PROFILE

I have over 17 years of experience modifying legacy **IBM mainframe** assembly language programs.

EXPERIENCE

SOFTWARE DEVELOPER II, VENTURE SOLUTIONS - 2017 - PRESENT

Taylor provides full service statement printing to the financial and healthcare industries. As a **Software Developer** my primary responsibility is to provide support to the **IBM HLASM VSE** environment. I **design**, code, test and provide support to our customers statement processing needs.

SOFTWARE ENGINEER II, CSG INTERNATIONAL, OMAHA, NE. - 2014 - 2017

CSG provides full cycle accounting, equipment and service **management** for the cable and satellite telecommunication industry. As a **Software Engineer** my primary responsibility is to provide support to the **IBM HLASM CICS** environment. I also support batch **COBOL** as required. My training at CSG includes SQL **/DB2**, **ISPL**, **AGILE**, **SAFE**, **DEV-OPS** and test **automation**. My test **automation** includes **C#** - **.NET** / **Specflow** / **Gherkin** training.

OWNER - TECHNICIAN, ROGER PIERCE MUSIC - 2005 - 2014

As the owner of Roger Pierce Music I provide a high **quality** facility for the repair of brass, woodwind and string musical instruments. This includes all aspects of small business operations from customer support through tax accounting. I also teach music theory, piano and flute to students of all ages and experience levels.

SR. SOFTWARE DEVELOPER, PITNEY BOWES, LISLE, IL. — 1995-2005

As a **Sr. Software Developer** I was the team leader responsible for the full cycle development and maintenance of the proprietary database used by the **mainframe** postal **software** coding product FINALIST. The database was coded in **IBM** System 370 assembly language using a **VSAM** RRR hierarchical structure.

I also have several years of experience as a business analyst. This position was the main development contact point with the CASS department of the United States Postal Service. I was responsible for producing high and low level documentation, schedules and milestones required to assure product compliance to all current postal regulations.

I have received Six Sigma training and have served on the disaster recovery team. The disaster recovery team produced all of the documentation and procedures necessary to re-establish the Lisle IL. development facility should a catastrophic event occur.

I was also actively involved in rewriting FINALIST during the conversion from the **IBM** assembly language version of the product to a C language version.
