Summary

SQL Developer with 22 years of experience in developing and modifying T-SQL scripts, providing SQL fixes, and building SSRS reports and subscriptions. Proven track record in conducting root-cause analysis and implementing solutions for template errors, enhancing system reliability and client satisfaction. Skilled in database design and management, data analysis, and agile development, seeking SQL Developer role.

Work Experience

CareMax, Inc.

Senior Applications Developer | Dec 2018 - Present

- Conduct root-cause analysis and implement solutions for template errors across diverse client locations, enhancing system reliability and client satisfaction.
- Develop and modify T-SQL scripts and provide SQL fixes to patient data using RedGate SQL Toolbelt, ensuring clean and efficient code.
- Build SSRS reports and subscriptions, and create customer-specific templates, stored procedures, and Crystal Reports tailored to multiple specialties.
- Collaborate with agile development teams to ensure quality and timely project completion, supporting successful go-live timelines.

Miami Children's Health System

Senior Database Developer | Aug 2017 - Nov 2018

- Resolved technical issues and implemented SQL solutions to ensure accurate patient data management and reliability of ETL processes.
- Developed customized templates and Crystal Reports, and contributed to special projects by meeting critical go-live timelines through effective workflow and database diagram creation using Microsoft Visio.

Connections Arizona

Consultant, NextGen Implementation Specialist, and Template Developer | Jun 2016 - Jul 2017

- Conducted root-cause analysis and implemented solutions for template errors, including troubleshooting templates and providing SQL fixes, to ensure seamless functionality and timely project delivery.
- Developed customer-specific templates, stored procedures, and Crystal Reports, utilizing ETL solutions and creating workflow flowsheets and database diagrams with Microsoft Visio.

K-Force

Consultant, NextGen Implementation Specialist, and Template Developer | Feb 2016 - Jun 2016

- Conducted root-cause analysis for template errors, implementing solutions and troubleshooting to ensure functional and accurate templates, including SQL fixes and ETL modifications.
- Developed and customized customer-specific templates, stored procedures, and Crystal Reports, while contributing to special projects to ensure their timely completion using tools like Microsoft Visio for creating workflow and database diagrams.

TempDev

Consultant, NextGen Implementation Specialist, and Template Developer | Apr 2015 - Oct 2015

- Conducted root-cause analysis and implemented solutions for template errors, troubleshooting and providing SQL fixes to enhance system performance.

- Developed customer-specific templates, stored procedures, and Crystal Reports, contributing to special projects and ensuring their timely delivery.

Leidos Health

Consultant, NextGen Implementation Specialist, and Template Developer | Jan 2013 - Apr 2015

- Conducted root-cause analysis and implemented solutions for template errors, while troubleshooting and providing SQL fixes, resulting in improved system functionality and reduced downtime.
- Developed and customized client-specific templates, stored procedures, and Crystal Reports, contributing to successful project completion and enhanced reporting capabilities.

Excite Health Partners

Consultant, NextGen Implementation Specialist, and Template Developer | May 2012 - Jan 2013

- Conducted root-cause analysis and implemented solutions for template errors, troubleshooting issues, providing SQL fixes, and developing or modifying ETL solutions.
- Developed customer-specific templates, stored procedures, and Crystal Reports while participating in special projects to ensure timely delivery.

NextGen Healthcare Information System

Senior KBM Template Developer | Sep 2002 - May 2012

- Conducted root-cause analysis and implemented solutions for template errors, enhancing system reliability and performance.
- Developed and troubleshoot KBM templates, stored procedures, and Crystal Reports, and provided SQL fixes to patient data, improving data accuracy and reporting capabilities.
- Upgraded source control solutions from Visual Studio's SourceSafe to Team Foundation Server and designed server setups for training and development purposes, supporting more efficient development workflows.

Education

Drexel University

Coursework, Information Systems | Philadelphia, PA | since 2011

Brookdale Community College

Associates , Arts | Lincroft, NJ | Jun 1993

Certifications

NextGen Certified Professional (NCP) | NextGen Healthcare

Skills

Systems Administration, Database Design and Management, Strategic Technology Planning, Data, Business, and Systems Analysis, Data Flow and Process Mapping, Major Software and Systems Implementations, Systems Security and Disaster Recovery Planning, Testing, Scripting, Documentation, and Agile Development, Technical Writing, Including Manuals and System Specs, Visual Basic, Stored Procedure, MS SQL, Analytical Thinking, Problem Solving, Communication Skills, Data Analysis, Client Relationship Management, Adaptability, Project Management, Strategic Planning, Business Acumen, Presentation Skills, Power BI, SQL Query Writing, Performance Tuning, Attention to Detail, Critical Thinking, Team Collaboration, SSIS, SSRS, ETL, PL/SQL, T-SQL, Database Design, Communication, Time Management
