

Nicholas Sedney

Mobile and Full-Stack **Software** Engineer

Seattle, WA • [LinkedIn](#)

Skills and Qualifications

- **Mobile **Development****: Designing, building, and maintaining native iOS (Swift, Objective-C), Android (Kotlin, **Java**), and cross-platform (C++) libraries and applications.
 - **Web **Development** and Backend**: Developing **RESTful**/web applications using **Java**, JavaScript, AWS services, and **JSON**/SQL storage technologies.
 - **System Design**: Designing scalable, maintainable systems with a focus on cross-platform solutions, effective concurrency and efficient data workflows.
 - **Maps/GIS**: Mapping/Geospatial technologies using Mapbox libraries, especially for automotive use cases; familiar with GIS (Esri/ArcGIS Pro).
 - **Software **Development** Lifecycle (SDLC)**: Agile methodologies (Scrum), source control (Git), **Continuous Integration** and **Delivery** (CI/CD), and **test-driven development** (TDD).
 - **Development Tools**: Developing in MacOS, Windows, and Linux environments, using tools to optimize the SDLC (IntelliJ/Xcode/Jenkins/Docker/CodePipeline/etc.)
 - **Mentorship**: Mentoring and training engineers, defining code review and **quality** standards, and facilitating continuing education.
-

Work Experience

Amazon.com, Seattle, WA

SDE II (2014–2022)

- **Tech Lead for "Last Mile" Application**
 - Lead the **development** of industry-leading maps and navigation experiences on iOS and Android platforms (using Swift, UIKit, SwiftUI, **Java**, Objective-C, and C++) leveraging Mapbox SDKs.
 - Collaborated across product and dev teams to design web/REST APIs to support the in-map experience, and integrate with the larger mobile **delivery** workflow.
 - Modernized our cross-platform mobile build system and integrated **it** with Amazon's CI/CD tools.
 - Mentored new hires, established team standards/best practices for code/code reviews, **testing**, and **development**, and facilitated weekly reading and other education opportunities.

- **Tech Lead for Alexa Auto iOS Team**

- Designed and developed (from scratch) an iOS app for in-car Alexa (voice assistant) functionality, successfully released to the App Store.
- Delivered a reusable iOS library for mobile Alexa **integration** using Swift, Objective-C, C++, CoreAudio, and AVFoundation.
- Collaborated directly with external automotive partners to enable in-car Alexa **integration**.

- **iOS Developer for MyHabit Application**

- Worked with product team to design and implement features for the MyHabit iOS app, a "flash sale" fashion app.
- Developed backend web services (**Java**) to support APIs and web views for the mobile application.

SDET II (2010–2014)

- Developed web services and libraries to support **test** data provisioning, execution, **reporting**, and **integration** with CI/CD systems.
- Maintained and enhanced **automated test** suites (**Java**/TestNG) for Amazon's eCommerce platform.

Xerox, Rochester, NY

Software Engineer (2009–2010)

- Developed portable **software** in C++ for multifunction print/copy devices.
 - Adapted legacy C code to integrate with a modern C++ codebase.
-

Education

University of Rochester, Rochester, NY

- **Bachelor of Arts, Computer Science** – 2004 - 2008
- **Bachelor of Arts, Studio Arts** – 2004 - 2008

University of Washington, Seattle, WA

- **GIS Certificate** – 2024 - Present

Summary

I am a **software** engineer experienced working with mobile applications and web services. I am interested in **software** developer roles where I can build on my current experience, as well as learn and utilize new technologies. Specialties: Object Oriented **development** in Swift, **Java**, and Objective-C. Agile methods through Scrum, OOD, **Test-Driven Development**, **Automated test development**, **test framework development**.

Work History

Total Work Experience: 17 years

- **Software Engineer II Amazon.Com**
Jan 01, 2015
- **SDET II Amazon.Com**
Oct 01, 2010
- **Software Engineer Xerox**
Oct 01, 2008

Education

- **Bachelors** | University of Rochester

Skills

- agile scrum - 10 years
- linux - 10 years
