Objective

Secure a **creative** position where I can help establish the direction of future **creative** mediums and **social media** trends and practices while creating the best possible product by applying my **web design** and **development** skills and **experience**.

Computer skills

Technology

HTML5, XHTML, CSS3, SaaS, **JavaScript**, DHTML, XML, JSON, XMPie, Flash, SEO, JQuery, PHP, Python, HTML5, CSS3, .Net, Visual studio, Eloqua, Bootstrap, ASP.net, MySQL

Software

Microsoft office, Photoshop, Illustrator, InDesign, Dreamweaver, Flash, Fireworks, Captivate, Joomla, TeamSite, SharePoint 2010 – 2019, Sharepoint Online, AWS, MSCRM, **Adobe** Premier, After effects, Final Cut Pro, Sitecore, CRM, Windows, OS X, WebSphere Commerce Center, Joomla, Documentum, **Adobe** CQ5, Vignette, IBM Content Manager, GIT, WebSphere Portal, Liferay, Shopify, **Drupal** 6, 7, and 8, **Wordpress**, AEM 6.1, Xyleme, Blogger, Sitefinity, MoveableType, Documentum, Sitecore, Figma, **Adobe** illustrator, FS PRO, Vignette, Responsys, Microsoft Project/ Project Server, Office, **Mobile**, Andriod, IOS, **Adobe** Premier, Final Cut Pro, Constant Contact, Tealium, Guidebook, **Google Analytics**, **Google** Tag Manager, Figma, Sketch, **adobe** target

Social Media

YouTube, Twitter, Facebook, LinkedIn, MySpace, Yelp, **Google** Local, Yahoo Local, Foursquare,

Education

- **Stone Mountain High School**, Advanced Academic Diploma,
- **Georgia State University**, Computer Information Systems,

Experience

The College Board – 12/21 – Present – Director of **Web** Production

- Created a seamless customer **experience** for a high traffic website
- Embedded SVG Graphics in **HTML** and by using external files
- Lead team of 4 **Web** Producers for AP central
- Assigned work to Producers based on skill set and bandwidth
- Built forms und workflows using Form Assembly
- Updated code using git hub
- Conducted interviews to hire new Producers
- Create Jira tickets when issued couldn't be resolved by **web** producers
- Built templates in CMS module and customized them based on the clients requirements

- Designed, prototyped and wrote coding standards for full ADA Section 508 and WCAG 2.0 AA compliant websites and applications
- Created technical documents and new pages on our Wiki site to help web producers with things they were unsure on how to do
- Used Adobe Target to for AB testing and to track page views and link click throughout all College Board Sites
- Use multiple tools to complete UI testing, including cross browser testing, ADA testing, and XML validation
- Developed security testing plans and integrated into the software development life cycle
- Signed off on application security prior to live implementation
- Migrated Content from various CMS platforms into Drupal.
- Manage graphics and production requests from marketing and other departments
- Developed customer components for web content management
- Created customized modules and views in Drupal 7, and customized components.
- Performed content management duties using Drupal 9
- Trained new Web Producers and made sure they were efficient when completing projects
- Point of contact between Stake Holders and Web Producers
- Developed paper documents and training materials for College Board applications
- Designed and developed websites/pages in Drupal by implementing the responsive design
- Migrated content from Drupal 8 to Drupal 9
- Coded HTML, CSS and javascript for various microsites
- Developed study guide material for students taking the SAT and ACT both informally and in a classroom setting.
- Front end development using HTML, CSS, JavaScript, Dreamweaver

The CDC (Center for Disease Control) – 05/17 – 12/21 – Senior SharePoint Consultant/ Power Apps Developer

- Developed workflows for approval of pages before being published using Nintex.
- Created custom forms using PowerApps, InfoPath, and Nintex
- Updated content in SharePoint for CDC Relief Site.
- Converted existing Nintex workflows and forms using Power Apps and Microsoft Power Automate (Flow) to improve Business process.
- Created customized work flows using power automate to automate repetitive tasks, saving the company over 100 man-hours monthly
- Migrated content from SP2019 to Sharepoint Online using ShareGate
- Prepared end-user documentation and troubleshooting guides
- Designed and optimized Power BI dashboards for real-time data analysis
- Customized and configured site pages to target content to specific users.
- Used JSON to run a flow for selected document type in SharePoint lists and Libraries
- Created browser compatible forms using InfoPath and deployed to Form Library in SharePoint Sites.
- Created various custom web parts using Visual Studio.NET that could be plugged in by users into their Personal Site.
- Provided end user support on every aspect of SharePoint implementation
- Independently designed, developed and delivered SharePoint sites and Web Part Forms
- Created and Honorary Awards Nomination System using Power apps and Power Automate
- Met 100% of milestones for SharePoint, Access and Excel deployments and data transfers

- Built templates on SharePoint and customized them based on the clients requirements
- Designed, prototyped and wrote coding standards for full ADA Section 508 and WCAG 2.0 AA compliant websites and applications
- Involved in all phases of Software Development Lifecycle (SDLC) including requirements gathering, analysis, design, development, testing, and production.
- Created customized views and list options for CDC clients
- Migrated content from SharePoint on prem to SharePoint Online
- Created customized work flows based on clients request using Nintex
- Created customized word docs and .pdf's with fields that were in SharePoint that would be updated when users completed forms in SharePoint.
- Utilized AJAX, JSON, and RESTFUL API's
- Use multiple tools to complete UI testing, including cross browser testing, ADA testing, and XML validation
- Developed security testing plans and integrated into the software development life cycle
- Conducted A/B testing of designs with sample users
- Signed off on application security prior to live implementation
- Manage graphics and production requests from marketing and other departments
- Lead team of 9 developers
- Met with Stakeholders to brainstorm and create new sties, forms and workflows
- Developed customer components for web content management

The College Board – 10/13 – 05/17 – Web Developer/Web Producer

- Created a seamless customer experience for a high traffic website
- Received wire frames from the design team and hand coded new pages based on the direction of the wire frames. Examples: (<https://bigfuture.collegeboard.org/get-started/know-yourself>, <http://advocacy.collegeboard.org/>)
- Built templates in CMS module and customized them based on the clients requirements
- Created email templates and landing pages using Eloqua
- Created customized templates using Eloqua
- Designed, prototyped and wrote coding standards for full ADA Section 508 and WCAG 2.0 AA compliant websites and applications
- Managed email marketing campaigns
- Integrated Sitecore with a CRM to give the consumer a personalized experience when viewing the website.
- Utilized AJAX, JSON, and RESTFUL API's
- Use multiple tools to complete UI testing, including cross browser testing, ADA testing, and XML validation
- Developed security testing plans and integrated into the software development life cycle
- Conducted A/B testing of designs with sample users
- Implemented web application tracking to enable more accurate reporting of business and marketing initiatives using Tealium
- Set up event tracking in Tealium using a JQuery onHandler extension
- Signed off on application security prior to live implementation
- Migrated Content from various CMS platforms into Drupal.
- Manage graphics and production requests from marketing and other departments

- Developed customer components for web content management
- Created customized modules and views in Drupal 7, and customized components.
- Customized themes in Wordpress
- Performed content management duties using Adobe CQ5 and AEM Produced documents using information mapping and single source concepts
- Developed paper documents and training materials for College Board applications
- Designed and developed websites/pages in Adobe CQ/AEM by implementing the responsive design
- Migrated content from Adobe CQ5 to AEM
- Created custom tpl's using Javascript, jquery, and php in drupal 7
- Coded HTML, CSS and javascript for various microsites
- Secured platform from XSS attacks thus eliminating the need for security content review
- Developed study guide material for students taking the SAT and ACT both informally and in a classroom setting.
- Front end development using HTML, CSS, JavaScript, JQuery, PHP, Dreamweaver, My SQL
- Performed Content Management duties using Drupal 7, Vignette, AEM 6.1, Wordpress, and Liferay
- Updated database using MySQL

AT&T Small Business – 02/11 – 10/13– Web Developer/Project Manager

- Daily maintenance and improvement of customer facing AT&T website and product focused microsites
- Initiated a needs assessment and subsequent training for web and content development personnel on Section 508 and WCAG 2.0 accessibility programming, functionality and design
- Created and managed master sales catalogs using WebSphere Commerce Center
- Attended daily scrum meetings and worked in agile environment
- Designed marketing campaigns
- Create themes for our Drupal Sites
- Received wire frames from the design team and hand coded new pages based on the direction of the wire frames.
- Copy editing and writing
- Tracked video plays and page views using Google Tag Manager
- Created customized modules and views in Drupal 7
- Assisted AT&T in developing courseware which was marketed directly to users for self-training on Teamsite and Adobe CQ5
- Examples:(www.att.com/gen/general?pid=9699 , www.att.com/gen/general?pid=19265, www.att.com/gen/general?pid=19693)
- Bug fixes for existing website and website enhancements using Active Server pages (ASP)
- Updated small business pages per client request
- Created customized modules and tpl's in & drupal 7
- Designed and developed web based and windows based applications in Visual studio
- Manage graphics and production requests from marketing and other departments
- Wrote adds, tag lines, and promotional banners
- Developed UI using Bootstrap, ASP.NET, HTML5, and CSS3
- Enter content into websites, including text graphics, video and related links

- Built **HTML** templates for high traffic and complex data driven website
- Under limited supervision, estimate and plan own work
- Front end **development** using **HTML**, **CSS**, **JavaScript**, JQuery, PHP, Python, Dreamweaver,
- Performed Content Management duties using **Drupal**, Sitecore, and **Adobe** CQ5.

Home Depot – 01/08 – 02/11 – **Web Designer/Developer**

- Prepare art for online production, and designs and develops **web** pages
- Designed the **User Experience** including flow, architecture, "Look and Feel" and **ADA**/508 compliance
- Developed SEO Strategies
- Attended daily scrum meetings and worked in agile environment
- Lead **web** developer, worked with Marketing managers and art directors to ensure projects are completed on time and within budget
- Perform **quality assurance testing** on e-Commerce **web** application enhancements and logged defects
- Manage graphics and production requests from marketing and other departments
- Wrote adds, tag lines, and promotional banner
- Create Photoshop page mock-ups from approved wireframes which were then used to create **html** or Flash microsites
- Responsible for the introduction and maintenance of product page content for the homedepot.com e-commerce **web** site
- Enter content into websites, including text graphics, video and related links
- Developed concepts, control project flow, and ensure deliverable milestones are met
- Gathered information and wrote content about various new products
- Internet marketing combined with an awareness of new technologies, website **design** and site maintenance
- Under limited supervision, estimate and plan own work
- Copy Editing, **HTML**, **CSS**, **JavaScript**, Dreamweaver, Photoshop, ImageReady, Flash
- Performed Content Management duties using Documentum and **Drupal**

Recall – 6/06 – 02/08 – **Web Developer/ Project Manager**

- Develop and maintain content for law firm website and intranet
- Responsible for making PDF's and emails **ADA** Compliant
- **Design** and produce **web** pages, graphics, PDF's, and article reprints to coordinate with marketing campaigns.
- Assist in production of other electronic **media** projects such as email, Word documents and PowerPoint presentations.
- Evaluate and recommend new **web** technologies to enhance current and future IT requirements.
- Designed mini-sites
- Content Management
- Graphic **design**
- Dreamweaver, Photoshop, ImageReady
- **HTML**, **CSS**, **JavaScript**, PHP, Unix platform
- Created competition analysis reports, analyzed existing data from server logs and created statistical analysis to project current search engine traffic patterns
