

# POLINA “ESSIE” SHARABARINA

## SOFTWARE TEST ENGINEER

### CONTACT

818-5610459

polinasharabarina@yahoo.com

### SKILLS

Git, JIRA  
Selenium  
Python, Lua  
SQL, Jenkins  
Visual Studio, Xcode  
Agile methodology  
Test Planning, Test Strategy  
Manual and Automated testing  
Cross-functional team coordination  
Teamwork and Collaboration  
Project Management and Quality Assurance  
Effective communication

### EDUCATION

Quality Assurance 101 Consulting Group, LLC

Quality Assurance Certificate

2013

BS in Environmental Engineering

Altai State University

2009

### PROFILE

Knowledgeable and self-motivated Software Test Engineer with 10+ years of experience, proven track record in software testing and QA, testing of complex software systems, specializing in both front-end and server-side functionality, SaaS, e-Commerce, mobile and desktop applications.

Successfully identified and resolved critical issues in various projects, enhancing product reliability. Demonstrated proficiency in automated testing and bug tracking, ensuring seamless team collaboration and adaptability to project needs.

### EXPERIENCE

#### SDET, Mylio Photos

##### 2015-2024

Owned and optimized the in-house automation suite in Lua, integration into CI/CD workflows. Improved test coverage by 40%. Analyzing test automation reports.

Led manual testing efforts utilizing diverse methodologies (TDD/BDD) and conducted functional, integration, performance, end-to-end, and ad-hoc testing.

Coordinated testing resources, managing allocation, prioritization, and task assignments to adhere to project timelines and ensure successful test completion.

Actively engaged in design reviews, leveraging expertise to identify and resolve defects pre-integration, resulting in reduced defect counts and streamlined review cycles.

Led hiring initiatives, conducted interviews, and trained new team members, cultivating a culture of knowledge sharing; mentored junior testers to enhance skills and confidence.

#### Software QA Engineer, BizX

##### 2013-2015

**Product Owner and Test Lead** responsibility on multiple projects: client/server Web-based apps: admin Backend and e-Commerce Online Marketplace, mobile application and API, verified product features, user interfaces, system stability, conformance to standards, and overall system performance.

Ensured product quality throughout all stages of the life cycle.

Led triage meetings; reported on Sprint progress and facilitated Sprint preview sessions.

Designed and implemented a system-level automated testing framework from the ground up using C# with Selenium WebDriver and NUnit; developed and maintained regression and smoke test suites.

Conducted a variety of tests including GUI, functional, usability, integration, smoke, regression, boundary, cross-browser and cross-platform compatibility testing.

Managed the source code repository and build processes, utilizing continuous integration with Tortoise SVN.

Performed MS SQL Server database backups, restorations, and executed SQL queries, tested SQL Server databases and stored procedures.

Defect tracking, collaborated with developers, design and non-technical stakeholders to resolve issues effectively.

Software documentation, risk mitigation; designed standards and procedures to assess product quality and release readiness.
