

ABOUT NORMAN KATZ

After graduating from university in 1985, Norman had a progressive 11-year career – with roles ranging from Programmer to Analyst Information Technology Manager – while working for small to large companies, including well-known **consumer** product brands. Norman branched out on his own as an independent **consultant** in January 1996 as Katzscan Inc. (www.katzscan.com)

TECHNICAL & OPERATIONS SKILLS

- ✓ Technical and **functional** expert in:
 - ERP – Enterprise Resource **Planning** (20+ projects since 1993)
 - EDI – Electronic **Data** Interchange (20+ projects since 1993)
 - Barcode labeling and scanning (since 1991)
- ✓ Expert in: Excel, Word, PowerPoint, Access
- ✓ **Supply Chain**
- ✓ Vendor **Compliance** (notably: **retail** and grocery for **CPG** companies)
- ✓ Chargeback (financial penalties) mitigation and **reduction**
- ✓ B2B-B2C-D2C business models
- ✓ **Data Analysis**
- ✓ Operations Improvement

BUSINESS SKILLS

- ✓ Experience across industries with a range of knowledge
- ✓ **Functional** and technical software expert
- ✓ Strategic visionary and tactical implementor
- ✓ **Process** oriented, results focused
- ✓ Educated, trained, credentialed
- ✓ Guided by ethics above all else

SOFT SKILLS

- ✓ Extrovert personality
- ✓ Intense listener, thoughtful thinker
- ✓ **Problem** solver: short-term fixes and long-term solutions
- ✓ Able to acclimate to new software rapidly
- ✓ Able to adapt to new situations quickly
- ✓ **Project Leadership**; team player; independent go-getter; collaborative mentor
- ✓ Relationship champion: resolving conflicts and forging stronger internal and external partnerships

COMMUNICATION SKILLS

- ✓ US national and international author, speaker, writer
- ✓ Able to easily converse with all levels of organization staff
- ✓ Brings a subjective perspective to objective issues and **data**
- ✓ Spontaneous humor; creative idea developer
- ✓ Remote-ready: dedicated home office; experience with Teams, Zoom, **Jira**, *more*.

SOFTWARE SOLUTIONS ARCHITECT | DOCUMENTATION | ANALYSIS | SUPPLY CHAIN

Operations Strategy • Supply Chain Execution • Enterprise Software • Vendor Compliance • Project Leadership

- Senior Business and technology leader with a history of architecting and delivering best-in-class enterprise software solutions for global companies that transform and strengthen the full spectrum of end-to-end order-to-cash and procure-to-pay supply chain operations.
- Widely recognized in both technical and business circles for a proven ability to bridge complex business requirements with seamless, accessible solutions. Focused on delivering quality products and results that meet customer needs.
- **Industry Experience:** CPG (Retail), Pharmaceutical, Medical Products, Furniture, Apparel, Publishing, Manufacturing and Warehouse Distribution – B2B, B2C, D2C – Online and Brick-and-Mortar Retail

SKILLS & COMPETENCIES: Vision Definition • Strategic Planning • IT Systems Evolution • Product Management • Project Leadership • Tactical Procedures • Executive Communication • Vendor Compliance • Supplier Relationships • Business Analysis • Data Governance • Risk Management • Business Intelligence • Data Analytics • Internal Controls • POS • EDI (ANSI X12) since 1993 • O2C • P2P • 1D & 2D Barcoding since 1991 • Enterprise Resource Planning (ERP) since 1993 • GS1 • Supply Chain • Flowcharting • SQL • User Documentation • Technical Specifications • MS Access • Advanced: MS Excel, Word, & PowerPoint • Performance Metrics & KPIs • Visio • Change Management • Master Data Management • Global collaborator (UK, China, India, Dubai) • A/P, A/R, G/L, SO, PO, WO, BOO, BOL, BOM, WIP, INV • CRM • ZPL (Zebra Programming Language)

CAREER HIGHLIGHTS

- Responsible for performance of supply chain systems generating \$15M to \$60M in annual revenue.
- Reduced annual supply chain chargeback penalties (representing 1% to 2% of gross annual sales) ranging from \$100,000 to \$1M within weeks to months.
- **Management / supervisory roles include:** 10-person sales team; 4-person IT team; 6-person cross-functional ops team.
- Improved supply chain compliance and performance of contract manufacturers and 3PLs via better collaboration; improved internal systems compliance; reduced chargeback financial penalties by \$750,000+ annually for a CPG company.
- Improved inventory management and work-in-process inventory flow for overseas shoe manufacturer which eliminated the need for otherwise expensive software projects. ROI of > \$500,000.
- Led companies in achieving supply chain excellence performance recognition by their retail customers.
- Comprehensive knowledge of GS1 US barcode and X12 EDI standards.
- Analyzed data and developed supply chain metrics for customer and supplier/vendor performance visibility.
- Served as Supply Chain Consultant to the largest trade associations for the retail and marine industries respectively.
- Developed Microsoft Visual FoxPro and Microsoft Access mission-critical software (1996-2018, 2019-2020, 2024):
 - **Pharmaceutical:** CAPA (corrective & preventative actions); employee training tracking; material and labor costing; barcode carton labeling (including compliance to 21 CFR Part 11); blood plasma 2-D barcode carton labeling; vendor audit tracking
 - **CPG:** point-of-sale data capture for product warranty validation and creation; product barcode label and pick-and-pack; retail barcode compliance labeling
 - **Other:** fixed assets management; general ledger conversion/migration; serialized labels; supply chain and data analytics
- **Project leader on 20+ Enterprise Resource Planning (ERP) projects. Software vendors include:** Microsoft NAV (2024); Microsoft Business Central (2023); Sage 100 (2012-2018); NetSuite (2010-2015); QuickBooks (2018); IFS (2001-2003). **Engagements include:** vendor selection, implementation, operations realignment, data conversion/migration, user rights/roles security, reporting, user training, modification mitigation, EDI integration, legacy/custom ERP system involvement.
- **Project leader on 15+ Electronic Data Interchange (EDI) projects. Software vendors include:** SPS Commerce (Fulfillment / Fulfillment Monitor, 2023, 2024), True Commerce (Foundry, 2023), TrustedLink/Inovis/OpenText (1998-2011), DiCentral (1998-2004). **Engagements include:** vendor selection, implementation, ERP integration, operations realignment, user training, data mapping.
- **COTS software projects:** Confluence and JIRA (2021); PIM (Product Information Management, 2018); SAP Hybris (2021); Teklynx Backtrack (inventory, 2002); Tracker RMS (2023), Akken ATS (2022), Bullhorn (2016) Applicant Tracking Systems; Teklynx Label Matrix; Seagull Scientific BarTender

PROFESSIONAL EXPERIENCE

KATZSCAN, INC.: Deerfield Beach, FL **Owner/President/Employee** **www.katzscan.com** **01/1996 to Present**

- Direct the **analysis**, architecture, **development**, integration, documentation, testing and evolution of enterprise software roadmaps, business **process** improvements, software applications, **data** governance, **supply chain** relationships, and organizational readiness initiatives as an embedded strategic partner and **consultant**.
- Leverage **Six Sigma** methodologies, Agile and Waterfall principles for the full scope of **planning**, **collaboration**, and product delivery. Customer-focused and product-driven towards quality results.
- Perform **data analysis**, operations investigations, and systems overviews as part of “surgical strike” discoveries to determine root-causes of problems, then define and present strategic remedy options and assist in tactical engagement of solutions. Documentation of current state, user requirements, and visioning of future state.
- Operations realignment, **data** conversion/migration. Employee education and training, executive mentoring.
- A relationship champion across internal departments and external stakeholders (customers, contract manufacturers, third-party distributors / 3PLs). Ensure master **data** governance and transactional alignment to operations.
- Consistent ability to rapidly respond to and manage change, and acclimate to new environments and software applications.

JOHNSON & WALES UNIVERSITY **Adjunct Instructor** **www.jwu.edu** (North Miami Beach, FL) **2011 to 2015**

Taught beginner and advanced **Microsoft** Access, Excel, Word, PowerPoint, Digital Citizenship, and general software topics related to business curriculum.

Voluntary Inter-industry Commerce Solutions – Association (Lawrenceville, NJ) – 2008 to 2011 (*Merged into GS1US in 2013*)

Supply Chain Consultant

- Created first-ever supplier education courses.
- Participated in meetings focused on improving relationships between retailers and vendors relating to education and better definition of **supply chain** performance metrics.
- Presented at industry conferences and trade association meetings on committee **project** progress.

National Marine Manufacturers Association – Association (Chicago, IL) – 2003 to 2007

Supply Chain Consultant

- Led meetings between manufacturers, distributors, and retailers in establishing industry barcode label standards.
- Assumed responsibility for marine industry B2B (EDI) electronic commerce platform: advised on software modifications; created technical and user documentation.
- Presented at industry trade shows and boat shows on **supply chain** initiatives and best practices.

EARLY CAREER

Held information technology **management**, business **analysis**, and programmer roles (1985 to 1995) with: **FLA Orthopedics** (Miami Lakes, FL), **Geppetto, Inc.** (Hialeah, FL), **Grupo Gitano** (Miami Lakes, FL), **Hanesbrands** (Winston-Salem, NC), **Huyck Formex / Weavexx** (Wake Forest, NC), **Tropicana Products** (Bradenton, FL), **Fotomat Corporation** (St. Petersburg, FL). Projects included: ERP, EDI, work-in-**process**, **supply chain** vendor **compliance** (EDI, barcode labeling, operations, **logistics**), POS.

TECHNICAL & USER DOCUMENTATION

- Business / System / Software requirements
- Software training manuals & user guides
- **Supply chain** vendor **compliance** (tech, ops)
- **Supply chain** technical & operations workflows
- File and **data** mapping specifications
- Software system interface diagrams
- **Data analysis** results
- RFI / RFQ / RFP
- Software change / modification request
- Terms and definitions library
- Software validation / Test cases / Test scripts
- **Project** timelines, budgets, etc.

KEY CLIENT ENGAGEMENTS

Inch of Gold – CPG/Jewelry (West Palm Beach, FL) – 2004 to 2016 with gaps; 2018, 2020, 2022, 2023, 2024

Supply Chain Consultant

- Established supply chain vendor compliance product and case carton barcode labeling software system and ongoing support. Advisory services on EDI. Project leader for ERP selection and implementation, including RFI, vendor selection, data conversion, negotiations, current-to-future state, project management, training, documentation.

Virtue Labs – CPG/Beauty Brand (Raleigh, NC) – 2024

EDI Consultant

- Analyzed integration between ecommerce, ERP, and EDI platforms, including integration with 3PL. Worked with vendors to close data gaps and correct vendor compliance issues. Assessed new software for integration processing improvements. Monitored EDI transactions, diagnosed errors, communicated resolutions.

Cressida Associates – Software/Service Provider (Haworth, NJ) – 2024

EDI Consultant

- Support to EDI software platform and general EDI advisory services.

Charcuterie Artisans – CPG/Food-Packaged meats (Pascoag, RI and Salt Lake City, UT) –2023 to 2024

Senior EDI Analyst

- Provided X12-EDI and barcode labeling (including GS1 standards) expertise during post-ERP go-live for one division and legacy ERP platform pre-ERP implementation to another division.

River of Goods – CPG/Lighting and Furniture (Minneapolis, MN) –2023

EDI Consultant

- Project manager and subject matter expert for ANSI X12 Electronic Data Interchange (EDI) technology as it related to its use, software systems (e.g., ERP), and B2B/B2C business operations.
- Item data management across multiple software platforms.
- Reduced chargebacks related to supply chain vendor compliance.
- Collaborated with supply chain partners (ERP, freight forwarder) on EDI and other data projects.
- Implemented FTP data file exchange methodology via cloud services.
- Assessed enterprise-wide job schedules for dependencies and conflicts, recommending and implementing changes.
- Created documentation and system/data diagrams, policies, and operating procedures.
- Analyzed EDI and ERP data to support various projects.
- Provided work scope and mentoring/training to IT staff.

[Company Confidential] – Life Sciences (San Diego, CA) –2022

Project Manager & Barcode Subject Matter Expert

- Project manager and subject matter expert for barcode labeling / warehouse management implementation project across multiple US facilities; engaged with business stakeholders, technical staff, suppliers/vendors.
- Led selection of barcode design-and-print software; barcode printers; mobile devices (barcode scanners), label media, ribbon, and adhesive solution for cold storage and warehouse environments.
- Developed designs for receiving label and inventory location tag, including human-readable, barcode symbology selection, and barcode symbology content. Aligned data with GS1 standards.
- Developed project timelines, charter, budget, workflows, presentations, ERP integration file specs, and other relevant technical, user, and quality documentation.

Milwaukee Tool – CPG/Hardware (Milwaukee, WI) –2021 to 2022

Solution Delivery Analyst

- Liaison to business owners for pricing & promotion software implementation project.
- Created navigation guide for pricing & promotion software.
- Provided EDI technical and business analysis support, including container import project.

- Created and maintained **supply chain** documentation space; authored/updated business procedures and work instructions; enhanced company acronyms & terms list with meaningful definitions; created training guide.
- Supported ERP-related projects; developed standardized form and work instructions for batch jobs.
- Supported 3PL implementation **project**.
- Supported new **distribution** center creation **project** that separated manufactured **goods** from finished products.

Consultis – Staffing (Boca Raton, FL) – 2016, 2021, 2022, 2023

Software Consultant

- Business **process** documentation, **data** conversion/migration **analysis**, administration advice, and performance analytics **reporting**, for CRM and talent **management** system implementations.

Classic Brands – CPG/Garden Accessories (Denver, CO) –2021

Project Manager

- Managed and consulted on the EDI transaction aspect of a 3PL migration **project**.

ShipMonk – 3PL (Fort Lauderdale, FL) – 2021

Supply Chain Consultant

- Advised on B2B and B2C **retail supply chain** vendor **compliance** operation and technology (EDI, barcode label) requirements; made recommendations for integration of these requirements into existing business **process** flows.

Taylor & Francis – CPG/Publishing (Boca Raton, FL)

Supply Chain Consultant – 2019 to 2020

- Analyzed **data** from ERP and EDI systems, and EDI transactions 850, 810, 856, 855, 860 (among others) along with vendor **compliance** portals to determine root-causes of vendor **compliance supply chain** performance chargebacks.
- Engaged with contract manufacturers to ascertain software systems in use and business operations to suggest improvements to reduce **supply chain** penalties and improve B2B **data** exchange interactions.
- Reviewed ERP and EDI software code and documented improvements for change.
- Reduced **supply chain** chargebacks by 75%.
- Created performance metrics for new 3PL fulfillment **warehouse** auditing. Created **supply chain** performance **data** dashboard and performed **analysis** of barcode labels to ensure **compliance**.
- Reviewed customer **supply chain compliance** documentation and ensured technical and operational **compliance**. Documented system interfaces and transaction flows for global enterprise systems **project**.
- **Analysis** and architecture designs for proposed new ERP and EDI global solutions.

EDI Architect and Business/Systems/Data Analyst - 2013 to 2016

- Provided support for migration of multiple financial (royalties) systems by producing **data** migration before-and-after statistics, testing new financial software, developing user documentation, and leading user training sessions.
- Supported existing EDI-ERP software program code.
- Creation of EDI RFP for selection and architecture determination of EDI vendor for establishment of stand-alone EDI mapping and **communication** software and/or services. Integration to legacy enterprise software and then transition to new ERP system. This included detailed performance **analysis** of EDI transactions for statistical understanding of inbound and outbound traffic and by whom (e.g. company, **supply chain** partner).

Twin-Star Home – CPG/Furniture (Delray Beach, FL)

Supply Chain Consultant – 2017 to 2018

- Analyzed and documented current operational and systems state of company in preparation and in support of implementation of new ERP, EDI, PLM, Demand **Planning**, and Product Content **Management** systems.
- Implemented improvements to current state through via the use of custom **Microsoft** Access software systems designed to reduce manual **data** manipulation.
- Recommended and implemented operational improvements to current state by reducing extraneous manual efforts.
- Provided expertise to future state ERP and EDI systems designs, operational workings, and transitional **data** migration.

- EDI Customer & Vendor (3PL) support and onboarding, including **data** mapping to ERP via system and current EDI **data** communicator and mapping software; assessed and improved **supply chain** performance to reduce chargebacks.
 - ERP support of current-state system and all related business operations as new software projects were being introduced.
- EDI Consultant** – 2016
- **Data** mapping for inbound and outbound EDI. 850, 810, 846, and 856 for customer **supply chain** trading partners; 940 and 945 for 3PL trading partners. Achieved trading partner onboard growth from 25% to 65% during **project** timeframe.

ServeCo – **CPG**/Furniture Products, Warranty Service & Repair (Woodstock, GA) – 2017 to 2018

Business & Software Consultant

- Performed **data** export and conversion from ERP of acquired company into ServeCo ERP.
- Liaison to customers for the integration of customer point-of-sale **data** into ServeCo Warranty System.

SEKO – **Logistics** (Chino, CA) – 2015

Supply Chain Vendor Compliance Consultant

- Advised on how **supply chain** vendor **compliance** would be integrated technically and operationally to software systems used to manage 3PL operations and support customer requirements.
- Provided training and support for barcode labeling software.

Clinical Diagnostic Solutions – Pharmaceutical (Plantation, FL) – 2012 to 2017, 2018

Business Analyst & Software Developer

- Business operations **analysis**, architecture, and software **development** support for projects including material and labor **cost** rollup solution linked to ERP, corrective actions/preventive actions case **management** tracking system, employee training tracking system, **sales** quoting & instrument installation validation spreadsheets, supplier audit and financial **reporting** databases all based on MS Access. Created and executed test cases and quality testing for software projects.
- Authored ERP user documentation.
- Selection and implementation of integrated EDI solution to ERP system.
- **Data** conversion and migration programming for ERP migration **project**.

Simple Factory Group – Footwear (Dongguan, China) – 2014

Supply Chain Consultant (Inventory & Barcoding)

- Assessment of shoe factory for implementation of **inventory** and WIP barcoding.
- Reviewed and suggested better methodology of **inventory management** and **inventory** flow to factory to improve space utilization, reduce bottlenecks, reduce damage, and reduce over-purchase of materials.
- Reviewed ERP software and architecture with client and vendor: recommended new software module purchased; recommended cessation of custom software **project**.
- Assessed vendor **compliance** labeling application. Formed **cross-functional** team to carry on work after my departure.

Polaroid-Fotobar – **Retail** (Boca Raton, FL) – 2013 to 2015

Supply Chain Consultant

- Selection and implementation of ERP system
- Design of integration of Polaroid Fotobar ERP to sister company ERP via EDI
- Designed EDI integration for ERP and e-commerce platform for dual drop-ship and fulfillment business models to satisfy new retailer trading partner relationship.

Successories – **CPG**/Promotional Products (Delray Beach, FL) – 2010 to 2013

Business Analyst & Systems Analyst

- Administration of installed ERP system. Implemented unused functions, established operations improvements coupled with innovative uses of ERP features to reduce wasteful communications between departments and transition to an environment where information was “pushed” on a constant basis. Used reporter feature for dashboard graphics, ad-hoc reports, and **data** extracts. Analyzed extracted (e.g. CRM) **data** to support ancillary **sales** and marketing efforts and software platforms.

Breckenridge – Pharmaceutical (Boca Raton, FL) – 2010**EDI Software Consultant**

- Reviewed existing EDI software, barcode labeling, business processes, and ERP-EDI integration methodology.
- Presented findings which included best-practice recommendations.

Purebrands – CPG/Food (Boca Raton, FL) – 2010 to 2012**Supply Chain, Business, Systems Analyst**

- Implemented new ERP system; developed Bills of Operations / Material / Labor for all products and complete product setup information including UPC data, weight and volume of unit and carton
- Defined the customer data entry procedures, established vendor data entry procedures, sales order entry procedures and full administrative rights to ERP.
- Integration of EDI to ERP for retail trading partner fulfillment.
- Qualified 3PL selection for supply chain retail readiness.

Heys USA – CPG/Luggage (Miami, FL) – 2009**Supply Chain Business Analyst**

- Reviewed existing technology and business process with regards to EDI, barcode labeling, and vendor compliance and presented findings and best-practice recommendations.

Center Point Large Print – CPG/Publishing (Knox, ME) – 2008 to 2013**EDI Consultant**

- Technical guidance for integration of EDI to CPLP ERP system for trading partner relationship with public libraries.

NRC-JARO – Electronics (Boca Raton, FL) – 2003 to 2013**EDI Consultant**

- Diagnosed EDI file mapping errors in legacy ERP system; diagnosed EDI file mapping errors in EDI software.
- Communicated with trading partners for new relationships.
- Spearheaded new EDI trading partner setup, barcode labeling, and mapping effort.
- Established and tested new EDI data file maps plus changes as required for trading partner relationships.
- Provided user training on EDI system.

Furniture Protection Connection – CPG/Furniture Products & Warranty Services (West Palm Beach, FL) – 2010 to 2016**Business Analyst & Software Developer**

- Developed Microsoft Access databases to capture furniture retailer point-of-sales receipt data for warranty claims.
- Established EDI connectivity services.
- Led transition of Access databases to SaaS based software.

Ivax / Teva – Pharmaceutical (Miami, FL) – 1996 to 2008 (with some gaps in 2000's)**Business Analyst & Software Developer**

- Developed custom barcode label software responsible for the creation of 500K – 1M carton labels per year.
- Software included multiple layers of authorization for 21 CFR Part 11 (compatible) compliance.

Nabi / Biotest – Pharmaceutical (Boca Raton, FL) – 1998 to 2004 (with gaps)**Business Analyst & Software Developer**

- Developed barcode labeling software used in 80 nationwide plasma centers; capable of manual data entry or import from ERP.
- Implemented stand-alone barcode labeling applications for laboratory use.
- Consulted on Y2K project: developed technical specifications, user documentation, and re-designed non-compliant applications in Microsoft Access.
- Consulted on EDI integration to ERP project.

Stainsafe – CPG/Furniture Products and Warranty Services (West Palm Beach, FL) – 2000 to 2006

Supply Chain, Business, Software Analyst

- Co-led team to select and implement an ERP system, including hardware and software architecture.
- Advised on all aspects of supply chain vendor compliance, operationally and technically.
- Provided EDI expertise and optimized operational workflow (customer service, distribution, shipping, accounting) to ensure chargeback mitigation and improve performance. EDI integration to distribution and ERP systems.
- Developed supply chain compliance barcode labeling application in Microsoft Access.
- Implemented interim inventory management system during ERP conversion project; all inventory items and counts were migrated to new ERP system from this interim system instead of the legacy ERP system.

BSA-GAMO – CPG/Outdoor sports equipment (Fort Lauderdale, FL) – 2006

EDI-to-ERP Integration Analyst

- Reviewed existing EDI-to-ERP integration and advised on alternative solutions and best practices.

Broward College – Education (Fort Lauderdale, FL) – 2004 to 2005

Business & Software Consultant

- Provided business and software best-practice advice on matters related to internal controls with regards to acquisition, allocation, and disposition of goods and implemented a barcode fixed asset management solution. Implemented a barcode inventory control software solution for the central receiving warehouse.

Ronstan – CPG/Nautical equipment (Clearwater, FL) – 2004

ERP Software Consultant

- Reviewed data from ERP system to determine root-cause(s) of late order fulfillment, reviewed business operations, reviewed major retailer customer forecast data, conversed with retailer customer buyer.
- Saved Ronstan from having to purchase a new ERP system.

Fichera Publications – Publishing (Margate, FL) – 1999 to 2015

Software Consultant

- Developed new sales advertising application for Y2K compliance. MS Access databases for contact management.

Travelpro – CPG/Luggage (Boca Raton, FL) – 1998 to 2001

Supply Chain Consultant

- Business operations and software leadership and consulting, including EDI management of all transactions inbound and outbound, integration of EDI to ERP and distribution software applications, vendor compliance chargeback investigations.

Boca Raton Resort – Hospitality (Boca Raton, FL) – 1996 to 1998

Supply Chain Consultant

- Programmed barcode scanners, established database connectivity to enterprise systems, and created business procedures for retail inventory control.

Norman Katz

- Lighthouse Point, FL, US

Summary

Your “Principal Execution Officer” — Analyzing **Data**; Assessing Software; Aligning Operations, Transactions, and Enterprise Applications. Here’s my typical assignment: When I get the call or the email from the prospective client company, the proverbial poop has already hit the air movement device. Customer relationships are threatened. SupplierVendor (3PL, contract manufacturer) relationships are strained. For my **retail CPG** clients, financial penalty chargebacks for **supply chain** non-**compliance** are eating away at their profits. The software system - typically the ERP system - stinks, and no one knows why, e.g., the reports are not providing the necessary information, the system is reactive and not proactive, the **data** is dirty. EDI is not understood. The company is operating inefficiently, everyone is angry, and no one really knows why. Companies commonly confuse performance with execution. Performance is measurable and is associated with metrics and KPIs. Execution includes performance and the touchpoints that improve efficiency, reduce frustration, consider ergonomics, factor in aesthetics, clearly communicate, and lower operating costs. What these company executives eventually express to me that they need is: a subject matter expert; an investigator; an analyst; a **project** leader; a relationship champion; someone who is tough when should be and empathetic when need be; someone who can help define processes; a person who is agile enough to tackle priorities as they happen; someone who can analyze **data**, make sense of it, and clearly communicate the findings; someone who understands software systems and business operations; a person who can provide independent advice; and someone who has the proven experience and credentials to get the job done efficiently and effectively, because time is not a luxury, **sales** are down, customers are angry, suppliersvendors are not engaging, and/or **supply chain** financial penalties are growing. Relying my mantras of “divide and conquer” and “checks and balances”, I deploy my tried-and-true people-engagement and **data analysis** techniques to help determine short-term fixes and long-term solutions, consistently delivering results above expectation. I have exceptional verbal and written **communication skills**, and can clearly convey complex concepts to all levels of audience. My experience is what makes my

expertise. Creative and spontaneous with a quick wit. I am both big-picture strategic and detail-oriented tactical. An intense listener and a thoughtful speaker.
