Project Management

Interregional Transmission

Marketing & Sales

PROFESSIONAL EXPERIENCE

Principal, *Schulte Associates LLC*, Minneapolis, MN and Raleigh, NC 2010 – Present

SA (www.schulteassociates.com) is an executive **management consulting** firm with a **project**-focused specialty practice in **energy**-related industries. SA provides **planning**, **management**, reorganization, regulatory, and marketing services and interim CEO services to firms in **energy**-related industries. SA's primary focus is improving the operational performance of companies and developing new company or **project** initiatives. Examples of SA clients and engagements using remote, hybrid, and on-site locations include:

- **Strategic Development, Innovative Transmission and Energy Storage Project.** Led due diligence evaluation of the 4000 Megawatt, Power from the Prairie **project** (www.powerfromtheprairie.com) for combining high voltage direct current (HVDC) interregional transmission, large quantities of wind and solar **energy** and bulk **energy** storage to enable bi-directional **energy** swaps between Southern California and Chicago, and as a replacement for existing fossil-fired generation. Co-authored multiple published industry articles on the topic. See Publications.
- **Power Supply Agreement Negotiations.** Consultant to an industrial customer **planning** a new facility that will be the largest single electric load in a state, and desires high levels of renewable **energy** to make their products green. Reviewed power supply agreements proposed by local utility and assisting negotiations. Did evaluation of Request for Proposal (RFP) responses for 2 TWh/year of renewable **energy** to power the facility.
- **Strategic Development, Major Energy Storage Project.** In early 2022, led economic evaluation of an 1,800 MW, 36-hour duration pumped hydro storage **project** combined with renewable **energy** in the Upper Midwest for the **project's** utility owners. Presented study results at owner's Board of Directors.
- **Evaluator, 100% Clean Energy Plans.** Evaluated clean **energy** plans and potential for four Upper Midwest utilities to address how much clean **energy** they can technically and practically achieve. Article about study published in The Electricity Journal. See Publications. Assisted one of the utilities with legislative messages for same.
- **Coordinator, Integrated Resource Plan Development.** Coordinated **development** of all aspects of Integrated Resource Plan (IRP) for a municipal utility in Southern California. Plan to replace existing coal-fired generation with **energy** efficiency, renewables, and long-duration storage. Plan unanimously approved by City Council.
- **Strategic and Organizational Development, Innovative Energy Storage Project.** Retained as contract **Project Manager/Executive Director** for the Iowa Stored Energy Park (ISEP), a proposed, 270 Megawatt, \$400 million compressed air **energy** storage **project** to be located near Des Moines, Iowa. **Project** owner was a group of municipal electric utilities. Led due diligence process to evaluate potential viability of **project** for commercial operation. Lessons-learned are documented in a DOE/Sandia National Labs report that has been downloaded to more than 500 locations worldwide (www.lessonsfromiowa.org).
- **Strategic and Organizational Assessment, Public Power Agency.** Performed a **strategic** and organizational assessment for a public power agency serving 12 municipal utilities in the Upper Midwest.

Developed an Agenda for Action for the agency board to follow in addressing strategic and organizational opportunities and challenges. Robert was appointed to and completed a multi-year project as Interim Chief Executive Officer (CEO) of the agency to accomplish these actions.

- *Electric Power Plant Regulatory Permitting. Provided lead strategic, organizational, regulatory, legislative and communications consulting services for five Minnesota, South Dakota and North Dakota investor-owned and public power utilities in permitting and certificate of need activities in all three states for the Big Stone Unit II project, a 580 Megawatt supercritical pulverized coal baseload electric generation facility and associated transmission developments in Northeastern South Dakota and Western Minnesota. Secured all necessary permits.*
- *Company turnaround--natural gas development. Performed a corporate operational assessment for the Board of Directors of a natural gas development and production company with a very large lease position (250,000 acres) in southwest Wyoming. Subsequent to the study and at the request of the Board, Bob became interim CEO to turn the company around. During the next four months, SA reduced staffing by 50%, brought the company to positive cash flow for the first time in company history, and recruited/hired a permanent CEO. The study also led to replacement or discharge of the company chairman, CFO and other key personnel. The company's stock value subsequently increased more than 100-fold.*

Multiple Positions, Northern States Power Company (NSP), Minneapolis, MN

- *Vice President, Marketing and Customer Service.*
- *Vice President, Rates and Corporate Strategy.*
- *General Manager, South Dakota Region.*
- *St. Paul Area Distribution Construction and Operations Manager.*
- *Distribution Engineering Manager, Minneapolis Division.*
- *Product Development Manager, Electric Marketing.*
- *Associate Planning Engineer, Power Supply Planning.*

Communications Engineer/Officer, U.S Air Force, St. Louis, MO

Held a series of positions involving procurement and installation of ground navigation systems including radar approach control centers, TACAN, VOR, instrument landing systems and various meteorological sensors. Attained rank of Captain.

EDUCATION

- *Master of Science, Electrical Engineering, University of Missouri-Columbia, Columbia, MO, USA*
- *Bachelor of Science, Electrical Engineering, South Dakota State University, Brookings, SD, USA*

VOLUNTEER EXPERIENCE

- *Board of Directors, Boys & Girls Club of St. Paul, MN*
- *Board of Directors, Northern Star Council, Boy Scouts of America, VP of Marketing, Minneapolis, MN*
- *Council of Trustees, South Dakota State University Foundation, Brookings, SD*

TECHNOLOGY SKILLS

Zoom, Webex, Go to Meeting, Microsoft Suite (Word, Excel, PowerPoint, Outlook, Publisher, Teams), CRM.

PUBLICATIONS

Author or co-author of 13 industry articles and publications. Examples:

- *R. Schulte and R. Wahle, "What FERC Should Do to Enable Interregional Electric Transmission", The Electricity Journal, November 2024, available at: <https://authors.elsevier.com/a/1k4tG3ic--HQSi>.*
- *"Power from the Prairie Project Concept Development Study Final Report", R. Schulte, Editor, March, 2023, available at: www.powerfromtheprairie.com/the-cds.*

See full listing at: www.powerfromtheprairie.com/publications.

PROFESSIONAL RECOGNITION

South Dakota State University, Center for Power System Studies (CPSS), Wayne E. Knabach Award for Excellence in Power, October 2023.

PERSONAL INFORMATION

- *I enjoy writing, golf, electronic music production, and continuous learning.*
