INNOVATIVE INFORMATION TECHNOLOGY LEADER

An accomplished and results-driven **senior** IT engineering and **architecture** executive with a proven track record of achievement in solving “unsolvable” business problems in innovative ways. Comprehensive experience in **project management**, **software** engineering, and **strategic** planning. An exceptional and innovative leader who utilizes highly developed technical and analytical **skills** to facilitate industry-leading **technology**, drive corporate revenue and lower operating costs. Experience globally with multiple firms and in multiple industries, as well as at multiple very successful start-ups.

Start-ups • Application Engineering • High-Performance **Team Development** • IT Consultation

Digital **Transformation** (**Cloud**, AI/ML, Big **Data**) • Fortune 10 Company Operations

Technology Service Management • **Enterprise Architecture**

EXPERIENCE

INSPIRE BRANDS

Atlanta, Georgia

Director, **Enterprise Architecture** (**Chief Enterprise Architect**) 2022-2024

Lead the birth of **Enterprise Architecture** at Inspire Brands, in a newly created role. Defining the organization, processes, standards, reference architectures, and establishing an **Architecture** Review Board for **governance**, socializing it across the **enterprise**, and then **making** it happen. Unfortunately, the organization was underfunded, understaffed, and eventually eliminated as a cost cutting effort during November 2024.

HEWLETT-PACKARD (HP)

Houston, Texas

Global Head of **Enterprise Architecture** (**Chief Enterprise Architect**) 2021-2022

Defined and re-built poorly utilized and ineffective **enterprise architecture** function. I supervised 10 leaders with 23 architects in my direct organization, and over 230 indirect reports across the **enterprise** with an \$8M annual budget. My focus was on modernizing/digitizing solutions to improve business outcomes, eliminating technical debt, while delivering solutions faster, better, and cheaper.

NORFOLK SOUTHERN RAILROAD (CONTRACT)

Atlanta, Georgia

Enterprise Architect 2021

In a contractual role, led the **architecture** efforts on several major projects/programs, in addition to interviewing all IT and business stakeholders and **making** recommendations to improve the effectiveness of **Enterprise Architecture** and **Solution Architecture** across the company.

NOVELIS, INC.

Atlanta, Georgia

Director, **Enterprise Architecture** and **Project Management** (**Chief Enterprise Architect**) 2017-2021

Defined and re-built poorly utilized and understood **enterprise architecture** function. Hired staff to accelerate **delivery** of business value. Supervised seven direct and 22 indirect reports globally in a federated model. Aligned IT actions and business strategy to rationalize **enterprise**-wide applications, **data**, and **technology** spaces. Implemented innovative processes and digital initiatives for Big Data, **IoT**, and AI/ML to address **quality** problems, improve manufacturing up-time, and improve customer satisfaction.

- Established ERP rationalization strategy to upgrade SAP ECC to Hana, move to **cloud**, execute S4 upgrade, and migrate non-SAP ERP locations to SAP.
- Rolled out Agile/SAFE deployment strategy globally, including **training**, changing how requests were handled, etc.
- Executed five hack-a-thons to solve business issues and teach new **technologies** to global community of problem-solvers.
- Developed strategy and roadmap for integration of \$3B acquisition across over 300 applications and **technologies**.
- Created and executed multi-**cloud** migration strategy and shifted over 80% of compute and storage to AWS and Azure.
- Developed “A Plan for Every App,” to modernize (services/micro-services, containers, **cloud**) legacy applications and eliminate proprietary platforms and applications.

MARYVILLE TECHNOLOGIES

St. Louis, Missouri

Client Services Director 2012-2016

Started and managed **enterprise** service life cycle (ESLC) and **enterprise architecture** (EA), two new practice areas for services, people, **software**, marketing/sales material to develop. Marketed and sold services across industries. Architected processes to utilize **cloud technologies**, **data** center, automation, and event processing for incident recovery and avoidance.

- Established **enterprise architecture** services practice and reported progress to CEO and CTO.
- Sold projects at multiple clients, while hiring resources to complete **delivery** of projects.
- Created curriculum for all consultants firm-wide to learn ESLC and EA (focused on upselling, **cross-selling**, and **delivery**).

WASTE MANAGEMENT

Houston, Texas

Vice President, **Enterprise Architecture** and **Information Management** (**Chief Enterprise Architect**) 2011-2012

Managed all **enterprise**-wide **systems**, processes, and **technologies** related to **data**. Supervised six direct reports, 150-member staff, and \$22M budget. Rehabilitated EA practice which had previously failed multiple times. Developed **enterprise** vision, strategy, and roadmaps. Established plans for all applications. Produced single platform per constituent business **intelligence** and reporting strategy and reduced business **intelligence** footprint from 14 platforms to three.

- Created and chaired **architecture** review board.
- Moved from waterfall to Agile/SAFE deployment for all projects.
- Identified and realized over \$8M cost savings across IT budget.
- Rationalized business **intelligence** and **data** warehouse footprints.
- Integrated acquired **data science** organization into WM IT organization and enabled them with **enterprise data** lake, AI/ML, and other **data** tool sets.

DANA HOLDING CORPORATION

Toledo, Ohio

Director, **Enterprise Architecture** and **Information Management**, **Chief Enterprise Architect** 2009-2011

Oversaw vision, strategy, roadmap **development**, IT standards and **security**, and **information management**. Managed **data**, **systems**, processes, **technologies**, and other **enterprise**-wide layers. Supervised 14-member staff and \$3.8M expense budget. Designed and developed initial **data** and **architecture** organization structure, position descriptions, and processes. Selected internal and external candidates to fill positions.

- Developed and executed ERP rationalization strategy to go from over 50 ERPs across the **enterprise** to one, SAP.
- Addressed **security** and controls issues which had resulted in down time and loss of proprietary **data** at international plant locations.
- Rationalized Business **Intelligence** foot print to fewer tools and a single **Enterprise Data** Warehouse (EDW).
- Identified cost savings opportunities through IT changes, not impacting the business, that saved \$10M/yr in operating costs.

GENERAL MOTORS CORPORATION

Detroit, Michigan

Global Director, **Enterprise Architecture**, **Chief Enterprise Architect** 2001-2009

Re-developed EA **team** from ground-up after academic EA function crashed and burned. Managed \$17.2M expense budget, more than \$80M capital budget, seven-member **team**, and 50 consultants in highly-outsourced, federated, IT model. Produced initial organization structure, selected **TOGAF framework**, filled all positions, and deployed processes. Trained over 500 personnel and raised **team** numbers from zero to over 500 in one year.

- Led WAN/LAN/EDI/VOIP **enterprise communication**, vision, and strategy **development**. Shifted company from analog and satellites to internet, wireless, and digital communications. Generated over \$17M annual telecom income in first year.
- Improved IT standards process from 40-day to 11-day average.
- Modernized and rationalized IT application and **information** portfolio to reduce applications by over 50% and save over \$400M.
- Implemented reuse campaign and promoted reference architectures/standards services across all IT to drive commonality and service/component approach to application **development**.
- Developed strategy and began execution to move from 30 SAP instances to two global instances.
- Architected 100MM Global Customer Master system for giving a 360 degree view of a customer's interactions with all GM entities, including householding, **data** enrichment from 3rd party sources, and more than 70 GM **systems**.

OPTATE

Vice President, Chief Technology Officer.....2000-2001
Ann Arbor, Michigan

One of 3 CxOs leading this B2B2E SaaS start-up which helps employees make good health, dental, vision, and retirement benefit decisions. GM, Ford, AAA of Michigan, Delta Airlines, and several other large corporations were charter customers using the solution. Responsible for all aspects of development, testing, deployment, and operation of the solution, in addition to being responsible for infrastructure and supervising the IT team while managing outside vendor resources. The company was purchased by WebMD.

BRAUN CONSULTING

Vice President, Delivery Assurance and Southwest Region.....1998-2000
St. Louis, Missouri

Led the build out of this Business Intelligence-focused boutique consulting firm's Southwest Region, growing it from 20 consultants in a single office to 3 offices with more than 175 consultants in less than one year. Was given responsibility for firm-wide Delivery Assurance to ensure customer satisfaction and profitable delivery of solutions, on time and on budget to our Fortune 1000 clients. The firm underwent a very successful IPO and the firm was later purchased by Fair Isaac Corporation.

ADDITIONAL EXPERIENCE

COMPUTER SCIENCES CORPORATION, St. Louis, Missouri, Principal, Technology Practice Leader, 1995-1998.
