

SAP HCM Configuration / ECP Payroll Consultant

Meenal Chidambaram (US CITIZEN)

meenalchida@gmail.com

609-933-2927

I am a certified Human Resource **Payroll** Specialist who brings over 20 years of experience in the commercial sector. I believe my extensive expertise with **HR** systems, **problem**-solving skills, and strong communication skills make me the ideal candidate for Human Resources Specialist. I spent 18 years as an **SAP HCM** Functional **Analyst** and 5 years as a **Payroll** Administrator. Involved in migrating and validating existing **HR** data and configurations from the on-premise **SAP** system to the cloud-based **SuccessFactors** ECP platform.

Professional Summary:

- **SAP** Certified Human Resources **Solution** Consultant (Certification ID:0006812730)
- Worked extensively as a functional expert on **SAP** Personnel Administration, Organization **Management**, **Payroll**, Benefits, **Time** Management, eCareer, Employee/Manager Self-Service (**ESS/MSS**), Travel and Expense, Compensation and EHS
- Expertise in ASAP methodology, business process **analysis**, blue printing, configuring, customizing, and go-live support in several full-life cycle implementations and several production support projects
- Highly motivated, flexible with work schedules and willing to learn and take more responsibilities at work while staying abreast of technology changes
- Solid experience in establishing and maintaining effective relationship with the business stakeholders and end users
- Key Call Outs:
 - Designed and created functional and technical specifications for **HR** related interfaces
 - Understood the business processes and flows of business requirements and developed solutions
 - Played major role in the migration of **SAP** ECC System to Employee Central
 - Defined process for employee master data replication, absence and attendance data replication from **SuccessFactors** to Employee Central **Payroll**.
 - Resolved issues with Replication error by checking SLG1 (such as FTSD -Full Transmission Start Date, active employee status replication and incorrect mappings)
 - Ensured all required fields are populated in Employee Central before attempting replication for **Payroll**.
 - Configured rules for **Payroll** Control Center and resolved PCC issues such as authorization errors, data replication errors and **performance** issues.
 - Analyze current **SAP HR Payroll** processes to identify areas for improvement and potential pain points.
 - Evaluated ECP features and functionalities to determine the best fit for our business needs.
 - Defined a migration strategy, including data mapping between **SAP HR Payroll** and ECP

- Built and executed unit testing, **integration** testing and user acceptance testing after realization phase
- Used Legacy System Migration Workbench (LSMW) to upload legacy data to **SAP** system
- Build interfaces through **integration** center in Success factors
- Worked in Positive and Negative **Time Management**

Skills in Implementation:

- Skills in ASAP and AGILE Roadmap: **Project** Preparation, Business Blue Print, Realization, Final Preparation and Go Live and Support
- Can transform existing legacy system and map the entire Enterprise Structure sync with **SAP** standard functionalities
- Extensive experience in gathering and analyzing business requirements for conceptual design and coordination with ABAP/ Technical development team for customization and implementation
- Service Now Change ticket system for issue **reporting**
- Experience in preparing “As-Is” and “To-Be” documents and identifying and fulfilling gaps

Technical Skills

SAP HR Module: PA, OM, **Time Management**, **Payroll**, Benefits, Compensation and **ESS/MSS**

HR Reporting Tools: Adhoc Query, **Sap** Query, Human Resources Information System and Standard **reporting** tools

ERP Packages: **SAP** Versions ECC 6.0 **SuccessFactors** and ECP

Personnel Administration Skills

- Configured Personnel, Enterprise and Pay Structures
- Customized system per business requirements by creating features, dynamic actions, user exits, custom info types, Z-tables, Z-codes, and other enhancements to standard screen

- Defined dependent coverage that is used in Benefit plans
- Defined administrative parameters and adjustment reasons
- Defined evidence of insurability (EOI) requirements in accordance with the policies of plans offered
- Assigned wage types for benefit plans and integrated with **payroll**
- Defined payment models for the deduction requirements

Time Management Skills

- Maintained strong relationship with business to design, configure, and support **time**, **payroll**, and **HCM** Interfaces

- Performed reconciliations and controls to ensure the accuracy and integrity of **Time** and **Payroll**
- Support **Time** related functionality and **Payroll** processes (through **ESS**, **CATS**, **TMW** and **Kronos**)
-
- Created Attendance, Absence types and **Time** types while defining their characteristics
- Defined Holidays and created holiday calendars for new PSAs
- Created work schedule rules and all objects that make up the work schedule rules
- Grouped employee subgroups and Personal subareas and defined all **time** modifiers
- Worked in Positive and Negative **Time Management**
- Created absence quotas & set up the rules to accrue the quotas for **time** evaluation
- Created several **CATS** profiles and modified their characteristics to suit the client needs

Payroll Management Skills

- Tested and implemented monthly regularity **tax** bulletins from vendors (**BSI** and **SAP**)
- Led upgrade of **BSI** version from 9.0 to 10.0 and 10.0 to 11.0 by coordinating with BASIS team and end users
- Coordinated the support pack testing and validation with the end users
- Implemented Federal, State and County law changes related to Human Resources (including **tax** laws and overtime laws per state)
- Resolved Replication monitor issues in Employee Central to EC **Payroll** system
- Trained **Payroll** team on different/new processes (i.e. **Time** Entry Transfer and Bank Transfer)
- Updated 2020 W4 – Employee's Withholding Certificate Form and trained users for the new Form
- Monitored **payroll** and benefits related interfaces and resolved issues
- Resolved prorated salary issues for the new hire and terminated cases
- Created multiple Garnishments deduction rules based on state requirements

Professional Experience

FMC Corporation

Nov 2012 to March 2024

Sr. **SAP HCM Application Analyst**

Environment: Version E.C.C 6.00 and **SuccessFactors**

FMC Corporation is an American chemical manufacturing company headquartered in Philadelphia, Pennsylvania.

- Key contact with business users to design, configure, and support the benefit, **time**, **payroll**, and **HCM** Interfaces
- Acted as the intermediary between end users and technical staff to identify problems, recommend solutions, and resolve issues
- Performed and verified reconciliations and controls to ensure the accuracy of **Time & Payroll**
- Coordinated projects through different organizations such as FI Systems
- Developed test scripts (actions such as new hires, compensation change, transfers and termination), verify scenarios, resolved issues with replication to ECP.
- Validated parallel **payroll** results and identified the incorrect **payroll** calculation between EC and ECP such as non-qualified benefit plan deductions.
- Continues improvement for **payroll** process such as automated adjustment for stock options **tax** adjustments from Fidelity system.
- Processed **Payroll** in ECP and **Payroll** Control Center
