EXPERIENCE

FedEx Corp.

Senior Product Manager + Product/UX/BA Team Lead, Logistics

08/2023 - 05/2024

- Led Discovery sessions (**Product** Reqs, UX, BA/BSA/BPA) working hundreds of hours directly with **business** stakeholders and SMEs.
- Owned **Product** Vision and Roadmap and Managed Backlog for 3 Scrum Teams. Coordinated with other teams on ART.
- Prioritized requirements, negotiated scope, wrote epics, features, and **user** stories, documented non-**functional** requirements around internationalization and configurability, managed backlog, led refinement sessions. Jira, Confluence.
- Analyzed and modeled complex logic, state **management**, escalation workflows with Kogito (prototypes with Camunda).

Results: Reduced manual review volumes by up to 95%. Led prototype of AI regulatory reviews with Databricks + MuralIML

AgilePoint at Walmart

Senior Product Manager + Product Marketing Manager, AI + Smart Logistics / Supply Chain Optimization

09/2022 - 08/2023

- Led **Product** at AgilePoint in 2009 as we transitioned from BPM Platform to early LCNC / model-based app composition Platform.
- Was asked to come back to lead extensions of AgilePoint NX for AI / ML.
- Co-designed features with Walmart around end-to-end logistics optimization use cases between China and the US.
- Led addition of graph **database** and vector **database** support.

Results: 1st model-driven platform to cleanly separate AI / ML from **business** logic. (3 layers: AI, **business**, **programming**). Walmart was able to increase logistics responsiveness and add end-to-end AI auditability + governance.

Guidewire Software, Inc. (#1 SaaS Software for P&C Insurance)

Senior Product Manager, AI and Simulation

06/2021 - 09/2022

- Managed IoT and AI solutions for P&C Insurance including Fire **Modeling** and Marketplace Recommendation **Engines**.
- Created **customer** co-**design** and early adopter programs, worked with customers to gather requirements, led **customer** research, **business** **analysis**, financial analysis, and **data** analysis, prioritization, ART and PI planning, held ultimate responsibility for **customer** journey maps and **product** roadmaps, mentored and trained for creating good acceptance criteria + UAT.

Results: 29.2% increase in app downloads and a 3.7% increase in **customer** / PaaS subscriber retention.

Smartest Systems at Ocean Alliance (Largest Shipping Alliance with 3.8m TEUs)

Senior Product Manager, Smart Freight + Logistics

02/2018 - 05/2021

- Portfolio of port operations, ship loading/unloading, supply chain + logistics optimization, wearable, edge device, AI, and ML products in partnership with Navis MACS3 + GullsEye

Results: 17% reduction in container ship fuel consumption due to faster turns at port. Huge reduction in SOx and NOx emissions.

General Electric (GE)

Senior Product Manager

Partner Solutions - AI, IoT / IIoT, and Smart Last-Mile Delivery, Smart Logistics, Smart Warehouses, Smart Retail

01/2015 - 01/2018

+ Won 6 “Above and Beyond” Awards.

- Crafted portfolio of AI + IoT solutions with over 200 individual partner products bundled into 32 industry-specific IIoT solutions that included advanced analytics, wearables, AR/VR, edge devices, sensors, tracking devices, telematics, machine vision, AI, ML.
- Created lean & agile innovation pipeline designing and delivering MVPs of IoT / IIoT solutions with partners in as little as 30 days.
- Smart Last-Mile Delivery: Singapore, San Diego, and Walmart.
- Smart Logistics/Freight: J.B. Hunt, Walmart, USPS, Gaviion with Marubeni, Ports of L.A. and Long Beach.
- Smart Retail Solutions: Walmart.
- Smart Construction: Vinci, Bouygues with Altran.
- Smart City: Tianjin, Dubai.
- Smart Manufacturing Solutions with NEC.

Results: Because new cyber-physical IoT solutions were co-designed with visionary early-adopter customers and co-developed with co-selling partners, we had company records for win rate (88%), average deal size (\$24.3MM), and average sales cycle (4.4 months).

General Electric (GE)

Senior Product Manager, Supply Chain Optimization and Smart Manufacturing

09/2012 – 01/2015

- Delivered Factory Optimization Pilots to factory floors in less than 6 weeks. Directly managed 3 teams + 12 teams “by influence.”
- Smart Field Services: Hydro-Québec (see an early prototype here: <https://www.youtube.com/watch?v=inPYlvWGASo>) and FPL
- Co-designed AI / ML ensemble management and dynamic simulation model generation technologies to allow unprecedented speed in the development and deployment of expert systems and advanced predictive analytics + decision support solutions.
- Designed and led rapid prototyping sessions and hackathons. Created and facilitated design thinking / systems thinking sessions.

Results: Achieved an average 18.22% productivity gain for first 5 GE-internal “Brilliant Factory” solutions.

eBay

Senior Product Manager, Global Logistics + Cross-Border Trade

07/2011 – 08/2012

- Led cross-functional design of high-value AI listing portfolio management tools & methodologies, refined them with teams across the company, and proved them through a pilot.
- Designed game-based training for Product Managers which received highest feedback scores for new training sessions.
- Portfolio Strategy, Product Management and Data Analysis to support Logistics & Cross-Border Trade Optimization) and core Selling Platform and Listing Tools supporting verticals (Motors, Electronics, Fashion).

Results: Pilot on 0.3% of portfolio resulted in \$50+ million in gross revenue, indicating a multi-billion-dollar annual opportunity!
