67 Weston Dr,
Fairview, Texas, 75069
reji_p@yahoo.com

309-706-1712

Distinguished Strategic Enterprise Leader with over 25 years of visionary leadership, driving innovation in business strategy, enterprise architecture, and global information technology domains. Renowned for fostering enduring business relationships and spearheading transformative initiatives across diverse industries. Expertise in crafting and executing Cloud and Edge solutions while leading technical teams to unparalleled success.

Highly experienced in:

- Enterprise Architecture
- Application/Software Architecture
- TOGAF architecture framework
- Generative AI
- Telematics
- Scrum and SAFe Agile Methodologies
- Micro service and Cloud Native Architecture
- Enterprise Architecture Tools: SAP LeanIX, Orbus Infinity, Planview/Troux and Mega Hopex
- Hybrid Multi Cloud Architecture
- Business Capability Modeling
- Digital Transformation and Modernization
- Java and .NET Technology Stacks
- Mergers and Acquisitions
- Serverless Architecture
- DevSecOps

Professional Experience:

Position: Chief Enterprise Architect

Client: HF Sinclair

Company: Buchanan Technologies

Duration: 2024 - Present

- Successfully spearheaded the architecture integration of Holly Frontier and Sinclair energy companies, utilizing TOGAF methodologies and delivered a cohesive enterprise architecture that enhanced operational efficiency and supported a seamless transition, resulting in a 20% reduction in integration costs and 30% in system interoperability.
- Led the design and deployment of a Gen AI framework and RAG Architecture for HF Sinclair, leveraging Azure OpenAI, CoPilot, Google, and OpenAI technologies. Delivered hands-on

integration of LLMs, vector databases, and knowledge graphs, resulting in a 12% market share increase and improved customer satisfaction.

- Built and deployed AI operations and ML/Ops pipelines to enable scalable model deployment, continuous monitoring, retraining and integration across the architecture.

Position: Head of Enterprise Architecture, Innovation and Patent Office

Company: Albertsons Companies

Duration: April 2022 – December 2023

Led enterprise architecture, innovation, driving strategic technology initiatives, managing intellectual property and managed a technical team of 40 members to support business growth and competitiveness.

- Designed a strategic IT and digital transformation plan projected to boost operational efficiency by 30% and enhance supply chain visibility, setting the foundation for a seamless merger between Kroger and Albertsons
- Spearheaded business workflow transformations utilizing AWS, Azure, and Salesforce, resulting in streamlined processes, best-in-class capabilities, enhanced automation, and a 40% reduction in service delivery costs
- Revitalized 2300 retail in-store environments by leading a modernization strategy, harnessing cloud environments for elastic scalability, and achieving over \$30M in savings
- Aligned business goals with technology through capability modeling, application rationalization, and execution of digital transformation efforts, resulting in enhanced IT capabilities and optimized Enterprise Architecture
- Setup Innovation and IT Patent office and as part of 2023 effort, developed Generative AI framework, guardrails, design principles that aligns with the use of responsible AI guidelines, tools, automation and InfoSec and legal policies

Position: Director – Lead Architecture

Company: Farmers Insurance Company

Duration: October 2015 – April 2022

REJI MATHEW

67 Weston Dr,
Fairview, Texas, 75069
reji_p@yahoo.com

309-706-1712

Championed **strategic** alignment, architectural excellence, and **innovation** while overseeing a team of 30 **Enterprise** and **Technical** Architects fostering transformative growth.

- Revolutionized the **insurance** sector by integrating IoT technology, facilitating real-time asset monitoring, and pioneering Usage-based **Insurance** (UBI) and telematics for home and auto lines of **business**, leveraging Amazon Alexa, Chatbots, and Conversational AI platforms
- Directed the successful implementation of the **Guidewire Policy Center**, Claim Center, and Billing Hub, overseeing the seamless **integration** of over 300 applications
- Elevated the Net Promoter Score (NPS) from 38 to 45 within 12 months by re-architecting Farmers' system of engagement and customer experience across AWS, Azure, Salesforce, and GCP platforms
- Achieved a 50% reduction in security **risk** and a 40% enhancement in agility and **innovation** by spearheading the **Cloud Center** of Excellence program
- Developed **Strategic** Blueprints to office of CTO towards efficient technology using Java, Node.js, REST, Spring framework, **API** integrations and enhanced customer experience goals.
- Recognized with 'Hall of Fame' awards from Farmers for outstanding contributions

Position: Lead Principal **Enterprise Architect**

Company: The Walt Disney Company

Duration: August 2012 – October 2015

Drove transformative **enterprise architecture** initiatives, overseeing a team of 20 **Enterprise** and Portfolio Architects and leading cross functional teams on **Data Center** modernization and **Cloud migration** efforts.

- Led AWS **Cloud** migrations at Disney, delivering a 50% cost reduction, 90% faster time to **solution**, and scalable environments for **business** units
- Enhanced **Solution Design** efficiency by 50% through automation and standardization of blueprints, **solution design** packages, architectural tools, artifacts, and core processes

REJI MATHEW

67 Weston Dr,
Fairview, Texas, 75069
reji_p@yahoo.com

309-706-1712

- Steered the **solution design** for a large-scale **Data Migration** of over 1000 applications, virtualizing 80% of environments to enhance speed and flexibility while reducing costs, and accelerated **migration** efforts by 90%
- Recognized with the Collaboration Award from the Walt Disney Company for outstanding contributions

Position: Lead **IT Architect**

Company: IBM

Duration: October 2009 – August 2012

Shaped and implemented cutting-edge **IT** solutions, leading a team of 15 **technical solution** architects in designing and delivering high-quality, scalable, and secure **IT** architectures.

- Served as the application and **infrastructure architecture** leader for legacy system **integration**, B2B **development** platform, and **integration** across **Strategic Business Enterprises**
- Oversaw presales **technical** activities for the **design**, **development**, and implementation of **Infrastructure** solutions encompassing Compute, Storage, and **Network**

Position: **Enterprise Application Integration Architect**

Company: HTC Global Services

Client: State Farm **Insurance** Companies, State Farm Bank

Duration: March 2001 – October 2009

- Lead a team to achieve efficiency, productivity and quality gains in **project management**, **design**, **development**, deployment, and support by developing mission critical applications using Java and .NET technology stack
- Coordinated with **technical** and **business** experts across the organization to translate key **strategic** objectives into actionable and governable **roadmaps** and designs.

Academic Qualifications:

- Master of **Computer** Applications
