## PROFESSIONAL EXPERIENCE

Strategic Analysis, Inc. | Arlington, VA

May 2012 – March 2019

*Professional consulting firm providing technical, advisory, analytical, operational, programmatic, and policy services to government and commercial clients in support of national defense and homeland security initiatives.*

Program Analyst, U.S. Department of Defense (DoD) (Apr 2015 – Mar 2019)

Program Analyst, Strategic Analysis, Inc. (Dec 2013 – Dec 2014)

Program Analyst, U.S. Department of Homeland Security (DHS) (May 2012 – Dec 2013)

- Modernized human resource information system (HRIS) and data management operations for the Defense Advanced Research Projects Agency's (DARPA) Strategic Resources Office (SRO) (Human Resources).
  - Provided HR database technology subject matter expertise to DARPA's 10-person HR office.
  - Identified/gathered functional requirements and linked technical solutions to stakeholder goals & objectives.
  - Leveraged database system to retire legacy software that lacked scalability, impeding workflows.
  - Implemented technical solutions advancing end-user functions, streamlined processes, upgraded report and export quality, introduced data integrity and security, and elevated SRO's HR service delivery Agency-wide.
  - Introduced on-demand report automation, eliminating manual reporting and data entry redundancy.
  - Designed, modified, and managed HR personnel relational database (Access); created new database tables (9), forms (11), queries (100+), reports (60+), and dashboards (3); developed system enhancements roadmap.
  - Developed new training database module, leading development lifecycle from concept through deployment.
  - Processed and maintained personnel data and records for SES, AD-1121, GS, IPA hiring authorities: PII, in- and out-process data, personnel actions (RPAs, SF-50s), position descriptions (PDs), position sensitivity, contracts (MOAs/IPAs), and personnel term & tenure history data.
  - Managed personnel record data retention archives.
- Employed organizational development and management practices to assist defense leadership in aligning goals with DoD's defense science and technology (S&T) priorities and investments overseen by the Office of the Under Secretary of Defense for Research and Engineering (OUSD(R&E)).
  - Prioritized, planned, and led the Human Systems Community of Interest's strategic discussions, collaborative efforts, and work products toward successful achievement of strategic goals and objectives.
  - Forecasted, planned, and managed strategy meetings and workshops designed to promote community value among government, industry, and academia; matured community's visibility; and expanded membership.
  - Facilitated development and delivery of integrated Service roadmaps; taxonomy, budget, program, and technical briefings; research seedling and tri-Service proposals; and technology transition success stories.

- Provided technical, analytical, financial, program, and specialized policy support to defense S&T client; developed programmatic and technical material required for position papers, reports, briefings, testimony, and Congressional inquiries; conducted briefings and provided input on key strategic, **planning**, programming, and S&T policy matters.
- Assisted Facility Security Officer (FSO) with successful oversight of industrial security program; processed and maintained personnel security files; conducted briefings; prepared DD 254s in SIMS; logged and tracked classified material; managed clearance investigations and authorized personnel credentials in JPAS; and managed PSM-Net.
- Managed data calls/taskings for the DHS Border Patrol Facilities and Tactical Infrastructure Program **Management** Office; managed data call/tasking process lifecycle start to completion (needs, resources, content, compliance); ensured on-time submissions (increased to 97 percentile); and used SharePoint as data call/task tracking system.
