(425) 370-8296 | biraampally@gmail.com | <https://www.linkedin.com/in/hasinii-biraampally-3b9494291/>

EDUCATION

Master of Science in Computer Science

Dec 2023

University of Dayton, Dayton, OH

- Relevant Course work: Data Science-Pattern Recognition, Database Management, Advanced Programming & Data String-Python, Algorithm Design, Software Project Management, System Analysis, Web Semantics, Cyber Security.

Bachelor of Technology in Computer Science

May 2020

JNTU - TKR College of Engineering & Technology, Hyderabad, India

- Relevant Course work: Data Science, Python, Data Structures, Object Oriented Programming (OOP), Computer Networks, Operating Systems, Probability & Statistics, Mathematics, DevOps, Data Mining, Data Warehousing, Ad-hoc, Machine Learning, Deep Learning, Data Analytics, Natural Language Processing.

WORK EXPERIENCE

Machine Learning Engineer, Netrovert Solutions, New York, NY

April 2024 - Present

- Revolutionized Customer Service with AI: Leading the process of introducing AI innovations with the help of employing deep neural networks improving productivity by 30%.
- Optimized AI Models for Peak Performance: Investigated ML and NLP to enhance the refinement of the AI models which in return recurrent errors reduced by 25% more accurate by 20%.
- Delivered High-Impact AI Solutions: Employed high-level languages such as Python, TensorFlow, and PyTorch to develop, deploy and enhance various Large-scale Machine Learning models for more than 3 important projects. These solutions resulted in an increase of the performance by 40% and in the escalation of the customer satisfaction KPIs by 15%.

Data Analyst (Adobe & Google), Capgemini, Hyderabad, India

May 2021 - Feb 2024

- Enhanced Data-Driven Decision Making: Designed and performed 57 analytic solutions in SQL, Excel, Mail to cater organizational targets and goals. These improvements were obtained due to the resolution of various data quality problems and the enhancement of the processes used for data acquisition, with the across-the-board relevance of collected Table II analytics to the customer KPIs and industry standards boosted by 34%.
- Streamlined Analytics Processes: Delivered and documented 120+ expert business solutions by using statistic tools, Tableau and some other effective data visualization methods. Such actions remained reflected and provided efficiency of enhancing data accuracy and consistency by 25%.
- Accelerated Insights and Forecasting: Preparation of reports through automation in order to generate more than 200 reports on a monthly basis by using Excel, MS SQL, and Python. 9 sets of big data had 38 significant data patterns, and trends, resulting in enhancing the accurate forecast and strategic decision by 19%.

Web Analytics Developer, Capgemini, Hyderabad, India

March 2020 - April 2021

- Enhanced Data Accuracy and Platform Strength: Used clear Adobe Analytics coding and performed thorough RYA to guarantee that data accuracy and the platform function at their best.
- Optimized E-commerce Performance: Applied complex Web analytics and Web development strategies for the substantial increase in ratios of e-Commerce sales and their conversion.
- Empowered Data-Driven Decision Making: Created sophisticated dashboards and reports with practical solutions as the result of which decided-making has increased up to 20% and business results are better.

INTERSHIPS

Software Engineer, Govt. of India

Jan 2019 - May 2020

Defense Research & Development Organization-Defense Research & Development Laboratory, Hyderabad, India

Project : "Diligence of Simulated Messages to cognize receiver's conduct" with the introduction of third parties..

TECHNICAL SKILLS

- Programming Languages: Python, SQL, NoSQL.
- Web Technologies: HTML, CSS, JavaScript, Flask, Django.
- Tools: R Studio, Git, Microsoft Graph API, Boto3, Docker, Power Automate.
- Frameworks & Database: Hadoop, Node.js, PostgreSQL, MySQL, Amazon Aurora.
- Visualization Tools: Adobe Analytics Platform, Power BI, Tableau, Sisense, Looker Studio.
- Other Tools: Plotly, Matplotlib, Seaborn, ggplot 2, Shiny, Grafana.
- Machine Learning Libraries: Familiarity with scikit-learn.
- Cloud Computing Tools: AWS(EC2, S3, Lambda), Azure, Docker, Microservices, Kubernetes, CI/CD, Cloud Formation, Terraform.

PROFESSIONAL SUMMARY

- Experience in programming and data manipulation using Python, SQL, professional knowledge, data analyst, and machine learning engineer.
- Proper understanding of other more advanced techniques like deep learning and natural language processing is necessary in order to arrive at useful conclusions and help organizations improve their performance. aka the organization used to develop and apply AI in customer service,

search, and forecasting in a large organization.

Work Preferences

- Desired Work Settings: Remote or On-Site or Hybrid
- Likely to Switch: True
- Willing to Relocate: True
- Travel Preference: 75%
- Preferred Location:
 - Minneapolis, MN, US

- Chicago, IL, US
 - New York, NY, US
- Work Authorization:
 - US
- Work Documents:
 - Employment Auth. Document
- Security Clearance: False
- Desired Hourly Rate: 48+ (USD)
- Desired Salary: 100,000+ (USD)
- Third Party: False
- Employment Type:
 - Full-time
 - Contract - Corp-to-Corp
 - Contract - Independent
 - Contract - W2
 - Contract to Hire - Corp-to-Corp
 - Contract to Hire - Independent
 - Contract to Hire - W2
 - Internship
