Global professional with a track record in organizations across the Americas, Europe, and Asia Pacific. 15+ years of IT Consultant **experience** encompassing Sales, Pre-Sales, Post-Sales, Deployments, Implementations, Execution and **Delivery**, **Customer** Support, Solution **Design**, **Architecture**, System Integrations, and **Training**, among other **customer**-centric roles. 10+ years as a **Senior** IT Consultant in Enterprise **Search** Technologies. Enthusiastic about networking, **continuous learning**, tackling new challenges, and offering practical solutions. Exceptional organizational and leadership abilities, proficient in both team and independent work.

## Experience

### Sr. Search Engine Solutions Architect - Coveo AI-Search

Bain & Company Boston, Massachusetts

July 2020 – current

- Functioned as the central point of contact, bridging Bain Corporation with **Coveo** departments, including account managers, **customer** success managers, and **engineering** and support teams.
- Set up and administered various **Coveo** environments, including development, unit acceptance testing (UAT), pre-production (**QA**), and production.
- Configured and managed query pipeline components, including synonyms, stop-words, ranking expressions, custom parameters, and ranking weight for the standard metadata fields.
- Implemented various **Coveo** native **machine learning** tools to enhance **search** personalization and improve result relevance,
- Created multiple **Python** scripts for Indexing pipeline extensions to enrich content metadata during indexing.
- Assisted in configuring content source connections, encompassing MSSQL, SharePoint, **web** content, Optimizely, and local files.
- Created **user**-friendly and efficient **search** interfaces by leveraging **Coveo** components.
- Continuously observed indexing and **search** performance to prevent unexpected delays in delivering results to users.
- Optimize and uphold **Coveo search** solutions to ensure peak performance, relevance, and **user** satisfaction.
- Conducted routine online sessions with users to efficiently address and resolve **search**-related issues.
- Supervised the frontend **search interface** to verify the accuracy of information sent to the **Coveo analytics** engine.
- Provided **training** and support to users across diverse domains within Bain Corporation worldwide.
- Contributed to integrating the ontology and taxonomy tool PoolParty into the content indexing workflow, enhancing content with relevant **business** domain metadata.

### Senior Search Engine Solutions Architect - Solr/Lucene

Chewy.com Boston, Massachusetts

Nov 2018 – July 2020

- Built, optimized, and supported **Solr** environments
- Designed and Implemented **Solr** index solutions
- Worked with **business** leads to ensure **search** designs and implementations met **business** requirements
- Troubleshoot and debugged **solr** content **processing** jobs
- Designed and implemented custom query requests to comply with **product** requirement specifications
- Indexing and Querying analyzers
- **Data** Import Handlers
- Documentation and **training**
- Performance and tuning

### Senior IT Delivery Implementation Consultant

Aderant Holdings, Inc. Atlanta, GA

Sept 2016 – Oct 2018

- Handshake **Software** for SharePoint Enterprise **Search** implementation and support
- Content **integration** into SharePoint 2013/16/360 Enterprise **Search** platforms
- Worked with several Law firm clients, integrating sensitive security law content with SharePoint Enterprise **search** tools
- Pre-sales, **Delivery**, Implementation, and Post-sales support, custom demos and proof of concepts,

- requirements gathering, statement of work creation
- Leveraged **customer search** functionalities (**Search** Engine tuning and performance, Custom and Standard **Search interface**)
- Documentation and **training**
- Performance and tuning

### **Senior Delivery Implementation Consultant**

**Smartlogic Semaphore Ltd London, UK**

**October 2013 – August 2016**

- IT Professional **Services** - **Customer**-driven position
- Worked with clients in healthcare, biotech, finance, high-tech, and government, including AbbVie, Providence Healthcare, Celgene, Monsanto, State Farm, All State, KPMG Financial, Intel, Merck, **Best** Buy, MITRE, McKesson, US DOJ, Franklyn Templeton, NERA, Caterpillar, IMF, AMAT, Accenture, SEC among many others.
- Pre-sales, **Delivery**, Implementation, and Post-sales support, custom demos and proof of concepts, requirements gathering, statement of work creation
- Provided pre and post-sales **services**, including **business analysis** and bid support, to identify **customer** technical requirements relating to technical and commercial solutions.
- Developed and conducted online webinars to demonstrate **software** capabilities. Served in an additional role as technical advisor to clients, leveraging thorough knowledge of company and competitor **software**.
- Worked diligently with existing clients to ensure the **software** is **functional**, updated, and supported.
- Tracked customers and prospects in the CRM system, including records of all contacts.
- Built strong relationships with executive and **senior management** customers.
- Performed **consulting** work to enhance **search** and content **management** systems. System and Content **Integration Analysis**
- Coordinated and provided **training** to customers and partners, remotely or on-site
- SAAS solutions: **design**, migration, implementation, support
- Custom **Training**, Custom Documentation, Technical Support, Implementation Strategies
