Summary

Greg Blair is Chief Information Officer at Choreo specializing in driving digital strategy and business value with technology innovation. His focus is on digital transformation, leading edge technology investments, and running scalable, highly efficient IT and Security Operations. Mr. Blair has 23+ years of technology management experience. In other past roles, he has been in Senior management for global businesses such as Microsoft, EY, Accenture, as well as other large public and private equity backed companies working to formulate and deliver aligned business and technology architectures.
