WORK EXPERIENCE SUMMARY:

Racquel's Human Resources background coupled with her Information Technology experience enables her to effectively bridge communication between HR and IT by utilizing her hands-on expertise in both disciplines.

She has over 2 decades of integrated experience in Human Resource and HR Information System, including 20 years implementing & supporting the Oracle EBS HRMS/Oracle, HCM Cloud and HRMS Buck Interactive Technology. She has domestic and global experience, having been involved in a number of full cycle Oracle HRMS/Fusion HCM implementation projects in the US, Canada, Asia/Pacific, and Europe. Racquel has worked for clients within the telecommunications, manufacturing, banking, insurance, airline, oil and gas, food industries, government agencies, energy, shipping, life sciences, engineering, retail, construction, and legal industries. She has deep understanding of the technical aspect of the system - Oracle HR table structures and the system's data distribution that supports the Oracle HR Modules: iRecruitment, OAB, Talent Management, Learning Management, OTL, Payroll, SSHR, Compensation and HR Intelligence.

She is also a Human Resource Generalist for 4 years prior to doing the Oracle HRMS consulting job. Her background in HR were focused on recruitment and staffing, compensation, benefits, training and development, performance management, career management, competency management, organizational development, leave/time management, payroll administration and employee/labor relations.

Racquel is adept at facilitating sessions, workshops, developing and delivering end-user training, project management, and preparing and presenting project briefings to executives. She has management, functional human resources and technical application development experience.
