SUMMARY

Seasoned professional with 10 years of experience in **data** warehousing, project management, **business** analysis and analytics. Expert in SQL, **Python**, and Oracle database administration; adept at creating comprehensive reports and **data**-driven solutions. Seeking a **business** analyst/project management role to leverage extensive project management and technical expertise.

WORK EXPERIENCE

Zolon Tech Inc.

Snowflake Developer; U.S. Department of Labor; Contract

Nov 2023 - Present

- Create and maintain efficient ETL/ELT pipelines using **Snowflake**'s native features and **integration** with other **data** platforms and tools (e.g., **Python**, PySpark, SQL, or other ETL tools).
- Collaborated with cross-functional teams to deploy **data** science solutions in production environments within **cloud** platforms like **Snowflake** and Azure.
- Write and optimize complex SQL queries for **data** extraction, ensuring high **performance** and minimal resource consumption across large datasets.
- Conducted detailed analyses on complex datasets, identifying actionable insights that supported value-based care initiatives.
- Develop and maintain customized reports using various reporting tools (e.g., **Power BI**, Tableau, Crystal Reports) to provide insights and support **business** decision-making.
- Utilize JIRA to enhance workflow efficiency, manage user stories, epics, and sprints, and utilize Confluence for effective knowledge sharing and documentation.
- Develop essential project artifacts such as **business** process flows, ERDs, and sequence diagrams to clarify and communicate complex concepts.
- Generate comprehensive reports for decision support, including status updates and burn-up charts, and manage stakeholder content delivery through CloudFront.
- Engage in all phases of **cloud**-based project lifecycle on AWS, from requirements gathering and software design input to supporting UAT and milestone communications, while leveraging **Snowflake** for **data** warehousing tasks.

UConn Health

Farmington, CT

IT **Business** Systems Analyst/Project Manager

Feb 2022 - Nov 2023

- Maintained and updated **Microsoft** Project Server application to enhance functionality and supported the PMO IT project intake system for organizational effectiveness.
- Facilitated communication as a liaison between end-users and technical teams, identifying needs and assisting in the development of technology solutions; additionally provided user training and consultation on various applications.
- Authored comprehensive workflow documentation for new processes, ensuring clear procedures and supporting consistency in task execution, which aided in training and knowledge transfer.
- Designed project status dashboards for project managers, integrating Project Server with **Power BI** for automated **data** extraction, which streamlined reporting and provided up-to-date insights for stakeholders.
- Presented **data**-driven recommendations to healthcare professionals, driving improvements in care delivery.

Pratt & Whitney

Project Manager/Electrical Engineer

East Hartford, CT

Jul 2015 - Feb 2022

- Lead the planning, design, and execution of electrical engineering projects, ensuring that project goals,

timelines, and budgets are met while maintaining high-quality standards within the whole department.

- Managed multidisciplinary teams of engineers, contractors, and stakeholders to ensure seamless communication and coordination throughout the project lifecycle.
- Identified potential risks, developed mitigation strategies, and solved technical challenges that arise during project development and execution.
- Identified missing or incorrect **data** points in **power** system datasets and apply the appropriate substitution methods to ensure **data** consistency and accuracy.
- Monitored, collected, and recorded real-time **power data** from various sources, including meters, sensors, and other **power**-related systems.
- Managed end-to-end project execution, ensuring compliance with safety standards and adherence to timelines for critical milestones.
- Collaborated with design teams to develop project specifications and conducted technical reviews to facilitate informed decision-making.
- Executed detailed **power** and load studies for substations, employing **power** monitoring software and SQL for **data** analysis and reporting.
- Coordinated electrical engineering activities, including arc flash studies and the management of **power** distribution schematics using AutoCAD.

The Hartford Financial Services Group

Hartford, CT

Application **Developer**

Oct 2014 - Jul 2015

- Developed and maintained applications to enhance the actuarial department's operational efficiency, ensuring that project specifications and scope were clearly defined and met.
- Administered and optimized Oracle databases, performing tasks such as backups, recovery, and maintenance to ensure **data** availability, security, and **performance**.
- Implemented **Python** scripts to automate **data** manipulation tasks, and utilized SQL for **data** extraction and analysis, contributing to informed decision-making processes.

EDUCATION

University of Connecticut

Storrs, CT

BS in Electrical Engineering

2013

CERTIFICATIONS

- **Snowflake** Hands-On Essentials
- **Snowflake** SnowPro
- AWS Certified Solution Architect Associate
- Oracle 19c

RELAVENT SKILLS & ACTIVITIES

Technical Skills:

C, C++, Linux/Unix, PowerShell, **Microsoft** Project/PWA, Reporting, **Microsoft** Office, **Data** Analysis, **Data** Visualization, Oracle, SharePoint, **Data** Warehousing, DevOps Process, JIRA, Confluence

Cloud:

AWS, SNS, S3 **Data** Lake, DMS, CloudFront, CloudTrail

Data Analysis Tools:

SAS, SQL/mySQL, SQL Server, **Power BI**, Tableau, **Python**, PySpark, **Snowflake**

Professional/Leadership Skills:

Project Management, Agile Development and Management, Technical Communication, Team management, Contract Negotiation, Team Oriented, Leadership, Strategic Planning, Problem Solving, Collaboration, Critical Thinking, Analytical Skills, Root Cause analysis, Requirements Gathering.
