form and ARCOS report for the pharmaceutical company.
- Designed and implemented **inventory** processes including internal movements, goods receipt, goods issue, scrap and physical **inventory**.
- Designed and configured storage type search and storage section search for the picking and putaway strategies.
- Completed WM/IM **test** scripts and performed **functional** integration tests with Exacta and ADSI for Golden Gate Project.
- Presented **SAP** Leading Practice to the client's Executive team for the innovative solution.
- Facilitated Rapid **Business** Blueprint workshops for **SAP** PTP/WM processes with **SAP** CRESCENT/EDGE (All-in-One) solutions.
- Managed and mentored 5 FTEs including Rightshore resources to complete **Business** Blueprint phase successfully.

02/09 – 07/10 SCS Global, LLC [Richardson, TX]

Sr. **SAP** Solution Architect, **SAP** Consulting Services
Client: PepsiCo [Plano, TX]

- Specialized in the **implementation** of **SAP WM/LE/IM**.
- Responsible for leading the **implementation** of **SAP WM/IM** and IDoc **interfaces** with the Legacy **systems** including ADC, MAPICS, INQAS, MFI, **Test** Weights, and AVAIL.
- Developed **test** scripts with **Quality** Center and completed integration tests for R6.99 & SAPIT project.
- Set up **Inventory Management** Contol-M tables for the scheduled **SAP** batch jobs.
- Supporting TIBCO **interfaces** for **SAP Inventory Management** by using Common Logging and Exception Handling.
- Designed and implemented middleware mapping for the **inventory** status change interface between RedPrairie WMS and **SAP**.
- Maintained **SAP** Console Windows Server configuration and supported LXE RF scanner with Georgia Softworks UTS Session Administrator for **SAP** R6 NACO warehouses.
- Designed and implemented logistics execution including **warehouse management**, shipment, and stock transport orders.

Simon Chung

- Developed innovative solutions to solve PepsiCo's most complex **business** and technical issues, all while managing client relationships.
- **SAP** project **management** including project proposals, timeline determination, project scheduling, task tracking, and risk **analysis**. Experienced with global delivery model including offshore development.

08/06 – 01/09

Electronic Data Systems Corporation, a Hewlett-Packard Company

Sr. Information Specialist & Team Lead, US SAP Practice

Client: Sara Lee Corporation [Earth City, MO], Allegheny Energy [Greensburg, PA]

- Specialized in implementing **SAP MM/WM/PP** and IDoc **interfaces** with the Legacy **systems** including ManMan, Maximo, BPICS, Prism, PkMS, Dispatcher, IMREX, Infinium.
- Responsible for **business analysis**, requirements gathering, developing blueprints, designing processes, and translating **user** requirements into **functional** and technical specifications.
- Recognized for completing the complex **SAP** Enable project on time and received excellent evaluation from the client.
- Managed offshore employees to implement and **support SAP MM/WM**.
- Configured **purchasing** group, tolerance and **purchasing** value key.
- Configured **material master** including **material** types and **material** groups.
- Configured **warehouse management** settings including various storage types.
- Completed **SAP** Gelco **Vendor Master** Conversion project by using LSMW.
- Completed Materials **Master** Maintenance project by uploading an Excel spreadsheet.
- Completed LIS project to rebuild information structures for mc.9 report.
- Designed and configured the plant build, shipping point setup, output type creation, x-reference table setup, and batch **management** table setup for the Macon Mixing Center and the new frozen bakery **warehouse**.
- Designed and supported development of third party **warehouse** EDI interface, logistics **interfaces**, customized packing functionality, radio frequency (RF) integrated solution with InterMac.
- Configured Advanced Shipping Notification (ASN) process for the external customers.
- Completed feasibility check for the **SAP** ECC 6.0 Upgrade Project.
- Completed **test** scenario, script and performed the integration **test** for the EDI interface with the Manugistics TMS, APS, and the legacy **warehouse** system PkMS for the Sara Lee Enable project.
- Performed unit **test**, integration test, stress performance test, regression test, and **test** results **analysis** by using Mercury TestDirector and WinRunner for the Phase II project.
- Performed **SAP MM/WM functional** and technical customer supports including root cause **analysis** and **debugging**.

04/06 - 08/06

Samsung Data Systems America, Inc.

Sr. Manager, Supply Chain Implementation & Support

Client: Samsung Telecommunications America [Richardson, TX]

- Specialized in designing and implementing **inventory management**, logistics execution, supplier collaboration, and supply chain **management** solution architectures.
- Managed team of 20 FTEs to develop and implement the Supply Chain and Demand **Management** system.
- Designed and configured **Vendor** Managed **Inventory** (VMI) for the CPFR project.
- Configured partner profiles in **SAP** and set up EDI **interfaces** for T-Mobile and Cingular.
- Completed **test** scenario, script and performed the integration **test** for the Supply Chain Collaboration project.

Simon Chung

- Managed ITSM project to complete **functional** and technical specifications in the area of **SAP MM** and WM.
- **Production support** for Samsung Telecommunications America with SDS **SAP** Team.

10/05 - 04/06

SAP America, Inc.

Sr. **SAP Support** Consultant and Team Lead, Active Global **Support**

Clients: **Smith & Nephew, Inc.** [Memphis, TN], **Entergy Corporation** [New Orleans, LA], **Morris Communications Corporation** [Augusta, GA], **Kraft Foods, Inc.** [Glenview, IL], **OSRAM Sylvania Products, Inc.** [Danvers, MA]

- Specialized in **quality assurance**, safeguarding, solution manager, and service delivery.
- Performed detailed study and **analysis** of **business** processes for re-aligning the existing processes as per **SAP MM** functionality, utilizing **SAP** standard practices and ASAP methodology.
- Analyzed the **business** processes and recommended the **functional design** of **SAP MM/WM** projects for the various clients.
- Performed a feasibility check for the blueprint of **SAP MM** and WM **implementation** in orthopedics industry.
- Performed technical integration check and solution **management** assessment.
- Completed Early Watch and Go Live **Analysis** sessions for **SAP** performance optimization.

03/05 - 09/05

Electronic Data Systems Corporation - Superior Technical Resources, Inc.

Platinum **SAP** Consultant, **Management** Consulting Services

Clients: **Safety-Kleen** [Plano, TX], **StorageTek** [Louisville, CO]

- Specialized in designing and implementing **SAP MM** and WM.
- Carried out gap **analysis** and produced **business** blueprint documents that fulfilled the requirements including **reporting**, interface, conversion, enhancement and authorization.
- Designed and implemented **warehouse management**, **inventory** management, **purchasing** and waste **management**.
- Implemented handling unit, shipping, RF with SAPConsole, complex placement and putaway strategies.
- Completed **functional** and technical specifications in the area of **SAP MM** and WM.
- Performed unit **test**, integration test, stress performance test, regression test, and **test** results **analysis** for the Phase II and upgrade project.
- Designed and developed RCRIS and MOEE database integration by using SeeBeyond.
- Completed **data** conversion from legacy system CWT to **SAP** by using LSMW.
- Performed Work Product Review (WPR) for the Safety-Kleen Phase II Project.
- Performed **SAP MM/WM functional** and technical customer supports including root cause **analysis** and **debugging**.

09/01 - 02/05

ATS LLC

Sr. **SAP** Consultant & Solution Architect, **Management** Consulting Services

Clients: **Inverness Medical Inc.** [Freehold, NJ], **BlockBuster Inc.** [McKinney, TX], **Miller Brewing Company** [Milwaukee, WI], **Keane Consulting** [Milwaukee, WI]

- Specialized in **implementation** of **SAP MM** and WM solution architectures.
- **SAP R/3** project **management** including project scheduling and task tracking.
- Interacted with client/users for **analysis** and review of requirements for **SAP** enhancements and development of additional functionality.
- Completed a WMS assessment and designed Advanced WMS architecture to optimize the **warehouse** processes.

Simon Chung

- Application enhancements and on-call support for the WMS and yard management system (YMS) by using ViaWare, JD Edwards, TESS, ClearCase, Clippership, FreightLogic, Vitria, Oracle, TOAD, Crystal Reports, SpyView, Tivoli, PkMS and AS/400.
- Designed and supported Intermec handhelds and RF infrastructure.
- Integrated warehouse consolidation system (WCS) with ViaWare WMS by using MQ.
- Designed and integrated the transportation management system with the Clippership.
- Developed a plant level Keg Order & Delivery System.
- Performed integration test, stress performance test, regression test, and test results analysis by using Mercury WinRunner, TestDirector, and LoadRunner (HP Quality Center).
- Documentation and training of key users and end users.
- Managed cutover tasks and supported go-live for the new warehouses.

02/01 - 08/01

IBM Corporation

Sr. Consultant, IBM Global Services

Client: Allegheny Ludlum Corporation [Brackenridge, PA], Chevron-Phillips Chemical Company [Houston, TX]

- Specialized in supply chain technology integration with SAP in the oil and gas industries.
- Identified opportunities and delivered supply chain project proposals to the clients.
- Involved actively in analyzing and designing the business processes for materials management and warehouse management.
- Designed the system architecture of SAP integration with the ALE, IDoc, XML, MQSeries, MQSI and DB2 interface for Chevron-Phillips Supply Chain Integration project.
- Completed the assessment of business process to support supply chain initiatives for Allegheny Ludlum SAP project.

12/00 - 02/01

PricewaterhouseCoopers LLP – currently IBM Global Business Services [Dallas, TX]

Sr. Consultant & Team Lead, Management Consulting Services

- Specialized in implementing supply chain management tools and SAP MM/PP/WM.
- Configured inventory management processes including goods receipt, production receipt and stock transport order.
- Analyzed gap between the legacy system and new implementation of SAP.
- Customized and configured warehouse structure and warehouse movements.
- Developed and configured SAP MM/WM across multiple client/server systems and at the same time interfaced R/3 with Non-SAP system. Application Link Enabling (ALE) and Remote Function Call (RFC) protocol had been utilized for the implementation.

02/99 - 12/00

IBM Corporation - InfoSystems, Inc.

Sr. Consultant & Team Lead, Supply Chain Optimization

Client: IBM Microelectronics [Essex Junction, VT]

- Specialized in developing supply chain optimization tools, SAP IM/PP implementation, and Master Data configuration.
- Designed and implemented inventory processes including internal movements, goods receipt, goods issue, scrap and physical inventory.
- Carried out gap analysis and produced business blueprint documents that fulfilled the requirements including reporting, interface, conversion, enhancement and authorization.
- Developed and enhanced IMD PROFIT, a suite of integrated advanced planning systems used for inventory management, production planning and scheduling, supply planning, demand planning, WIP projection, order committing, and supply chain optimization in semiconductor industry.
- Software development support for Total Order Management (TOM) project at IMD headquarters. Achieved 80M reduction in inventory.

Simon Chung

06/98 - 11/98

USDATA Corporation – currently SIEMENS [Richardson, TX]

Sr. Software Engineer & Project Manager

- Designed and implemented SAP MM/PP for Amkor Technology in Philippine.
- Developed a GEM Compliance Test for semiconductor equipment and it was added to the new version of FactoryLink ECS software to increase vertical market value.
- Developed a Real-time Cell Controller for electronic assembly by using SECS and TCP/IP protocol.
- Developed a graphic user interface of VFEI Communication program for Kulicke & Soffa Factory Automation Project.
- Designed and developed a Manufacturing Execution System (MES) for World EXPO.

12/97 - 06/98

Datatronic Control, Inc. [Rowlett, TX]

Industrial and Project Manager

- Determined parts and manufacturing requirements using MRP. Prepared material requisitions, production orders, process specifications and instructions. Performed production analysis and achieved 15% reduction in total cost.
- Designed and developed a shop level control system for electronic display manufacturing and performed simulation. Significantly improved shop utilization and reduced manufacturing cycle time.
- Performed standard work measurement using MTM-1 to evaluate labor standards. Improved work method and increased productivity.
- Developed communications software to control advertising display on electronic billboards.

EDUCATION:

Completed Ph. D program in Industrial Engineering (Minor: CS, ND) from Texas A&M University.

M.S. - Industrial Engineering. The University of Texas at Arlington.

B.S. - Industrial Engineering. Soongsil University, Seoul, Korea.

CERTIFICATES:

Six Sigma, CPIM, Certified SAP Consultant, Certified MIMI Consultant, Certified Quality Engineer, MTM-1 Certification, Certified FactoryLink Integrator, Certified Xfactory Integrator.

PROFESSIONAL AFFILIATIONS:

APICS, IIE, IEEE
