PROFESSIONAL SUMMARY

Insightful **geospatial** analyst proficient in data **analysis** and cartographic presentation. Seeks to leverage leadership and public speaking skills to communicate innovative GIS objectives to potential clients.

EDUCATION

Bachelor of **Science** In **Geospatial Science** w/
concentration in Land Surveying & GIS
Certification (2022)
Kennesaw State University, Kennesaw, GA

TECHNICAL SKILLS/RELEVANT COURSEWORK

- **ArcGIS** Suite
- ArcPy
- **ArcGIS** Model Builder
- **ArcGIS** Pro
- Trimble Business Center
- Global Mapper
- **Python**
- **FME**
- **Database Management**
- Cartography
- Public Speaking
- **Spatial/Data Analysis**

PROFESSIONAL EXPERIENCE

Southeastern Engineering, Marietta, GA (May 2022 – Current)

GIS/LiDAR Analyst

- Manually classify LiDAR point cloud data within Global Mapper to generate the 'ground' in preparation for break-**line** and feature extraction.
- Draft 3D break-lines, curb, gutter, and stream/drainage **line** polylines, as appropriate, using 3D point cloud and photogrammetric ortho data.
- Georectify drone-collected aerial ortho images in preparation for future **analysis**.
- Research, download, edit, and produce map vector layers such as 2D Polygons and 3D Contours via **ArcMap**

Newton County GIS, Newton, GA (Jan. 2022 – April 2022)

GIS Intern

- Curated presentations for various departments to display the efficacy of LiDAR Point Cloud data and its range of **applications**.
- Assist in geocoding over 100 county addresses to add to the necessary geodatabases.
- Led research into creating workflows in **FME**/Arcpy for automating raster generation of the departments 200+ point cloud files to increase the efficiency of generating 3D building footprints and stream data.

Lowe Engineering, Atlanta, GA (May 2020 – Jul. 2020)

Survey Technician (Intern)

- Scanned structures for 3D-model renderings using Leica 3D scanners and total station.
- Operated survey instruments to collect and/or distribute survey data (robotic total station, data collector, level).
- Transmitted survey data to **computer** network and extracted data for field use.
- Searched for previous survey points, property pins, and control markers using existing property plats and land lot data.

ACADEMIC MEMBERSHIP AND EXPERIENCE

Georgia **Geospatial** Society
American Society of Photogrammetry and Remote Sensing (ASPRS)
Conducted Direct Applied Research with Professional Staff at Kennesaw State

SABIEN LINDO

- Acworth, GA, US
