

First Name: Richard

Last Name: Brescher

.NET Application **Developer** at iHeartMedia

rmbrescher@gmail.com

This resume was automatically generated from:

<https://www.linkedin.com/in/rmbrescher>

Summary

Experienced **Software** Engineer: specializing in practical skills with **.NET**, **C#**, Angular, and **SQL**. My greatest on-the-job strength is out-of-the-box thinking for **.NET** application issues. Other skills include **Scrum**, **Agile**, and Object-Oriented Design to help with the **software development** life cycle. Coding is a way of life and I even utilize my skills outside of work, via cooking, at the gym, and many other life passions.

Experience

.NET Developer at iHeartMedia

January 2023 -

- Played a key role in the **development** and enhancement of the **software**, a leading music scheduling, and rotation tool used extensively in the radio broadcasting industry.
- Utilized **.NET** framework, **C#**, and **SQL Server** to design, implement, and maintain various features and modules within the application.
- Collaborated closely with a talented team of developers and music schedulers to understand requirements, translate them into technical specifications, and deliver high-quality solutions.
- Developed custom functionalities within the **software** to address specific station needs, optimize music programming, and improve overall user experience.

- Integrated **software** with **SQL Server** databases, ensuring efficient and secure data storage, retrieval, and synchronization.
- Conducted thorough testing, debugging, and performance optimization of the application, ensuring a reliable and smooth user experience.
- Implemented database design principles and best practices to optimize query performance, improve data integrity, and ensure scalability.
- Participated actively in all phases of the **software development** lifecycle, including requirements **analysis**, design, coding, testing, deployment, and support.
- Provided technical support and guidance to end-users, troubleshooting issues, and providing effective solutions to ensure seamless operation and user satisfaction.
- Kept up-to-date with emerging technologies, industry trends, and best practices in music scheduling and broadcasting to drive continuous improvement of the **software**.

Software Engineer at General Motors

November 2020 - January 2023

Using skills in **.NET**, **C#**, React, Postgres, and **SQL Server** to work on complex **software** projects to help with all GM plant servers.

- Azure to work on all user stories, and finish sprints on time.
- Write important algorithms that are in use at key GM plants.
- Maintained, performed, and upgraded **computer** system **software**.
- Used **problem**-solving skills to save GM by fixing technical issues.
- Found optimal solutions for developing performance matrices to gauge the effectiveness of programs.
- Used **C#**, **ASP.NET API**, PostgreSQL, MS **SQL Server**, and Kubernetes on the backend.
- Frontend majority React and some Angular.
- Used Docker container with a PostgreSQL database.
- Experience with using AWS S3 Bucket.

Research Assistant: Naive Bayesian Network at Kean University

September 2018 - January 2019

- Applied knowledge of machine learning, Java, networks, and test-driven **development** to create a Bayesian Network.
- Implemented **training** set, inference, incremental learning, handling missing data and casual relationships to make the Bayesian network more efficient and robust
- Collaborated with university professors on research knowledge of machine learning and artificial intelligence.

Software Development Team Lead at Election Campaign: JERRY B. MERCADO

September 2018 - December 2018

- Was a lead **developer** on a team to build an election website, used **agile** and **scrum** methods.
- Reviewed all Html, CSS, and Javascript code before sending **it** to the product owner.
- Used **Scrum** board method, and sprints to get the website done on time.
- Hosted results on Github every Sprint to show final work done per Sprint and took feedback from the product owner.

Coordinator at Robert Wood Johnson University Hospital

October 2017 - October 2020

- Maintained, performed, and upgraded **computer** system **software** and subsystem **software** with hospital-based needs to medical workers.
- Used **problem**-solving skills to save hospital 1 million dollars in extra profit by fixing technical issues.
- Collaborated with team members to arrive at optimal solutions for developing and maintaining performance matrices to gauge the effectiveness of programs and client satisfaction with **service** rendered.

Education

Kean University

Bachelor of Science - BS, Computer Science, 2015 - 2019

Richard Brescher

- Toms River, NJ, US

Work History

Total Work Experience: 5 years

- **.NET Developer** Iheartmedia
Jan 01, 2023
- **Software Developer** General Motors
Nov 01, 2020

Education

- **Bachelors** | Kean University

Skills

- **.net** - 4 years
- **.net core** - 4 years
- **c#** - 4 years
- **git** - 4 years
- **github** - 4 years
- **oop** - 4 years
- **software development** - 4 years
- **software engineering** - 4 years
- **sql** - 4 years
- **data structure** - 3 years

- **azure** - 2 years
- **pascal** - 1 years
- **asp.net** - 4 years
- **api** - 3 years
- **asp** - 2 years
- **asp.net mvc** - 2 years
- **css** - 2 years
- **javascript** - 2 years
- **mvc** - 2 years
- **ood** - 2 years
- **postgresql** - 2 years
- **restful** - 2 years
- **test-driven development** - 2 years
- **angularjs** - 1 years
- **java** - 1 years

Work Preferences

- Desired Work Settings: Remote or On-Site or Hybrid
- Likely to Switch: True
- Willing to Relocate: True
- Travel Preference: 0%
- Preferred Location:
 - New York, NY, US
 - Philadelphia, PA, US
 - Jersey City, NJ, US
- Work Authorization:
 - US
- Work Documents:
 - US Citizen
 Security Clearance: False
- Third Party: False
- Employment Type:
 - Full-time
