## SUMMARY OF QUALIFICATION

My career began in 1984 at the leading ERP **software** company INFOR formally (MSA/GEAC). In 1986, I became a technical **software** consultant, implementing and managing complexed MVS installation of multiple COTS and ISV **software** for Fortune 500 Company's onsite and on customized **IBM** systems.

15 Years of hands-on experience as employee and consultant 1986 - 2001

- Extensive knowledge of **CICS**, **JCL**, SQL, **DB2**, **VSAM**, TSO/ISPF, **COBOL** and **IBM** utilities
- Compile, assemble, and linking programs to create executable code.
- **Mainframe security** RACF, zSecure, ACF2 for **security** requirements
- Configured and managed ISV **CICS** system and maintained FCT, PCT, and PPT entries.
- **IBM** file structures sequential, PDS library, **VSAM**, IMS, and **DB2**, Unix, Storage, DASD, backups
- Integrated, tested, setup complexed Systems that evolved over time on other platforms.
- Trained, consulted, and reviewed **mainframe** systems with customers IT teams and stakeholders.
- Implemented and supported IBMs HOD, **WebSphere**, liberty, HATS, IDZ, ZOWE, ISPW, Z/connect, FTPS, Direct Connect applications print servers through the web
- Created certificates, macros for HOD automation

Since 2001, I have managed systems in various roles as:

- System Administrator(**mid-level**) configure and support **mainframe** environment
- **CICS** Programmer: Install, and maintain **CICS** applications, LPARS, regions
- Application Programmer: maintain applications, in-house systems
- Operations: Monitor **mainframe** console, batch process, **CA-7**, 11 tools.
- **Mainframe security** as
  - **Administrator** - My focus was RACF only managing **user** access, permissions, day to day.

- **Engineer** – overall **mainframe security** architecture, (z/OS), hardware, and **software**, zSecure, ACF2, Top Secret.

## Technical Skills and Tools

- Programming Languages: **COBOL**, Assembler, Java
- **Mainframe** Technologies: z/OS, z/VM, z/VSE, **CICS**, **VSAM**, IMS, IDMS, **DB2**, SYSPLEX, ICF, HCD, LPARS, USS (UNIX Systems Services)
- Job Control and **Scripting**: **JCL**, REXX, CLIST, SAS, cARLA,
- System **Management**: ISPF, SDSF, Z/OSMF, TSO, SAS, SMF/RMF, CONTROL-M & D, MainView, NETVIEW
- **Security** and Access Control: RACF, zSecure, ACF2, Top Secret, Vanguard Administrator
- Development Tools: **IBM** HOD, HATS, **WebSphere**, RAD, IDz, Visual Studio, z/OS Explorer, Zowe, Eclipse IDE
- Utilities and Tools: DFSORT, IEBGENER, IDCAMS, DFHSM, DFSMS, DFDSS, FDR/ABR, TLMS, **CA-7**, **CA-11**, ZEKE, AUTOSYS, Abend-AID, TSO TEST, Change Man, ServiceNow, Remedy
- Network **Management**: VTAM, TCP/IP
- Financial Systems: INFOR, GEAC, PeopleSoft GL, AP, HR, Tyler Munis GL, AP, Lawson HR, GL, AP, AR, PS, Misys Loan IQ

## EMPLOYMENT HISTORY

### Peraton (Apr 2017 – Oct 4, 2024)

#### Senior **Mainframe Security Engineer** at US Postal Services (USPS) ETS Eagan, Minnesota

- Sr. **mainframe security engineer** of for over 80,000 users on **IBM** Z15, z/OS V2R5, plus multiple 3rd party ISV systems, COTS, in-house, and integrated applications, UNIX,
- Developed and maintained report and extract files using zSecure Carla, REXX, SAS, **JCL**.
- Created reports for audits (SOX, PCI, and PII) and led daily meetings with team members to discuss **security** requirements and incident responses with ServiceNow.
- Set up new ISV applications and worked with developers groups to implement **security** requirements.
- Reviewed production, maintenance, and application interfaces with Z/OS platforms to ensure **security** and compliance.
- Provided technical support for production incidents and outages related to RACF applications, and offered technical services to USPS on various non-**security** issues due to resource constraints.
- Utilized extensive knowledge of **COBOL**, **CICS**, **JCL**, SQL, **DB2**, **VSAM**, FILE AID TSO/ISPF, and **IBM** utilities to analyze and resolve application and **user**-related problems.
- Setup HTTP and web servers, USS files, new tasks, services in test environment
- Utilized zSecure Access Monitor, C2Police, splunk, access with C2-Police modifications, and performed database verification for z/OS upgrades and disaster recovery activities from a **security** perspective.
- Experience with z/OSMF V2.5 dashboard to manage, monitor, **IBM** system, create workflows, plug-in **security**, automation upgrade actions, SMP/E capabilities.
- Knowledgeable on cloud and upgrade z/OS to v3.1 with z/OSMF.

### Tata Consultancy Services (TCS America) (Oct 2014 – Mar 2017)

#### Senior RACF **Mainframe** Consultant at State Farm - Corporate South Bloomington, Illinois **Mainframe RACF Security** Consultant
