Ph: (763) 620-5989

SUMMARY

Innovative and results-driven **Software Engineer** and **Data Scientist** with extensive expertise in AI-driven solutions and **machine learning**. Proven track record of designing, deploying, and optimizing **machine learning** models. Proficient in **Python**, Google **Cloud Platform** (GCP), and deep **learning** frameworks like **TensorFlow** and **PyTorch**, with strong **skills** in **data** analysis, end-to-end pipeline development, and actionable insights generation. Experienced in agile environments, full-stack development, and leading cross-functional teams to deliver impactful and scalable solutions.

TECHNICAL SKILLS

- **Software Tools:** **Python** (NumPy, SciPy, Pandas, nltk, spacy, **PyTorch**, **TensorFlow**, Keras, Matplotlib, **Scikit-learn**, Flask), GCP (Google **Cloud Platform**), Git, GitHub, **Java**, JavaScript, Angular.js, React.js, Node.js
 - SQL (MongoDB, Postgres/pgAdmin, Oracle)
 - Frontend Web Visualization (HTML, CSS, Bootstrap, Dashboarding, JavaScript charting, Geomapping with Leaflet.js)
 - GCP (Compute Engine, Dataflow, **Cloud Storage**, BigQuery, **Vertex AI** etc.), Tableau.
-

WORK EXPERIENCE

Best Buy – Richfield, MN

Sr. Data Scientist/ML Engineer

August 2018 – Current

*Led the development of AI and **machine learning** projects in an agile environment, focusing on model **design**, **data**-driven insights, and scalable **deployment**.*

- **Lead** the development and **deployment** of AI and **machine learning** models, leveraging advanced algorithms to analyze large-scale datasets, identify patterns, and generate predictive insights for business decisions.
- Preprocessed raw **data** for **machine learning** models, including **data** cleaning, feature **engineering**, and transformation to ensure high-**quality** input for model **training**.

- Experience in applying large language models (LLMs) such as ChatGPT, GPT-3.5 for AI-driven solutions, optimizing model performance, and fine-tuning for different business applications.
- Developed and optimized deep **learning** models using neural networks for tasks (image recognition, NLP), leveraging frameworks like **TensorFlow** and **PyTorch**.
- Custom-trained **machine learning** models on Google **Vertex** AI and successfully deployed them to **Vertex** AI Endpoints for scalable inference and real-time predictions.
- Developed and implemented unit test cases for **machine learning code** using the Pytest framework, ensuring **code** reliability and robustness.
- Collaborated with the **Product** Owner to define and refine **machine learning** user stories during backlog grooming meetings, ensuring alignment with project goals and business requirements.

Target – Minneapolis, MN
Full stack Developer/Tech **Lead**
July 2014 – July 2018

Worked on an application that involved both front-end and backend in an agile-scrum environment.

- Developed user interface from scratch for the web application.
- Participated in **code** reviews to ensure that **code quality** standards are met.
- Developed responsive web application that worked across multiple devices and screen sizes.
- Worked closely with the development team, **product** owners, and stakeholders to ensure that the user interface and user experience meet the needs of the business and end-users.
- Developed and maintain **design** systems, style guides, and component libraries.
- Created micro-services for the backend using Springboot/**Java**.
- Designed tables for the backend.
- Fixed the **production** bugs.
- Worked with **product** owner to create user stories.

Huntington Bank – Minneapolis, MN
Full stack Developer
Jan 2013 – June 2014

Worked on an application called Sales Prospector in an agile – scrum environment.

- Designed and developed web applications and REST **API**'s.
- Collaborated with **product** managers, designers, business analysts and other developers to define and implement innovative solutions.
- Worked with **product** owner in the development of user stories and task estimates.
- Fixed the **production** bugs.
- Participated in **code** reviews.

EDUCATION

University of Minnesota, Minneapolis, MN

Bachelor of Science in Aerospace Engineering

Bachelor of Science in Computer Science.

CERTIFICATIONS:

- **Data Science Bootcamp**, University of Pennsylvania.
- **Machine Learning: Fundamentals and Algorithms**, Carnegie Mellon University.
- **Python for Data Science**, Cornell University.

Work History

Total Work Experience: 11 years

- Sr. **Data Scientist/Machine Learning Engineer** Best Buy
Aug 01, 2018
- Tech **Lead** Target
Jul 01, 2014

Education

- **Bachelors** | University of Minnesota, Twin-Cities

Skills

- agile - 10 years
- **code review** - 10 years
- git - 10 years
- revision control - 10 years
- scrum - 10 years
- **software development** - 10 years
- user stories - 10 years
- github - 8 years
- postgresql - 8 years
- sql - 8 years

- **rasa framework** - 6 years
- **data science** - 5 years
- **engineering** - 5 years
- **machine learning** - 5 years
- **it management** - 4 years
- **mongodb** - 4 years
- **ui** - 4 years
- **reactjs** - 3 years
- **angularjs** - 4 years
- **java** - 4 years

Work Preferences

- Desired Work Settings: Remote or On-Site or Hybrid
- Likely to Switch: True
- Willing to Relocate: True
- Travel Preference: 0%
- Preferred Location:
 - Atlanta, GA, US
 - Denver, CO, US
 - Kansas City, MO, US
- Work Authorization:
 - US
- Work Documents:
 - US Citizen
- Security Clearance: False
- Desired Hourly Rate: 70+ (USD)
- Third Party: False
- Employment Type:
 - Contract - Corp-to-Corp
 - Contract - Independent
 - Contract to Hire - Corp-to-Corp
 - Contract to Hire - Independent
