

CHARLES R.

PHONE: 305-564-4429 | EMAIL: CHARLES@RONINGRP.COM

A seasoned SAP Implementation Leader/SAP Delivery Program Director with extensive knowledge and experience in implementation and delivery projects including cutover/go-live planning who is fully capable of taking a major role in achieving company goals, while exceeding all expectations. Major strengths include project management and deliverables, resource management, team building, budget management, developing project scope, customer relationships, cost avoidance, continuous design improvements, and providing project metrics for senior management, process documentation, process modeling, process re-engineering, requirements gathering, system analysis, driving use case, process flow development, change management, change management process documentation.

Hardworking, dedicated, team player and motivator, dependable, reliable, conscientious self-starter and quick learner who adapts efficiently to changing demands. Possesses excellent communication and interpersonal skills.

Core Program/Delivery Management skillset:

- Manage SAP Program global deployment, Finance transformation, MDM implementation project plans, timelines, budgets, and deliverables.
- Building Organizational and reporting structure. Mentoring and coaching.
- Partnering business executives on strategic initiatives and roadmaps
- Lead planning and deployment sessions with Business and Technical teams
- Identify risks and build/test mitigation plans including business process workarounds.
- Managing expectations, scope creep, risks, and gaps across all work streams
- Plan, manage and execute SAP conversion and cutover tasks.
- Plan, gather and document requirements and specifications for RFIs, RFP, SOW
- Tools: MS Project, Clarity, Workbench, SharePoint, Excel, PowerPoint, Visio
- Project management methodologies and best practices – Agile, waterfall, CPM, CCPM, ECM, Six Sigma, Scrum, RUP. SAP Activate
- Change management: OCM, ITSM, ITIL, implementation & organizational change, etc.
- Target Operating Model Implementation: Organizational capacity, Employee engagement, Risk mitigation, Client satisfaction
- Developing and Tracking Budgets, Coaching, Supervision, Staffing, Project Management methodologies, Process Improvement, Planning, Reporting and metrics, Performance Management, Verbal Communication

Core Integration & Cutover Architect & Release Manager/Lead skillset:

- Define Cutover Entry and Exit Criteria with PMO, defining Cutover Scope/time window, Clarifying roles and responsibilities for all team members involved in cutover, determining black-out / brown-out periods for all legacy systems during the cutover window, Planning and Management of Mock Cutover Activities, Planning and Management of Production Cutover Activities, Monitoring Production Cutover execution progress and issues, Enabling the transition to Production Support, Project scheduling through MS Project, SAP Master Data / transactional data dependencies
- Build and manage ramp down and ramp up plans for both technical and business.
- Create & manage the execution of the data migration/conversion strategy: Validation & Cleanup
- Create and manage the overall cutover approach/strategy and define the cutover plan.
- Create and manage cutover plans for each test cycle and actual cutover including technical steps for environment build, manual configuration, data conversion and interface switching.
- Financial reconciliations pre and post cutover
- In-transit inventory management
- Data Migration and validations
- Coordinate and direct teams involved in the cutover.
- Ensure resource requirements for the Cutover Teams are met.
- Provide Cutover status reporting to project leadership and key stakeholders.
- Ensure entry into and exit out of cutover stage gates are met including the final Go/No-Go meetings.
- Tax systems: SYNCHRO, Vertex | SAP NFE (Nota Fiscal Eletrônica) for e-invoicing, logistics & accounting

EMPLOYMENT HISTORY

PA Turnpike (Public Sector)

SAP ERP Solution lead & Program Architect

Jan/23 –present

- Lead and facilitate SAP ERP S4 HANA Greenfield(ish) implementation following Fit2Standard methodology.
- Rehosting from On-Premises to Cloud Hyperscaler
- Provide SAP Solution subject matter expertise input to RFP.
- Manage vendor partnerships with System integrator, SAP, Microsoft, OnBase, SmartDocs, AZURE etc.
- Lead Delivery program
- Participate in Technical Evaluation Teams for proposal evaluations.
- Build data strategy and architecture with intelligence tools.
- Stakeholders and leadership level reporting
- Provide strategic and operational leadership.
- SAP Finance, Sourcing & Procurement, HCM WITH SuccessFactors, Logistics, Project Systems, Linear Asset Management, Service & Asset Management, BTP with Data Sphere, integration with UBOS/CBOS, BTP with SAC for analytics and AI, etc.
- Cutover and deployment consulting to business and IT teams – strategic planning and operational guidance, Data conversion and migration principles and processes, integrations with Integration Suite, risk assessments, etc.

Invacare (Medical Device Manufacturing)

Feb/22 – Feb/23

- Lead and manage entire global program: Transformation and run the business support.
- Single accountable owner to customer
- Build structure & organization to effectively execute operations.
- Negotiate and manage expectations with customer.
- Establish strategic direction and path for program and build support internal and external.
- Manage lead resources on program – 30+ direct reports.
- Manage 3rd party relationships.
- Complex problem solving
- Stakeholders and leadership level reporting
- SAP S4 HANA, Manufacturing, FSMC, IBP, SAP C4C: Cloud, marketing, commerce, Asset Management, service clouds, CPI, CPQ, VC, EWM, PIPO, AZURE, SAP IBP Supply & Response, SAP IBP Sales and Operations Planning (S&OP) and/or SAP IBP Demand Planning, Ariba, etc.

Glen Dimplex(Planning & Manufacturing)

SAP Manufacturing Plant Overall leader & SAP Planning BPO

Apr/21 – Apr/22

- Lead & manage SAP implementation of new manufacturing plant.
 - S4 HANA, PTM, PTP, EWM, Logistics, Distribution, Manufacture & product engineering, FTS, Finance/Costing, Production planning, SOM, PP/DS, Asset Management
- Business process owner: Supply chain collaboration & SAP IBP Supply & Response, SAP IBP Sales and Operations Planning (S&OP) and/or SAP IBP Demand Planning)
- On-Premises & cloud integrations
- Cutover lead for P2MK, SAP IBP Supply & Response, SAP IBP Sales and Operations Planning (S&OP) and/or SAP IBP Demand Planning) & SCM
- Manage & drive project phases, milestones, deliverables in collaborative culture.
- Manage relationships with multiple vendor partners.
- Support supply planning process definitions (Integrated business planning)
- Manage and drive data cleansing, ETL, etc. for master and transactional data.
- Driving collaborative decisions in areas such as manufacturing, planning and procurement philosophies
- 3PL Distribution Center (DC) with EDI interfaces
- Cloud integration with Ariba
- Global supply chain operations – manufactured and traded goods

MERCK: Millipore Sigma(Medical Device Manufacturing)

SAP Implementation Lead

Jan/19 – Oct/21

- Lead SAP Implementation & Global Wave rollout of S4 HANA
- Business process owner for Forecast to Supply and Plan to Manufacture

- **Lead** definition of global template in IBP, Production **Planning**, etc.
- Participate in Lean **Financial** Framework focused heavily on costing.
- **Lead** definition of SAP Subcontracting for sterilization
- Global process transformation across global sites(manufacturing & commercial)
- Strategic and Operational **planning** for Plants
- SAP For Direct **Procurement** and Ariba for indirect
- EWM **implementation** with RF Scanning
- **Lead** SAP IBP, DRP, Deployment, Response & Supply
- PPDS **implementation**
- 3PL Distribution Center (DC) with EDI interfaces
- **Lead project** to add packaging materials to BOMs.
- Facilitate and drive Quality processes that **lead** to usage decisions.
- Integrating LIMs, homegrown quoting and design applications, etc.
- Partnering with Salesforce and CPQ **implementation**
- **Lead** data mapping to new costing framework
- Define and manage execution of business **cutover**.
- **Risk management** and mitigation

EJ Gallo (Modesto, CA)

SAP S4 Implementation Program Manager & Cutover lead May/18 – Nov/18

- SAP Greenfield S/4 HANA 1709 and SAP HCM with **cloud integration**
- Ariba (SLP), OTC, SCP, SCM, **OCM**, EDW, BPC, Data, Central **Finance**, Asset **Management**
- Fiori Applications in S/4HANA
- **Workday** HCM **integration**
- COUPA **integration** (SFTP)
- SNP, PPDS
- GRC **Implementation** with **security** and controls for applications– SODs **risk analysis**
- SAP Travel and Expense
 - Request, Plan, enter, settle and evaluate.
 - Travel manager, **Financial** Accounting, **Payroll** Accounting, Controlling Funds Management, Bank **integration** with DME, travel agency **integration**.
- **Cloud implementation** with AWS
- **OCM** – Communications, transformation, **organizational** changes
- Vendor **management** & Managing **Implementation** partners.
- Business engagement & expectations **management**
- **Risk management** – projects, budget, business impacts
- **Cutover** – **risk** assessment, business transition **planning**, in-transit inventory, communications, etc.
- **Lead** and coordinated data conversion teams
- Relationship **Management**
- 3rd party testing with offshore model
- Stakeholder **management**
- NEW GL Migration in S/4 HANA 1709: FI, PCA, and SL Ledger.
- Provide thought **leadership** / guidance related to SAP environments, including best practices for system availability, performance, and upgrades/patches.

SEMPRA – SoCal Gas & SDGE(Utility) (San Diego, CA)

SAP S4 HANA/Unicode (SAP IS-U) Program Manager & cutover lead Nov/16 – May/18

- SAP Business Suite on HANA Upgrade (First **Program**)
- SAP S4 HANA 1709 - IS-U, CCS, CIS, Hybris, invoicing FICA, Smart Meter (Second **Program**), COUPA(SFTP **integration**), Ariba (SLP), SAP HCM with **cloud integration**
- **Implementation** of N+1 landscape
- Fiori Applications in S/4HANA
- **Workday**, **Payroll**, T&E **cloud integration** – digital, Social, mobile, analytics (SoCal Gas)
- GRC **Implementation** with **security** and controls for SAP applications– SODs **risk analysis**

- HANA migration and **cutover**: led data conversion, migrating and re-activating objects.
- PI Upgrade for SAP systems
- BODS **implementation** for Non-SAP Systems
- Portal upgrade
- SAP Travel and Expense (SDGE)
 - Request, Plan, enter, settle, and evaluate.
 - Travel manager, **Financial** Accounting, **Payroll** Accounting, Controlling Funds **Management**, Bank **integration** with DME, travel agency **integration**.
- Legacy systems retrofit.
- Hybris (unified customer experience): revenue & billing, commerce, **cloud** for customer service and sales
 - Revenue & billing: Revenue in **cloud**, agile charging, invoicing, document **management**, consolidated billing, etc.
- Managing In-flight projects and competing priorities
- Managing challenges of working is a very lean resource pool.
- Work-stream **management**
- Managed 3rd party testing with onshore/offshore model
- OCM – Communications, transformation, **organizational** changes
- Vendor **management** & Managing **Implementation** partners.
- Business engagement & expectations **management**
- **Program** governance model
- Vendor Invoice **Management** upgrade as part of AP transformation
- Extensive testing in Plant Maintenance space because of heavy customizations
- Steering committee and Stakeholder **reporting** and **management**
- BW/BI & BPC test strategy as part of HANA Upgrade
- Suite on HANA using Database Migration Option (DMO)
- **Risk management** – projects, budget, business impacts
- Relationship **Management**
- Provide thought **leadership** / guidance related to SAP environments, including best practices for system availability, performance, and upgrades/patches.

informa (Sarasota, FL) – Program Manager & Cutover lead – M&A

S4 HANA- Global Finance Transformation, MDM, SAP Implementation Nov/15 – Nov/16

- Global **Finance** transformation: moving from local legacy systems to SAP | Moving from local process to Global processes.
- GRC **Implementation** with **security** and controls for applications – SODs **risk analysis**
- SAP BRIM: billing and revenue innovation **management** -
- Target Operating Model **Implementation**: **Organizational** capacity, Employee engagement, **Risk** mitigation, Client satisfaction, Process improvement & consolidation
- SAP processes: OTC, P2P, R2R – SAP Activate/ASAP
- SAP Travel and Expense (CONCUR) with EDI interfaces.
- SAP integrated business **planning** – S&OP, demand, etc.
- **Workday** HCM **integration**
- **OCM**: designed, build, and executed Integrated Change Plans | steerco, stakeholder, BU alignment | Business continuity plans.
- Led MDM 7.1 design and **implementation** with BPC for consolidation.
 - Consolidate master data from multiple sources into a centralized repository.
 - Cleanse, normalize, and enrich master data through **integration** with SAP Data Services
 - Synchronize master data and use global attributes to ensure the flow of consistent information.
 - Improve business process efficiency by delivering reliable master data to operational systems.
 - Support data governance through **integration** with Governance structure such as Data Owners, Process Owners, and Data Governance Processes
 - Enhance **analysis** and **reporting** through **integration** with SAP data warehouse and services software.
 - Workflow master data creation process using Winshuttle
- Governance structure such as Data Owners, Process Owners, and Data Governance Processes

- Salesforce SFDC and SAP MDM mapping integrations
- HANA Data Migration: built a DM strategy to meet Global balance sheet and P&L reconciliation requirements.
- **Lead** business adoption of purchase orders and P2P/AP transformation with the **implementation** of Vendor invoice **management** (OpenText/VIM) - AP Automation Process **implementation**.
- FSCM: SAP Treasury and **Risk Management**, Collections and disputes, SAP Credit **Management**, Biller direct
- Process role definitions for new global processes: SODs, **security** roles, GRC, etc.
- Global **implementation** including UK, EUR, Singapore, APAC, US, Brazil
- Tax systems: SYNCHRO, Vertex | SAP NFE (Nota Fiscal Eletrônica) for e-invoicing, logistics & accounting

eBay/PayPal Split Project (San Jose, CA) – reverse M&A

Finance & MDM Delivery Implementation Mgr. & Cutover (SAP)

Jan/15 – Oct/15

- **Finance** & MDM Delivery
 - Work with **Finance** Business teams in both companies (eBay & PayPal) to drive decisions on Split Strategy, legal entity, etc.

 - Build **Finance** close and reconciliations strategy and processes.
 - Drive **Finance** Business and Stakeholder decisions around split
 - Manage Business Transformation and **OCM** roadmap.
 - **Lead** MDM 7.1 **implementation** for **Finance** master data (Profit centers, cost centers, Hierarchies, GL Accounts, Roles, Employee relationships, etc.)
 - **Lead** MDM data model for **Finance** – work with **finance** and technical teams from both companies to design and implement a robust and sustainable data model.
- SAP BPC Migration
- FSCM: SAP Treasury and **Risk Management**, SAP Cash and Liquidity Management, SAP Credit **Management**
- **Lead organizational** change workstream for **Finance**: designed, build, and executed Integrated Change Plans
- **Workday HR integration**
- Peoplesoft EPM
- Salesforce CRM **integration**
- PayPal: Target Operating Model **Implementation**: **Organizational** capacity, Employee engagement, **Risk** mitigation, Process improvement & consolidation
- Process role definitions: SODs, **security** roles, GRC, etc.
- Ariba (SLP) **Integration**

United Technologies Corporation (San Diego & CT)

SAP Implementation Manager, MDM & Cutover

Mar/14 – Dec/14

- Full SAP **Implementation**: SCM, MM, PP, MES, MRP, TMS, MII, **ERP**, QM, SD, VC, FICO, Materials Handling and Selection, Handling unit **management**, Handling unit inventory **management**, Quality, Salesforce CRM **integration**
- Plan **training** and post deployment support for operating companies
- Build and manage Master data conversion strategy: drive ownership, validation and clean up.
- Data Migration strategy **lead**
- Kronos **integration** with SAP
- SAP Travel and Expense
 - Request, Plan, enter, settle, and evaluate.
 - Travel manager, **Financial** Accounting, **Payroll** Accounting, Controlling Funds **Management**, Bank **integration** with DME, travel agency **integration**.
- MDM design and **implementation**
- ECM **implementation** PM – DSDM/Agile SDLC, ITIL Processes, Best practice framework
- Plan and **lead implementation** of OpenText (Vendor Invoice **Management**, FI Output documents, T&E Documents)

- Led Business and Technical workshops in material handling system design process, selection, and configuration of equipment for material transport and storage, and other Supply Chain and material handling process.
- Designed **Finance** business processes such as Purchase Order workflows (House and Production)
- **Workday** HRMS and EPM
- Mobile Asset Maintenance: Work Order Execution (SIGGA)
- Process role definitions: SODs, **security** roles, GRC, etc.
- Define **reporting** requirements for **finance** including Profit & Loss, Balance Sheet, Flexible Client Profitability from SAP, and BW
- Globally Support business processes as they relate to the SAP modules.
- Identify and map data elements thru interfaces including IDOCs (inbound and outbound)
- **Lead** business adoption of purchase orders and P2P/AP transformation with the **implementation** of Vendor invoice **management** (OpenText/VIM)
- Work with Business Process Owners to design configuration of the business software.
- Proficient in designing and developing Business Requirement Documents (BRD), **Functional** Requirement Documents (FRD) and Requirement Traceability Matrix (RTM)
- Tax systems: SYNCHRO, Vertex | SAP NFE (Nota Fiscal Eletrônica) for e-invoicing, logistics & accounting

Becton Dickinson (San Diego & NJ) - M&A

SAP **Implementation Manager, MDM & **Cutover****

Mar/13 – Feb/14

- Full SAP **Implementation**: PP, MES, MII, SAP Plant Connectivity, TMS, QM, VC, MDM, AP, AR, GL, FI, CO, CRM, SRM, HCM, fixed assets, Forecasting, Middleware, integrations, 3rd party systems, legacy, Salesforce CRM **integration**, etc.
- Full Manufacture & SCM **implementation** – 3PL Vendor **management** with EDI interface
- MDM Master data model **implementation lead** – establishing guidelines, roles and driving ownership across business and technical teams.
- MDM 7.1 **implementation** delivery
- Target Operating Model **Implementation**: **Organizational** capacity, Employee engagement, **Risk** mitigation, **Finance** Transformation, Process improvement & consolidation
- Validation – IQ, OQ, PQ & GxP
- BPC **Implementation** with EPM
- Led Business and Technical workshops in material handling system design process, selection, and configuration of equipment for material transport and storage, and other Supply Chain and material handling process.
- Led and participated in CRM Business Process **integration**.
- Align BI strategic path with **cutover** timeline and goals.
- ECM **implementation** PM(QDMS) – DSDM/Agile SDLC, ITIL Processes, Best practice framework
- **Lead** business adoption of purchase orders and P2P/AP transformation with the **implementation** of Vendor invoice **management** (OpenText/VIM)
- Process role definitions: SODs, **security** roles, GRC, etc.
- Proficient in designing and developing Business Requirement Documents (BRD), **Functional** Requirement Documents (FRD) and Requirement Traceability Matrix (RTM)
- **Project management** methodologies and best practices – Agile, DSDM, waterfall, CPM, CCPM, ECM, Six Sigma, Scrum, RUP
- Global **implementation** including UK, France, Singapore, Brazil, China
- Tax systems: SYNCHRO, Vertex | SAP NFE (Nota Fiscal Eletrônica) for e-invoicing, logistics & accounting

Lenovo (Morrisville, NC)

BI **Implementation Project Manager & **Cutover** lead**

Jan/11 – Nov/12

- KPI identification

- KPI **analysis** and KPI **reporting** process mapping.
- BPM **Reporting**, **Integration** and Predictive and Adaptive Analytics
- BPC **planning** and forecasting KPIs(BW/BPC)
- **Financial** process reengineering and **reporting** (system and business) – Revenue recognition, Accruals, Open Item and/or Balance Forward and Cycle Billing, receivables, sales and payment accounts, GL, comparative and forecast **reporting**.
- KPI **reporting** for Cash Flow, Profits and The Cash Conversion Cycle
- actuarial modeling, asset modeling, STAT & GAAP accounting fundamentals
- Worked with **cross functional** teams on Master data and hierarchy changes to support new **reporting** requirements.
- Interview CFOs, CIOs, other related upper **management** to identify business KPI needs.
- Design, map and implement **Finance** KPIs
- SRM, CRM, BPC, BW, MDM, BO
- **Lead**, plan, manage BI and KPI **reporting** and best practice framework.
- Dashboard design and **implementation** (excelsius, Webi)
- **Lead** Line of Business **integration** into SharePoint web portal
- ECM **implementation** PM –waterfall SDLC, ITIL Processes, Best practice framework
- Business Objects universe and report modeling
- UAT, System, Unit, Regression testing
- **Cross functional** and **IT** alignment and issue resolution
- Proficient in designing and developing Business Requirement Documents (BRD), **Functional** Requirement Documents (FRD) and Requirement Traceability Matrix (RTM)

Interpublic Group (San Francisco, Seattle & NY) - M&A

Implementation Project Manager & Cutover lead

Jan/10 – Jan/11

- Deployment **Project Manager** for global SAP deployment of ad agencies
- Plan and **lead implementation** of Opentext (Vendor Invoice **Management**, FI Output documents, T&E Documents)
- Full life-cycle SAP **implementation** of SAP-ECC for MDM, AP, AR, GL, FI, CO, FMS, OMS, CRM, SRM, fixed assets, Forecasting
- Designed **Finance** business processes such as Purchase Order workflows(House and Production)
- Target Operating Model **Implementation**: **Organizational** capacity, Employee engagement, **Risk** mitigation, Client satisfaction, Process improvement & consolidation
- Process role definitions: SODs, **security** roles, GRC, etc.
- Define **reporting** requirements for **finance** including Profit & Loss, Balance Sheet, Flexible Client Profitability from SAP, and BW
- Globally Support business processes as they relate to the SAP modules.
- Identify and map data elements thru interfaces including IDOCs (inbound and outbound)
- Digital Asset **Management** (DAM)
- Design and plan upstream and downstream transactional data flows including travel and expense and Capital **Management** Systems
- Work with Business Process Owners to design configuration of the business software.
- Proficient in designing and developing Business Requirement Documents (BRD), **Functional** Requirement Documents (FRD) and Requirement Traceability Matrix (RTM)

Johnson & Johnson – Cordis (NJ)

Project Manager & SAP Implementation Cutover lead

Nov/07 – Jan/10

- Full SAP **Implementation**: PP, MES, **ERP**, FICO, QM, VC, BW/BI, Middleware, integrations, 3rd party systems, legacy, etc.
- Led MDM design and **implementation**.
- Responsible for **project** support including **analysis**/requirements, **project** scope documents, business process design.
- Manage **Project** global deployment **project** plans, timelines, and deliverables.

- New full life-cycle SAP **implementation** of SAP-ECC for SRM, MM, SD, HCM, FI, CO, FSCM, CRM, SRM, SCM with additional future implementations
- MDM conversion and tools deployment including validation & cleanup.
- Governance structure such as Data Owners, Process Owners, and Data Governance Processes
- Validation – IQ, OQ, PQ & GxP
- Define, document, and implement work procedures, standards, and methods.
- Globally Support business processes as they relate to the SAP modules.
- Provide SAP **functional** support.
- Plan and **lead implementation** of OpenText (Vendor Invoice **Management**, FI Output documents, T&E Documents)
- SDLC – Fully customized applications (SAP and 3rd party) and interfaces(EDI)
- Software product/**project management** with understanding of product lifecycle from inception through delivery and post-delivery support
- SAP NetWeaver – primarily for data unification, process **integration** and BI **management**
- Define, document, and implement work procedures, standards, and methods for upstream and downstream systems.
- Work with other Business Analysts globally to develop best practices around the **integration** and deployment of SAP applications within existing architectures in a multi-international site environment.
- SAP SRM - Vendor and Material Master data / SAP SRM – Purchasing
- **Functional** Specification **development** (WRICEF)
- Business process procedure **development** (BPP) /Business Process Requirement **development** (BPR)
- Design, configuration and **troubleshooting** of SAP SRM objects.
- SAP design blueprint, build of configuration and testing of the solution.
- Plan, manage and execute Unit test, **Integration** tests and User Acceptance tests.
- Determine the business needs of application users and map to a process design document (flows and definitions)
- Analyze potential gaps and recommend configuration and non-configuration solutions.
- **Integration** SAP MM/**Finance** – Source Lists / Pricing configuration, AP processes, matching, etc.
- Legacy **Integration**
- **Integration** Testing Manager Cut-Over **Planning** and Execution
- Process modeling, system **analysis**, driving use case, process flow **development** and **documentation**.
- actuarial modeling, asset modeling, STAT & GAAP accounting
- Microsoft SharePoint services - **implementation**
- Work with Business Process Owners to design configuration of the business software.
- Work with **development** team to design reports, interfaces, custom programs
- Participated in full life-cycle Data Warehouse activities, including defining **project** roles and responsibilities, detailing **project** plans and milestones, requirements gathering and specification, logical and physical database design (both relational and dimensional), data flow design and capacity **planning**, ETL design and **development**, **reporting** requirements specification, and **implementation** / ongoing support tasks.
- Configure SAP **Finance** and Controlling modules, GL, AR, AP, Accounting, Fixed Assets, Special Ledgers
- SAP **Security** Models in all modules including **Finance**.
- **Integration** and system testing
- Create and implement new business processes and improve existing.
- Software product/**project management** with understanding of product lifecycle from inception through delivery and post-delivery support
- Researched, Analyzed and Documented Business Requirements
- Support quality assurance reviews of SOX **management** testing and process **documentation** for both business process and technology controls upon the completion of each testing phase; document and report results; resolve issues with respective testing team.

SAP Business Analyst/SAP Project Manager

Jan /97 – Nov /07

IBM (TSS) AIG, Mitsubishi, Citibank and Goldman Sachs, Chevy Chase Bank, Anadarko Petroleum Corporation, Kraft/Nabisco, Anthem Blue Cross/Blue Shield, Franklin Templeton Investments, Sisters of Mercy Healthcare System/Hospital, Visa International, Aventis Pharmaceuticals
