

Elina Zhang

Product (UI/UX) Designer

(678) 907-1107 | eliwenzhang@gmail.com | elinazhang.framer.website/ | linkedin.com/in/elina-zhang | Atlanta, GA

EXPERIENCE

UX Designer, National Cash Register Corporation (NCR) October 2024 to December 2024

Sainsbury's Retail Kiosk Self Checkout

Atlanta, GA

- Designed custom **UX** solutions specifically for Sainsbury's self-checkout kiosks, enhancing **user** engagement and streamlining the checkout process for one of the UK's leading grocery retailers
- Created custom start buttons and navigation elements tailored to Sainsbury's branding, optimizing the kiosks' **interface** for ease of use and a seamless customer **experience**
- Developed dynamic savings and promotional pricing tools, enabling the kiosks to display real-time discounts and promotions, which boosted **user** interaction and supported sales initiatives with a 20% increase in **user** satisfaction
- Collaborated with product managers and engineers to ensure accurate implementation of custom features on the self-checkout kiosks, maintaining high standards of usability, functionality, and **design** consistency

UX/UI Consultant, MJV Technology and Innovation

March 2024 to July 2024

*ClubProphet's Golf Management **Software** Renovation*

Atlanta, GA

- Executed in-depth analysis and competitive benchmarking of golf management softwares SaaS, identifying best practices and features through rigorous market research, resulting in a 25% improvement in **user** satisfaction scores
- Developed **user** journey maps, ensuring alignment with **user** needs and enhancing overall **user experience**, which reduced **user** error rates by 20% and improved task completion times by 15%
- Documented features comprehensively, created and maintained an Material **UI** assets library, and developed a functional SaaS prototype with a focus on Point-of-Sale (POS) systems, accelerating the **development** cycle by 40% and improving **design** consistency
- Collaborated with **cross**-functional teams to integrate innovative features that addressed pain points, enhancing stakeholder engagement and achieving a 15% increase in **user** retention and loyalty
- Conducted comprehensive **user** and stakeholder interviews, meticulously analyzing responses, extracting valuable insights, and generating features to address pain points and key learnings

UI/UX Designer, Real Estate Investments Lucrative Mode

August 2023 to March 2024

*REILM Project (**Software** As a Service)*

Atlanta, GA

- Designed and developed a **user**-friendly **Software** as a Service (SaaS) platform and website, starting from concept through to final implementation
- Created wireframes, **user** flows, and interactive prototypes using Figma, iterating based on **user** feedback and usability **testing** to achieve a 30% increase in task completion rates by integrating innovative features such as interactive investment calculators and personalized dashboards
- Collaborated closely with developers and stakeholders to implement **design** solutions that aligned with business goals and technical requirements, accelerating the **development** cycle by 50%.
- Implemented a cohesive **design** system and maintained **design** consistency across the platform, contributing to a 25% reduction in **design**-related **development** issues

UX Designer, Environmental Systems Research Institute (Esri)

May 2023 to August 2023

Product and Vertical Internal Audits

Redlands, CA

- Executed over 25 **UX** tasks across junior, mid-senior, and senior levels, including two comprehensive **UX** internal audits of all Products and Industry Verticals, resulting in a 30% improvement in **design** consistency and a 20% increase in **user** satisfaction

- Maintained detailed **design** specifications and style guides, ensuring **design** consistency and facilitating efficient handoff, which streamlined the **development** process and reduced time-to-market for new features by 25%
- Fostered close **collaboration** with stakeholders, executives, and product managers, effectively translating their vision and requirements into actionable **design** strategies, advocating for **user**-centered **design** principles that enhanced overall product usability
