PROFESSIONAL EXPERIENCE

META, INC. (Facebook), Austin, TX

2020-7/2023

Global Payment Experience Lead for Monetization, 1/2022 - 7/2023

Directed comprehensive strategy to drive consistent support experience across multiple teams supporting 18M+ active monthly payment users, 350M pay-in and pay-out transactions, and \$2B in annual revenue; while managing to a flat OpEx (\$100M) for 2021 and 2022, then a 26% OpEx reduction in 2023 while active payment users increased >40%.

- Built and led 'global payment operations' team responsible for design and execution of support for a financial technology suite that grew from 7 to 18 products for Facebook, Instagram, and WhatsApp global creators.
- Managed operational compliance with payment regulations for money licensing/processing in US, EMEA, APAC, and South American exceeding OKRs, maintaining support health as demand grew 200% YoY and OpEx reduced 26%.
- Grew team from 4 to 14, added 250 contractors, to manage launches, run the business, and maturity projects simultaneously; supported 56.9K% (500K vs. 285M) creator growth, onboarding 284M new creators in 2022.
- Directed team to develop Creator Support Plan, standardizing UX as program expanded; evangelized initiative, holding 3-day summit to align/prioritize process improvement efforts with stakeholders (product, policy, legal, tax, tech, + 5 support teams), align project roadmaps and resource the Support Plan, while identifying CapEx projects.
- Championed standardization of support for case movement and overhauled related processes across 5 teams to drive consistent experience, reducing resolution times from >14 days to <24 hours; reduced duplicate tickets by 48% saving \$2M OpEx annually.
- Led CapEx initiatives to overhaul our agent tools to support externalizing agents to save \$5M OpEx annually, while adding functionality to enable AI and ML automation with contextual help to successfully resolve 41% of cases. Shared this work with other teams to drive a \$100M annual OpEx savings across 5 support teams.

Global Commerce Sr. Manager, Payments Experience, 4/2020 - 12/2021

Led program supporting \$4B in annual revenue with 80% year-over-year growth within SLAs despite OpEx constraints. Scaled team of 6 into globally dispersed team of 14 FTE and 400 agents over 2 years supporting C2C and B2C. Led creation of ML and AI driven support as CapEx investment to reduce cost per contact to \$4 (lowest in all Meta's >60 support teams) responsible for 61% successful resolution on first contact.

- Collaborated with UX, product, development, and engineering to improve global payment journeys for Marketplace (C2C) / Shops (B2C) on Facebook and Instagram to optimize support budgets saving \$12M OpEx annually.
- Managed customer journey process improvements for payments, collaborating with BI experts to identify performance challenges; reduced resolution time for top contact reasons from 14 to 5 days.
- Conducted capacity planning in conjunction with Accenture to streamline staffing strategy; achieved 95% forecasting accuracy, driving greater overall satisfaction to bolster customer loyalty and OKR adherence.
- Produced monthly Voice of the Customer (VoC) reports by consolidating insights from 5 support teams with impact and resolution proposals; prioritized action items based on organizational impact, partnered with tech and product to implement the initiatives and measure impact on CSAT, NPS, OKRs, and cost.
- Led CapEx project to launch chat for C2C and B2C to scale support within OpEx by enabling agents to handle 3 interactions concurrently instead of 1.

AMAZON.COM, INC., Seattle, WA

2019-2020

Program Manager, Worldwide Product Compliance

Managed worldwide return rate reduction goal for 3rd party sellers on Amazon.com. Partnered with international teams to launch campaigns and mechanisms for reducing preventable returns resulting in \$13M annual reduction.

- Launched Voice of the Customer tools for Sellers, compiling data related to trends showcasing key return drivers empowering sellers to self-service actions to reduce preventable returns flattening return rate growth as sales grew.
- Enabled feedback tools identifying improvements to the product/service roadmaps reducing cost per contact 3%.
- Piloted beta testing initiative to engage top category sellers that exhibited above-average performance; chose firms to participate in usage of new tools to determine best **systems** for optimization of performance before global rollouts to improve product market fit and resource requirements for support teams.
- Eliminated costly return-rate growth related to Apparel; played a key role in the campaign to replace Amazon's generic size charts worldwide, yielding \$16M annual savings in global shipping expenses and labor.

TOTAL WINE & MORE, Bethesda, MD

2013-2018

Customer Experience, Director, 2016-2018

Managed \$2M+ OpEx budget, leading local/remote staff, and vendors to build and capture a program to benchmark and improve the digital and in-store Customer Experience. Led CapEx projects that implemented a CRM **system** integrated with inventory, loyalty, and transaction data to provide sales and service teams with 360 view of customers to provide a white glove experience with product recommendations adding \$1M in web sales, while reducing headcount growth 14% YoY.

- Spearheaded project to track negative interactions, tracing revenue directly to customer satisfaction, capturing 60% more information (in-store, voice, email, social), implementing **system** company-wide.
- Improved store pickup **system** to prevent local product shortages; identified need for faster fulfillment and better shopping cart visibility, resulting in increased revenue of \$1.5M annually.

Customer Experience, Sr. Manager, 2013 - 2016

Built scalable, omni-channel contact centers (corporate/remote) to support rapidly evolving ecommerce business. Set hiring standards for staff and implemented time saving on-boarding technology. Crafted soft-skills education program, developing standard operating procedures (SOPs) and computer-based trainings (CBTs).

- Planned strategic headcount increase of 25% (half of original forecast); created new hierarchy and set quality assurance guidelines, mentoring staff, and promoting internally to drive staff retention.
- Reduced service interactions 30%, saving \$200K OpEx annually; automated order updates, implemented customer self-service tools, monitored fulfillment processes, and improved workforce planning.
- Provided customer insights to digitize sales platform for elevated conversion rate; new initiative contributed to 600% increase in online revenue over a 5-year period.
- Drove 17% increase in 'first contact resolution' rate, leveraging VoC program to drive significant decreases in customer rescues; yielded corresponding increases of 3% in Net Promoter Score (NPS)
- Led CapEx project that replaced SaaS contact center software, saving \$40K OpEx over 24 months.

EBAGS LLC, Denver, CO

2008-2013

Customer Acquisition, Online Marketing Manager

Manager, Partner Operations / Supervisor of Customer Care

Held various roles focused on customer acquisition and retention. Took charge of \$6M marketing channel, managing affiliate marketing initiatives. Defined best practices for escalating customer issues and preventing future challenges; instituted numerous policies and procedures, improving customer satisfaction, and contributing to 17% growth.
