PROFESSIONAL SUMMARY

Objective: Seeking a challenging position in the data science and AI/ML fields

Authorized to work in the US for any employer

WORK EXPERIENCE

-- Founder and CEO

****SigData.ai**** - Shorewood, MN

* April 2024 to Present*

- * Created AI content system that automates the creation of YouTube, TikTok and other instructional videos
- * Designed a stand-alone reporting system based of various open source Javascript charting libraries
- * Provided financial modeling support, real-time alerting, social media arbitrage analysis, and an algorithm trading POC for a venture backed broker dealer

-- VP of Data Engineering

****Blueprint Prep**** - Manhattan Beach, CA

* September 2020 to April 2024*

- * Designed ML prediction algorithm to predict students performance on LSAT and MCAT
- * Managed a team of 7 database engineers/developers
- * Directed and created data lake ETLs, reporting layers, and reverse-ETL applications
- * Created a RAG based content creation tool based on internal/external texts and knowledge graphs
- * Designed social media monitoring tools that tracked brand references on Reddit, Google, TikTok, and LinkedIn
- * Provided financial forecasting models and tracked the seasonal effectiveness of promotions
- * Established data quality standards and filters throughout data pipelines

-- Senior Manager - Data **Services**

****UVNV - Ultra and Mint Mobile**** - Costa Mesa, CA

* August 2015 to August 2020*

- * Created a micro-service **architecture** with transactional and event-based data structures with **AWS**'s AuroraDB, Kafka, DynamoDB, and Redshift
- * Managed the migration of the user base from the previous PHP/MSSQL solution to the **AWS** Cloud
- * Created an operational data warehouse to track metrics required to track signups, transactions, and error types
- * Hired and managed teams of database developers reviewed their work and set goals for their professional development
- * Automated common admin tasks across multiple MSSQL, MySQL, Aurora and Redshift databases

- * Provided design input and ETL support using Talend for our Hadoop based data lake and data warehouse
- * Created real-time monitors/alerts in DataDog, Splunk and Slack
- * Provided analytical reviews and support for retention promotions and machine learning algorithm efforts
- * Design department development standards, SLAs, and data governance practices

-- Database Engineering Consultant

****Experian Interactive**** - Costa Mesa, CA

- * November 2012 to July 2015*
- * Designed data structures to support social media monitoring products
- * Extended reporting and tracking of benefit fulfillment events in order to maintain SLAs and compliance commitments
- * Leveraged data warehouse techniques to improve the performance of OLTP databases
- * Created and managed replication for both OLTP and reporting applications
- * Designed and created code that supported greater control over batch email and billing applications

-- Business Intelligence Analyst

****Medical Specialties Managers**** - Orange, CA

- * January 2012 to November 2012*
- * Designed data aggregation and metrics to review CSR billing/collections staff effectiveness
- * Created cash forecasting models for a variety of billing facilities and practice types then dynamically chose the best model for each client
- * Used SSRS and SSIS to create fee schedule templates and collect this data for analysis of insurance and patient expected reimbursement

-- Finance BI **Developer**

****Demand Media**** - Santa Monica, CA

- * April 2009 to January 2012*
- * Designed and coded a voucher batch approval and payment data mart that distributed more than \$50 million in payments to over 18,000 vendors in 2010
- * Created SSRS reports and .Net applications to manage approvals and cross-check counts and amounts for 8 separate business units
- * Designed algorithms to detect click fraud in our pay-per-click **web** properties
- * Aggregated 1099 earnings for domestic vendors across Great Plains, Oracle, MSSQL and numerous other sources using SSIS

-- Database **Developer** / Data Warehouse Architect

****Pocket Kings, LLC**** - Los Angeles, CA

- * February 2005 to December 2009*

Pocket Kings, LLC formerly Tiltware, Los Angeles, CA and Dublin, IRE

- * Managed database developers and analysts tasks for a team of 5 professionals
- * Provided data warehouse and software architectural direction for both game and CRM focused applications
- * Developed and managed over 180 database reports using MS Reporting **services** 2000 and 2005 against databases larger than 7 terabytes, which

spanned multiple departments including Marketing, Accounting, Customer Service, Payments and Fraud

- * Designed and developed ETLs and applications for the FullTiltPoker.com affiliate payment system that manages over 30,000 affiliates and distributes over \$8,000,000 monthly
- * Designed ETLs that summarized player performance, back-office accounting, and customer service metrics
- * Managed data cleansing and data integrity checks for numerous data stores

-- Engineering Lead / DBA

Genex Interactive - Denver, CO

* September 2000 to February 2005*

Denver, CO and Culver City, CA

Project Company: American Honda Motors

- * Designed and optimized applications that related 2.8 million users to over 30 million vehicles
- * Managed the website change control process across multiple American Honda divisions
- * Maintained best practices and coding standards while managing up to 7 developers
- * Integrated website with numerous third-party data providers through **web services**

Project Company: Toyota Financial **Services**

- * Programmed a way to report on 3.3 million finance record imports from multiple legacy(mainframe) sources
- * Managed a database that handled \$90 million in transactions a month

-- Technical Manager

IncTools LLC - Denver, CO

* December 1998 to September 2000*

- * Designed and coded an intranet that included email, calendaring and other applications
- * Integrated application with the Palm OS using Sybase as the database backend
- * Integrated an open-source Java instant messenger, Jabber, into the application

-- **Developer**

G&R Consulting - Appleton, WI

* July 1999 to May 2000*

Project Company: Kimberly Clark

- * Assisted in the change management process and troubleshooting for 150 different websites in the global Internet, Intranet, and Notes department
- * Managed the Webtrends reporting **services** for all corporate brand and intranet sites
- * Worked with domestic and international developers to establish coding standards

-- **Developer** III

****HD Vest Financial Services**** - Dallas, TX
* December 1996 to December 1998*
* Developed the company's early website and content management system
* Integrated the website with numerous legacy and online financial systems

-- EDUCATION

****Bachelor's in Political Science****
Wheaton College - Wheaton, IL
* 1988 to 1992*

-- SKILLS

* Python
* DuckDB
* Data modeling
* Hadoop
* Aurora
* **Microsoft** SQL Server
* NoSQL
* **Amazon** SageMaker
* Snowflake
* **AWS** Aurora
* Data warehouse
* Jupyter Notebook
* Kimbell Data Auditing Framework
* Redshift
* SQL
* ETL
* Git
* Tableau
* Spark

-- CERTIFICATIONS AND LICENSES

****AWS Big Data Specialty****
* December 2018 to December 2020*

Work History

Total Work Experience: 29 years

- Senior **Developer** Greenbriar & Russell
Jan 01, 1999
- **Developer** Iii Hd Vest Financial **Services**
Jan 01, 1996
- Business Intelligence **Developer** Msm - Medical Specialties Managers, Inc.
- Vice President Of Engineering - Data Blueprint Test Prep
- Datawarehousing Lead Pocket Kings
- Dw **Developer** Lan International
- Lead **Developer** Genex
- Chief Executive Officer Stealth

- Dw **Developer** Leaf Group
- Manager Of Data **Services** Uvnv
- Database Engineer Experian

Education

- **Bachelors** | Wheaton College

Skills

- **sql** - 29 years
- **architecture** - 20 years
- **data analysis** - 20 years
- **leadership** - 20 years
- **erwin** - 15 years
- **project management** - 15 years
- **reporting** - 13 years
- **algorithms** - 12 years
- **aws** - 8 years
- **aws rds** - 8 years
- **looker** - 8 years
- **amazon redshift** - 7 years
- **aws glue** - 7 years
- **python** - 7 years
- **social media** - 7 years
- **senior management** - 6 years
- **ssis** - 5 years
- **ai** - 4 years
- **jupyter** - 4 years
- **llm** - 3 years
- **talend** - 3 years
- **vector dbs** - 3 years
- **dbt** - 2 years
- **rag** - 2 years

- agile methodologies
- **amazon web services**
