CAREER HIGHLIGHTS

IT Project Manager | Labcorp, Oak Creek, WI | 05/2023-present

- ♦ Led complex initiatives, including Laboratory Information System (LIS) conversions, system implementations, and integrations with commercial labs and patient service centers.
- ♦ Drove successful project execution by balancing technical expertise, leadership, and strategic planning.
- ♦ Facilitated process improvements, establish governance structures, and addressed challenges like unclear decision-making and lack of visibility.
- ♦ Coordinating cross-functional teams, defining roles and responsibilities, and creating project documentation, such as scope statements, requirements documents, and tracking tools.
- ♦ Mentored and trained team members, emphasizing stakeholder communication and team norms to enhance collaboration and project outcomes.
- ♦ Ensured the project moved forward on schedule and under budget.
- ♦ Developed positive business relationships with all parties throughout each project phase.

Project Manager | MEDHOST, Franklin TN | 08/2021-04/2023

- ♦ Project Manager responsible for clinical product implementations and upgrades for new and existing customers for including Pharmacy, Surgery, Anesthesia, Mobility Physician, Inpatient Nursing, ED, and Laboratory applications.
- ♦ Provided support to agile/scrum product development project teams, clients, and leadership by monitoring the implementation of project plans.
- ♦ Participated in regular day-to-day communication with other EHR project teams and work with vendors as well as Product Owners to ensure the application workflow build will fit the organizations integration needs.
- ♦ Maintained the scope management plan and conducted financial analysis highlighting the impact of scope changes to the project.
- ♦ Executed, monitored, and controlled project work plans, risks, and issues.
- ♦ Managed other assigned projects including other EHR and 17 ancillary systems.

- ♦ Developed **Budget** Reduction plan resulting in 17% **budget** reduction.

Cerner Project Manager | Northside Hospital, Atlanta, GA | 06/2019-08/2021

- ♦ Successfully managed the end-to-end implementation of Cerner's CareAware Device Integration solution across **healthcare** systems, ensuring seamless device connectivity and streamlined workflows.
- ♦ Led technical assessments and walkthroughs to evaluate device **infrastructure**, clinical network configurations, and patient room setups, ensuring readiness for integration.
- ♦ Facilitated key milestones such as System Review, Design Review, Connectivity Testing, and System **Validation**, coordinating cross-functional teams (biomedical, **IT**, nursing, and clinical applications).
- ♦ Partnered with client **leadership** to drive compliance with **project** timelines, develop action plans for outstanding issues, and ensure a successful production go-live of licensed CareAware solutions.
- ♦ Built strong working relationships with teams and key stakeholders.
- ♦ Demonstrated understanding of clinical workflows, required clinical documentation, and state, **government**, and facility regulations and **policies**.
- ♦ Delivered on-site and remote **training** to client teams, focusing on configuring CareAware devices (CEs/DAs), Olympus (HUD), and SI_ **Manager** systems. Provided hands-on troubleshooting expertise and built data **validation** workflows.

IT Project Manager | WellStar, Atlanta, GA | 06/2018- 06/2019

- ♦ Led the implementation and integration of third-party applications with Epic.
- ♦ Managed multiple Health Information Technology (HIT) projects including hardware, **software**, applications **development**, and network **infrastructure**.
- ♦ Developed, managed, and monitored **project** schedules and
- ♦ Conducted **project** kick-off meeting with stakeholders.
- ♦ Ensured coordination and **communication** between various departments and Surescripts
- ♦ Maintained the **scope**, schedule, and **quality** of the **project** in their specific application areas.

- ♦ Set clear expectations for team members and provided regular day to day **planning** and organizing the work.

Cerner **Project Manager** | Medstar Health, Washington DC | 12/2016- 06/2018

- ♦ Led the conversion of Cerner Pathnet (LIS) from legacy system Orchard Harvest, ensuring a seamless integration with existing EHR systems and laboratory equipment
- ♦ Identified and managed issues and risks, assuring appropriate escalation and mitigation strategies are documented.
- ♦ Responsible for ensuring unit, integration, and **quality assurance** testing is performed for the entire **project** life cycle.
- ♦ Coordinated lab instrument validations and interface build, working closely with vendor engagement leaders, technical teams, and **IT project** leads.
- ♦ Worked with cross-functionally teams to understand **project scope** and coordinate timelines.
- ♦ Assure proper **reporting** of **project** status to stakeholders and **PMO** Directors.
- ♦ Provided hands-on **training** to end-users, including laboratory personnel and clinicians, on Cerner functionality and features.
- ♦ Improved lab turnaround time by 15% through optimized workflows and system automation.

Cerner **Project Manager** | Adventist Health, Roseville, CA | 07/2016-12/2016

- ♦ Led the implementation of Cerner Millennium in various specialty clinics.
- ♦ Built the **project** schedule and work breakdown structure (WBS) with **project** team and vendor participation.
- ♦ Prepare reports for **senior management** for **project** status.
- ♦ Manage the **project** lifecycle for all integration efforts, including scoping, timeline creation, **risk** assessment, and **resource** allocation. Conveyed technical information to technical and non-technical audiences.
- ♦ Preparing detailed and accurate status reports and manages **IT project** roadmap
- ♦ Responsible for hiring and **training IT** staff.

- ♦ Tracked client-specific product deliverables, reinforcing the **scope** of work outlined in the contract.
- ♦ Coordinated testing activities for unit, system, and integration testing for all workstreams.

Integration **Project Manager** | University of Illinois, Chicago, IL | 07/2014-07/2016

- ♦ Led the **planning**, design, and execution of interface and integration solutions to **support** data exchange between Cerner and external systems.
- ♦ Collaborated with stakeholders on **IT**, clinical, and vendor teams to ensure the successful deployment of interfaces for **scheduling**, electronic health records, billing, and laboratory systems.
- ♦ Coordinated the **development**, testing, and deployment of interfaces using HL7.
- ♦ Demonstrated excellent customer service, **leadership**, **communication**, problem solving and decision-making **skills**.
- ♦ Served as primary liaison between client teams, Cerner, and third-party vendors to define interface requirements and integration strategies.
- ♦ Led interface build for interfaces from clinics on Epic to the lab.
- ♦ Worked closely the Epic team and client to assess, plan, and execute work.

Clinical **Project Manager** | University of Kentucky, Louisville, KY | 04/2013 -07/2014

- ♦ Managed complex EHR projects and ensured alignment with client expectations and **business** needs
- ♦ Allocated resources as needed to drive **business** deliverables.
- ♦ Organized **project** and program activities that require interdepartmental meetings and **communication**.
- ♦ Ensured completion of the program on schedule and within **budget** constraints.
- ♦ Planned **migration** of existing data into from paper to electronic format.
- ♦ Ensured appropriate resources were allocated and maintained to facilitate the successful completion of the **project**.
- ♦ Established a realistic timetable for achieving objectives.
- ♦ Coordinated priorities utilizing critical thinking and complex problem solving.

- ♦ Communicated **project scope**, goals, and responsibilities to **project** teams.
- ♦ Established clear stakeholder expectations and requirements.
- ♦ Used and updated existing **project** tools and templates to ensure consistency across projects.

Cerner Analyst/Trainer |Community Health Systems (multiples locations) | 08/2010 -04/2013

- ♦ Responsible for **training**, maintenance, and **support** of Cerner PowerChart Ambulatory conversion for CHS **Healthcare** system.
- ♦ Responsible for **project management** over all EMR related new implementation and upgrade projects.
- ♦ Builds application changes in Test, work with user to complete testing, and move to production according to the client's **change control process**.
- ♦ Analyzes service requests, and make recommendations related to best practices, within Cerner Physician Track.
- ♦ Builds and maintains Millennium: PowerChart, Orders, PowerPlans, and Dynamic Documentation, and MPages.
- ♦ Follows client's documented Demand **Management process** to obtain approval for changes.
- ♦ Performed script, system, and integration testing.
- ♦ Participates in design/workflow meetings.
- ♦ Participates in the day-to-day tracking and follow-up on issues and questions of daily operations.
- ♦ Utilizes the ticket **management** system to track issue status.
- ♦ Provides real time **support** to End Users during Go-Live of Cerner PowerChart.
