Summary

I am an accomplished and results driven professional with 30 years of experience in the IT industry. During my career, I have learned that with hard work and determination, anything can be accomplished. I enjoy the entire spectrum of code development, from analysis to implementation. I bring a unique blend of tenacity, humor, flexibility along with hard and soft technical skills to each project. It is my goal to not only implement each project successfully, but also to learn something new that will hopefully benefit my co-workers and our organization. Specialties: Project Management, SDLC, Problem Determination, Communication and People Skills.
