DevSecOps Engineer

Results-driven Cloud Operations Engineer with extensive experience in AWS infrastructure, security, and compliance. Seeking a challenging role as an AWS GovCloud Staff Engineer to leverage my expertise in deploying scalable and secure solutions, optimizing cloud architecture, and ensuring high availability. Adept at monitoring, troubleshooting, and resolving cloud infrastructure issues to maintain optimal performance. Committed to upholding industry standards and implementing robust security measures. Proactive and collaborative, with a passion for continuous learning and driving improvements in cloud operations. Ready to contribute to the success of the organization by delivering exceptional solutions on the AWS GovCloud platform.

WORK EXPERIENCE

ASM Research • Remote • 05/2024 – Present

Cloud Engineer • Full-time

- Design and deliver cloud solutions in certified FEDRAMP High environments across multiple cloud providers including AWS, OCI, and Azure.
- Rearchitected and migrate legacy Web Applications from AWS Network Load Balancers to AWS Application Load Balancers.

Darling Ingredients Inc • Irving, Texas • 08/2023 – 05/2024

Cloud Engineer • Full-time

TeamSupport • 03/2020 – 05/2023

AWS DevSecOps Engineer • Full-time

- Significantly enhanced uptime from 95% to an exceptional 99.99% by implementing industry-leading AWS cloud best practices and leveraging powerful observability tooling such as New Relic, Logz.io, and other cutting-edge solutions.
- Proactively monitored and analyzed system performance, identified bottlenecks, and swiftly implemented optimizations to ensure optimal reliability and seamless user experience.
- Significantly optimized white-label spin-up process, slashing turnaround time from 5 days to less than 1 hour, resulting in expedited delivery and improved client satisfaction.
- Implemented innovative solution to eliminate future renewals, streamlining operations and reducing costs.
- Led the end-to-end design, deployment, updating, and troubleshooting of cutting-edge solutions on AWS, leveraging tools such as CloudFormation, CodeDeploy, CodeBuild, CodePipeline, Powershell, Bash, Python, and HashiCorp Packer.

- Successfully accelerated deployment velocities from a monthly cadence to three times a week, driving significant gains in efficiency and time-to-market.
- Actively championed and promoted the adoption of Infrastructure as Code (IAC) methodologies by leveraging Atlassian's **Cloud** tooling, including Jira and Bitbucket, in conjunction **with AWS** CodeBuild and **AWS** CodePipeline products.
- Successfully educated and collaborated **with** cross-functional teams to integrate IAC practices, resulting in enhanced efficiency, scalability, and consistency across infrastructure deployments.

Infor Global Solutions • Dallas, Texas, USA • 12/2014 – 03/2020

Aws Cloud Ops Engineer

- Achieved exceptional uptime of 99.995% over 6 years, ensuring uninterrupted service availability and exceeding industry standards for reliability.
- Managed and automated critical platform support tasks, including after-hours deployments, customer provisioning, and comprehensive observability, utilizing tools such as SaltStack, CloudFormation, SumoLogic, LogicMonitor, Telegraf, Grafana, and Dynatrace.
- Designed scalable and resilient solutions, optimizing resource allocation, automating deployments, and ensuring high availability to meet demanding operational requirements.
- Streamlined operational workflows, improved efficiency, and ensured seamless monitoring and troubleshooting capabilities to maintain a high level of platform performance and customer satisfaction.
- Developed and implemented a comprehensive Configuration **Management** Database (CMDB) tooling solution within GovCloud environments, leveraging Microsoft SCCM System Center Configuration Manager.

Compucom • Dallas, Texas, United States • 08/2014 – 12/2014

Systems **Integration Tech III**

- Successfully created, managed, coordinated, and deployed business-critical updates, applications, and scripts to a vast network of over 16,000 **remote** devices, consistently meeting a high SLA success rate of 85% using System Center Configuration Manager

Dillon Gage Inc • Dallas, Texas, USA • 03/2012 – 05/2014

System Administrator

- Provide comprehensive tier 1-3 technical support across four international locations, supporting a diverse environment of 500 devices running/2008/2012 and associated software such as Office 2013, Dynamics CRM 2013, and Office 365.
- Utilized a range of support tools, including System Center Configuration Manager 2012 R2, System Center Operations Manager 2012 R2, and occasionally System Center Service Manager 2012 R2, to effectively track and resolve support issues, ensuring minimal downtime

New Horizons Computer Learning Centers • Dallas, Texas, USA • 02/2009 – 03/2012

Facilities Manager

- Oversaw the **management** of a network spanning 4 centers, 25 classrooms, and 500 distributed workstations, providing **remote** support and ensuring seamless connectivity and productivity
- Designed, developed, and implemented network policies and virtual structures, leveraging domain **services** to establish a secure and efficient network infrastructure.
- Strategically assigned classes based on technical requirements, optimizing resource allocation and ensuring optimal learning environments for students.

EDUCATION

Bachelors of Technology in Network Administration

State University of New York College of Agriculture and Technology at Cobleskill •
01/2006 – 05/2010

Degree in Computer Repair, Network Technician

Capital Region Career and Technical School • 01/2001 – 01/2003

CERTIFICATIONS

Amazon Web Services Cloud Practitioner • 08/2019 – 06/2026

Amazon Web Services (AWS)
