PROFESSIONAL EXPERIENCE:

January 2021 –

Cloud Solutions Azure/Intune Engineer

Pax 8

Denver, CO

- Responsible for designing architecture for IaaS Virtual Machines and PaaS SQL Managed Instances – Helping our partners create a stable infrastructure for the appropriate workloads and performance goals, while parsing security concerns.
- Lead consultation meetings for Partners regarding configuring and maintaining various endpoint and mobile devices which include Windows PCs, Ios, Androids, and Mac Os. Meetings included best practices for creating Device Configurations and Compliance Policies through Intune, step by step guides for Autopilot Deployments, explain integration through Tokens to Apple Business Manager and Managed Google Play, teach how to configure Conditional Access Policies to correlate with Compliant Devices, explain how to deploy applications with added security with application protection policies and more.
- Managed multiple client environments which consists of creating and managing virtual machines, migrations from VMware to Azure, and managing backups using Azure Site Recovery Services and Replication through the MARS Mobility Agent.
- Provided Multi-tiered support including Windows Cloud PCs (Business and Enterprise), Azure Virtual Desktop (AVD), Network Security Group and Virtual Networks, Virtual Network Gateways for VPN, Intune Joined and Hybrid-Joined devices, and more for IT Managed Services Provider Partners.
- Responsible for creating, managing, and updating online technical content; including internal knowledge base articles, documentation and tutorial videos for several Technologies which include Intune, Microsoft Defender for Endpoint, Azure Virtual Desktop (AVD), Microsoft Entra Domain Services (formerly ADDS), Azure Site Recovery, and more.
- Managed internal company sandbox, creating Logic Applications and Azure Policies to automate deallocating unused resources by the end of the day to keep cost management organized and under budget.

December 2019 – March 2020

Cloud Solutions Engineer

Thrive Technologies

Columbia, MD

- Provided Multi-tiered support for an IT Managed Services Provider.
