

SENIOR MANAGER/CERTIFIED SCRUM MASTER

MASTER DATA LEADERSHIP • SAP IMPLEMENTATION • SUPPLY CHAIN MANAGEMENT

DATA STANDARDS GOVERNANCE • TEAM DEVELOPMENT • KPI ANALYSIS • AGILE

SAP Data Manager and Certified Scrum Master with full lifecycle implementation experience including S/4 HANA seeking next exciting challenge in data management, system implementation or project management. Proven track record for driving efficiency and compliance in global pharmaceutical environments. Expertise in leading and developing data teams, streamlining processes and optimizing Supply Chain logistics. Recognized for designing electronic routing systems and agile methodologies to foster operational excellence. Skilled in stakeholder management, process leadership and system implementations. Experienced in managing offshore technical resources. Dedicated to driving organizational success through implementation of strategic initiatives and collaborative problem solving. Expert liaison between IT and business teams.

CORE STRENGTHS

- Master Data Management
- Global Process Ownership
- Data Migration
- Operational Efficiency
- SAP Implementation and Configuration
- Process Management & Leadership
- Process Management
- Electronic Routing & Approval Systems
- Supply Chain Optimization
- Stakeholder Management
- Quality Management Systems
- Agile /Scrum Methodology

CAREER HIGHLIGHTS

- Successfully led global Master Data teams across 3 prominent pharmaceutical companies driving significant improvements in data accuracy, operational efficiency and compliance.
- Implemented electronic routing and approval systems for Master Data requests eliminating paper-based processes and enhancing compliance across manufacturing sites resulting in streamlined operations and reduced administrative burden.

- Managed key projects such as Engineering Change Notification (ECN) Implementation, Stock Transport Order (STO), Extended Warehouse Management (EWM) and TraceLink Serialization implementation demonstrating strong leadership and project management skills.
- Proactively initiated projects to review and update workflows, develop templates for offshore resources and establish data governance processes showcasing a commitment to continuous improvement.
- Greenfield SAP Implementation at Horizon Pharmaceuticals charged with all data conversion/loads.
- MDGM Implementation at Fresenius Kabi to include business requirements gathering and configuration.

RECENT WORK EXPERIENCES

BRIDGEBIO – PALO ALTO CA (REMOTE - CONTRACTOR)

SUPPLY CHAIN BUSINESS PARTNER (OCT 2024 – PRESENT)

- Manage SAP business tickets for new functionality and enhancements in OTC and P2P modules.
- Partner with Supply Chain to deliver system solutions to support new commercial product launch.
- Manage GxP Change Control process for Supply Chain systems

EMERGENT BIOSOLUTIONS – GAITHERSBURG, MD (REMOTE)

APR 2019 – JULY 2024

SENIOR MANAGER MASTER DATA, GLOBAL PROCESS OWNER (Mar 2021 – June 2024)

MANAGER MASTER DATA (Apr 2019 – Feb 2021)

- Managed a team of 5 Data Stewards responsible for processing BOM and Recipes, Material, Vendor and Customer Master data supporting 7 manufacturing plants globally. Centralized and improved data accuracy and operational efficiency.
- Implemented an electronic routing and approval system for Master Data requests using Veeva Vault. Project eliminated wet signatures and paper copies streamlining processes and enhancing compliance across all manufacturing sites.

- Managed ECN Implementation ensuring global consistency by matching **SAP** BOM with Batch Production Record in the Electronic Quality **Management** System across all manufacturing facilities.
- Core team member for Stock Transport Order configuration and **EWM** implementation facilitating seamless transfer of **goods** between the **distribution** hub and 3 production plants.
- Directed the review and governance of IT/**Supply Chain** tickets conducting weekly meetings with ERP Analysts to drive efficiency, foster **collaboration** and develop robust technical solutions.
- Led **project** to implement a global PO template reducing the number of PO Smart Forms from 33 to a single global template enhancing interface integration with core SE16 financial tables and streamlining procurement processes.
- Managed the approval **process** for GRC access requests globally ensuring secure and appropriate access for users. Led the **SAP** security redesign **project** to align job positions with defined **SAP** roles
- improving security and **compliance**.
- Established a Shared Service Center for SQVI report writing. Trained team on SQVI and partnered with IT to validate and launch reports to SQ01 secured folders enhancing **reporting** capabilities and **data** accessibility.
- Coordinated the publication of Global **Data** Standards Document managing a **cross-functional** team of business stakeholders to ensure alignment, consistency and adherence to governance best practices.
- Led the **data** integration of European acquisition targets successfully migrating Traveler's Vaccine and Narcan portfolio Master **Data** to **SAP** including a 3PL interface in North America.
- Developed global security roles in **SAP** to support centralized Master **Data**. Facilitated **cross-functional** meetings for alignment, approval and testing. Managed Winshuttle script creation and approval **process** for business team use.

HORIZON PHARMA – LAKE FOREST, IL

NOV 2015 – APR 2019

MANAGER – MASTER **DATA AND **SUPPLY CHAIN** SYSTEMS (Nov 2018 – Apr 2019)**

MASTER **DATA MANAGER – FINANCIAL SYSTEMS AND CONTROLS (Nov 2015 – Oct 2018)**

- Managed **SAP MM** and SD ticket resolution including information gathering, solutioning and deployment ensuring seamless system operations and user satisfaction.
- Oversaw offshore resources within the ERP team utilizing Agile methodology for efficient **management** of enhancements and defect resolution optimizing **project** timelines and outcomes.
- Spearheaded the gathering of business requirements, documentation and deployment **management** across test and production environments streamlining **project** execution and ensuring alignment with business needs.
- Designed and implemented solutions for the PO approval **process** and pricing changes addressing security role defects and centralizing control within the IT Master **Data** team. Projects improved **process** efficiency and ensured SOX **compliance**.
- Coordinated **cross-functional** approvals for new product flows and STO lanes ensuring configurations met business requirements and enhancing operational agility.
- Initiated a **project** to review and update workflows and job aids ensuring documentation accuracy and relevance. Developed templates for offshore resources to streamline configuration deployments enhancing consistency and efficiency.
- Core member of TraceLink implementation and **management** of GS1 **Data** and synchronization between serialization platform, 3PL and **SAP**.
- Managed **data** cleansing and loading from legacy systems to **SAP**. Participated in testing, defect resolution and post-go-live issue **management** and implemented **data** governance processes enhancing **data** integrity and **regulatory compliance**.
