Sustainability & ESG Data Consultant

Environmental, Social & Governance (ESG) | Data Analysis | Project Management

Dedicated Sustainability & ESG Data Consultant specializing in the convergence of Sustainability, ESG, and Geospatial Data Technology. Proficient in guiding organizations to navigate the intricate landscape of Climate Change and Environmental, Social, and Governance (ESG) challenges. Armed with a robust blend of technical expertise, data analytical proficiency, deep industry insight, and commitment to delivering cutting-edge ESG solutions that empower clients in diverse sectors to progress in their sustainability journey.

CORE COMPETENCIES:

Sustainability | Climate Change | Environmental, Social & Governance (ESG) | Materiality Assessment | Greenhouse Gas (GHG) assessments | Data Analysis | Data Visualization | Agile Methodologies | Scrum | Geospatial Data Analysis | Project Management | Leadership | Cross-Collaboration | Team Management | Stakeholder Management

TECHNOLOGIES:

Microsoft Cloud for Sustainability | Microsoft Power Apps | Azure Platform | Python (Pandas, Numpy, GeoPandas, Matplotlib, Scikit Learn) | Java | SQL | GitHub | AWS | Power BI | Tableau | ArcGIS Desktop | ArcGIS Pro | ArcGIS Workflow Manager

PROFESSIONAL EXPERIENCE

Ernst and Young LLP

01/2023 - 01/2024

Sustainability & ESG Data Consultant

- Supported clients in designing, developing, and implementing data collection, transformation, and data integration to create, coordinate, and deploy data and analytical solutions aligned with their strategic objectives around sustainability solutions.
- Assisted clients in their Greenhouse Gas (GHG) assessments, facilitating the development and execution of tailored sustainability / ESG data strategies to support their emission reduction goals.
- Partnered with cross-functional teams to re-evaluate clients' business requirements and solution designs to identify clients' specific ESG data needs and influence project artifacts.
- Acted as a Scrum Master of a custom data foundation for a Sustainability Data Operational Data Store (ODS) reporting project using Azure and Power BI technologies. Supervised a backlog of 100+ user stories and ensured project success through 50+ client-facing interactions.
- Staying current on emerging sustainability trends and regulations; researched Corporate Sustainability Reporting Directive (CSRD) regulations for the ESG technology consulting team.
 - Conducted training sessions to educate the team on new EU regulations relevant to the industry while overseeing a team of 2, researching new regulations using EY and external content sources.
- Consolidated and integrated sustainability engagements in the Oil & Gas sector, aiding executive leadership in crafting an extensive suite of Go-To-Market offerings for Low Carbon Solutions and introduced Energy Transition & Decarbonization (ET&D) and Sustainability Pathways solutions.
 - Collaborated with the Knowledge Management team to create a content repository within Discover (EY's Knowledge Repository hub) for the ET&D solution, developing baseline content for the solution.

Georgia Department of Transportation

01/2018 - 12/2022

Geospatial Data Analyst

- Spearheaded and supervised a proficient data **analysis** team maintaining the official State of Georgia's Roads and Highway relational **database**.
- Formulated and executed **SQL** queries to streamline day-to-day **geospatial** data **management**, encompassing data acquisition, **quality assurance**, and **quality** control, resulting in a 40% increase in productivity.
- Applied data analytics expertise to reevaluate business results and scenarios, effectively contributing to problem-solving with a robust combination of data and subject matter knowledge across various domains.
- Partnered with The Office of Sustainable Innovative Delivery and the University of Georgia to research, strategize, and propose meaningful future sustainable projects.
- Collaborated with the **IT** department to formulate product upgrades and architectures for new offerings, enhancing process efficiency and elevating data **quality**.
- Excelled in Talent **Management** by recruiting, training, engaging, and mentoring junior data professionals, leading to a substantial 30% increase in employee retention.

Sahara Motor Liners LLC

01/2014 - 01/2018

Logistic Data Analyst

- Conducted **transportation** data analytics and cost research **analysis** to enhance understanding, predict, and optimize logistics operations and various business processes.
- Implemented a centralized route **management database system**, resulting in a 35% increase in operational efficiency, bolstering stakeholder satisfaction.
- Reviewed and analyzed **transportation** costs, parts procurement, and delivery processes, reducing company overheads and a notable increase in overall revenue.
- Showcased expertise in talent **management** by hiring, training, engaging, and retaining high-performing employees, resulting in a 60% improvement in employee retention.

Photo Science Inc.

03/2010 - 12/2013

Geospatial Data Specialist

- Managed and enhanced the **spatial** electric transmission **database** for Georgia Transmission Corporation (GTC).
- Automated **mapping** workflows and data **management** tasks using **ArcGIS** Model Builder and **Python** scripts.
- Created various data visualization products and data reports using **ArcGIS**, **SQL**, and Excel for GTC stakeholders and leadership.
- Offered data analytical **support** to multiple GTC departments and **IT**, contributing to the design, **implementation**, and maintenance of enterprise **mapping** solutions.
- Liaised with GTC's **Systems** Reliability department to establish geodatabase maintenance and **quality assurance** procedures for standard facilities maintenance.
- Contributed as a key GTC's Disaster Response Plan Team member, providing critical data visualization **support** and accuracy.

EDUCATION & PROFESSIONAL DEVELOPMENT**Bachelor of Science in Geographic Information Science** | Kennesaw State University**Certification in Information Technology** | Kennesaw State University
