

ARUNA KUMARI (Mainframe Developer)

Email: arunakumariaramadaka@gmail.com

Phone: +1 (770) 361-7947 | Atlanta, GA

Professional Summary:

- Senior Software Engineer with 4+ years of experience in designing, developing, testing, and implementing enterprise-level mainframe applications across the banking and financial services domain.
- Extensive hands-on expertise in COBOL, DB2, CICS, JCL, and Assembler, with a deep understanding of z/OS architecture, batch processing, system integration, and job scheduling.
- Strong background in modernizing legacy systems, optimizing CICS transactions, and enhancing DB2 query performance to improve efficiency and reduce processing times.
- Proven track record in analyzing, troubleshooting, and resolving production issues, ensuring continuous system availability and minimizing downtime in mission-critical environments.
- Designed and optimized batch and online applications, implementing enhancements that improved data processing, transaction handling, and overall system performance.
- Proficient in utilizing IBM utilities (DFSORT, ICETOOL, IDCAMS, IEBGENER) for data manipulation, automation, and job execution.

- Experienced in full **Software Development Life Cycle (SDLC)**, including requirement **analysis**, **development**, **testing**, **debugging**, **deployment**, **documentation**, and **production** support.
- Adept at working in **cross-functional teams**, collaborating with **QA**, **business analysts**, **infrastructure teams**, and **external system teams** to ensure smooth implementation and seamless **integration**.
- **Strong problem-solving skills**, capable of identifying system bottlenecks and implementing innovative solutions to **enhance application efficiency and maintainability**.
- Proficient in **version control** tools like **ENDEVOR**, ensuring structured **code management**, **deployment** automation, and rollback procedures.
- Passionate about **adopting new technologies**, streamlining workflows, and continuously improving **legacy system performance** to align with industry best practices
- **Led performance tuning initiatives** for **batch jobs and CICS applications**, reducing execution time and optimizing system resources for high-volume transaction processing.

Technical Skills:

Programming Languages	COBOL , JCL , CICS, Assembler
Database Management	RDBMS - DB2 , HDMS – IMS DB
Operating Systems	z/OS, MVS
Tools & Utilities	TSO/ISPF, IBM Utilities, Endeavor, DFSORT, OPC Scheduler

Development Methodologies	Agile Methodology
---------------------------	-------------------

Professional Experience:

Bank of America

Designation: Mainframe Developer
2022

July 2018 - July

Project Description:

Assets Management Financial System (AMFS) is a set of applications dealing with enabling the banking features for the wealth banking customers. This system includes process like Initialize, Money Transfer, Settlement and Disputes. This system takes care of all the banking transactions of the client and then nets its out to update the CMA database.

Roles and Responsibilities:

- Developed and maintained batch and online COBOL applications on z/OS, ensuring efficiency in transaction processing.
- Designed and optimized DB2 programs, modifying existing COBOL applications to align with evolving business needs.
- Implemented and enhanced JCL scripts to automate batch job execution, reducing manual interventions.
- Worked extensively with IBM utilities (DFSORT, ICETOOL, IEBGENER, IDCAMS) to handle data transformations, file manipulations, and job scheduling.

- Collaborated with cross-functional teams to analyze requirements, address system improvements, and deliver enhancements within deadlines.
- Conducted comprehensive system testing to validate new features, ensuring production readiness.
- Utilized CICS and IMS for managing online transactions, improving system reliability and response time.
- Leveraged version control tools like ENDEVOR for structured deployment and production rollouts.
- Worked with TSO and SPUFI, enabling efficient debugging and database management.

Technology Stack: COBOL, DB2, CICS, IMS, VSAM, JCL, OS/MVS

Education:

- Bachelor's degree in Information Technology - 2018

Aruna Kumari

- Dawsonville, GA, US

Work History

Total Work Experience: 3 years

- **Mainframe Developer** Lorvish Technologies
Jul 01, 2022

Skills

- **cics** - 6 years
- **cobol** - 6 years
- **ibm db2** - 6 years
- **ibm mainframe** - 6 years
- **jcl** - 6 years

Work Preferences

- Desired Work Settings: Hybrid or Remote
- Likely to Switch: True
- Willing to Relocate: True
- Travel Preference: 100%
- Work Authorization:
 - US
- Work Documents:
 - Employment Auth. Document
- Security Clearance: False
- Desired Hourly Rate: 60+ (USD)

- Desired Salary: 120,000+ (USD)
- Third Party: False
- Employment Type:
 - Part-time
 - Contract - Corp-to-Corp
 - Contract to Hire - Corp-to-Corp
